TOBACCO JUICE MARS

1134

Zion City, Ill., Mch. 2.—Bells and whistless sounded at hourly intervals today in Zion City in celebration of the anniversary of the purchase of the Zion City estate from the federal re-ceivers three years ago. Groups of elders and helievers went to the main tabernacle and joined in a praise ser-vice. A discordant note in the general celebration came at tabernacle No. 2, the small open structure across from the F. B. Cook electrical works where smokers and the followers of Wilbur Glean Voliva have many times clashed. When the elders reached tabernacle No. 2, they found the steps drenched with liquid which they said "had ap-pearance of tobacco juice." They also declared that quantities of hot tar marred the floor of the building.

Marred the floor of the building. Not daunted by the disorders the elders and a group of singers, joined in the hymn, "Ring the Bells of Heaven," while employes in the electrical works looked scornfully on, but made no demonstration demonstration.

Engineering Student Makes Discovery of Value to Ministers.

Iowa City, Ia., Mch. 2.—Ministers all over the world should hail with delight the discovery of Ralph Eyre, of Osceola, a senior electrical engineering stu ola, a senior electrical engineering stu-dent. Mr. Eyre has made a great dis-covery. He has proved, to his own satisfaction at least, why bald headed men go to sleep in church. He says the bald map's troubles all are caused by defective methods of church lighting.

"A glaring light before the eyes is sure to produce drowsiness," Mr. Eyre reasoned. "Men with bald heads and negligible eyesbrows are less protected from glaring lights than others who are blassed with a full head of bain are blessed with a full head of hair.

"Women who wear hats more or less resembling parasols in church, of course, have little trouble in keeping awake."
