#### Oh, You Girls!

The College Girls are coming to town. They will appear at the Opera House on May 4 and will give the cleanest comedies ever seen in this city. Among the long lines of pretty girls performing will be found Nettie Wilson, Gertie McKee, Cora E. Burch, Louise Bradley, Irene Rummel, Nellie Hoyt, May Russell, Goldie Smith, Rena Williams, Geo. Manvro, Jack

Russell, Frank Waldo, comprise the male contingent. Popular prices will prevail. Get seats early, as they will go fast after the parade. Bring the ladies to see the College Girls, as their performances are high class and clean.

#### Bring Your Bucking Horses.

If there is a bucking horse in your neighborhood that no one can ride,

bring him in on Yankee Robinson circus day, and Texas Bill and his band of rough riders—some of the best in the world—will see what can be done about handling him. Sometimes they buck over ten miles of territory, yet in the end the cowboys seem to handle them. The bucking contest in the Wild West department is without a doubt the most amusing sport known. Texas Bill and his cowboys, cowgirls, Mexicans and rough riders of the world, are with Yankee Robinson circus and they will ride any bucking horse you bring them.

#### Water Lost In Three Ways.

Water in the soil may be lost in three ways. By downward percolation, by evaporation at the surface, and by use of the plants. As there is scarcely ever enough water in many parts of Nebraska to allow percolation, it need not generally concern the farmer. Evaporation, however, is a thing that can be partially controlled. Moisture comes to the surface like oil in a wick. If land is cultivated, the evaporation is greatly retarded, for water moves slowly thru a loose soil. As rain is generally followed by a wind which induces evaporation, it is well to cultivate as soon after a rain as possible. It also assists in destroying another factor in the loss of water, the weeds. Cultivation kills weeds which use the moisture that should be reserved for soil. "The Storage and Use of Soil Moisture" may be secured upon application for Bulletin No. 140 of the Bulletin department, University Farm, Lincoln.

#### The Early Fly.

Walt Mason. The early fly is here; you see him buzzing near; so take your stand with club in hand and soak him in the ear. The early flies are worst of all the breed accursed; for they'll give rise to countless flies which cannot be dispersed. One active April fly, unless you make it die, will bring a slew: your meat to chew, and spoil the milk and pie. So, like the Maid of Arc, arise in helm and sark, and swat the flies between the eyes, from daylight until dark. Thus serve your native land, a swatter in your hand, and then your name in Hall of Fame, on sculptured stone will stand. There is no better plan to help your fellow man; a peril dies with dying flies, so swat them while you can. Just so you kill the brutes, the method little boots; one takes an axe and breaks their backs, one takes his gun and shoots. I know one earnest

gink who drowned his flies in ink; some fellows boil their flies in oil—a first rate scheme, I think. But any plan will do, just so you kill a few, each passing day, so slay and slay, with purpose high and true.

# Don't Run

*For the Doctor when a person is dying, it's too late. It's too late to cure your hogs when the cholera has broke out.*

*To prevent hog cholera feed International Stock Food to the young sows and pigs; keep their blood in good condition and the cholera will not get a hold. Don't think a 25 cent box is enough for 100 hogs.*

*Don't think, because you fed some cheap stock food and did not get results, it don't pay.*

*International Stock food contains medicine that, if it was bought in small quantities, would cost you fifty times more than when you get it in the Food. Besides, only one Doctor in a hundred could mix it.*

## Too late! Too late!!

### If I had only saved my money

I could have accepted this offer and spent my remaining days in comfort.  
It is too late! too late!!

This man did not save his money, thinking a chance to use it would never come. When a splendid opportunity came he had no money and doomed himself to live in poverty for the rest of his life—blaming himself every remaining moment for his folly and drawn out misery.

You will one day have such an opportunity. Take heed. Start saving now. Come in and talk it over—today.
