

Safe Home Matches are Wonderfully Cheap

A first-class mechanic could not make, in a day, as many Safe Home matches as you can buy for five cents. Even if he could, the matches would not be of uniform size, shape, length, strength or thickness.

We make Safe Home matches by machinery—millions and millions of them daily.

The wood is treated and cut, the sticks grooved and compressed, and the ends paraffined and

“double dipped”—all by machinery.

You pay no more for Safe Home matches than for the kind you now use. The price is the same—five cents for a large box of perfect matches.

Why perfect! Because non-poisonous. Because non-sparking. Because the sticks do not break when rightly used. Because the heads do not fall off. Because the flame burns evenly. Because Safe Home Matches are impregnated to prevent live charcoal when the flame is extinguished.

All grocers. Five cents a box.

FRENCH ARE FORCED TO FALL BACK

Left Wing Yields to German Attack.

WAR OFFICE STATEMENT

Teutons Arrested Momentarily in Region of Rethel.

AUSTRIAN DEFEAT COLOSSAL

Many Regiments Destroyed During Fighting in Galicia.

While the whole world is awaiting definite news from the battle line, the French war office contents itself with the simple statement that, as a result of the turning movement of the German army, and in order not to accept battle under unfavorable conditions, the French troops again have retired.

From the British capital no word is forthcoming regarding what are considered the most momentous operations of the war. While Berlin claims a German victory over the Russians in East Prussia in the capture of 70,000 men, the Russians claim an important victory over the Austrians on the Galicia side with 30,000 prisoners.

Another German aeroplane has been dropping bombs into Paris, and according to the French official statement the American ambassador has organized a committee and has sent a protest against this method of warfare to the government at Washington.

The Belgian special commission on its way to the United States to protest against alleged German atrocities, has been received by King George and has presented him with an address setting forth some of the happenings in Belgium during the present campaign and has warmly thanked Great Britain for its intervention.

Paris, Sept. 2.—The following official statement was issued by the war office:

"On our left wing as a result of the turning movement of the German army and in order not to accept battle under unfavorable conditions, our troops retired toward the south and southwest. In the region of Rethel our forces have arrested the enemy momentarily. In the center and on the right the situation remains unchanged."

The position of the allied armies, according to the opinion of French military experts, is good. The Germans, it is pointed out, are attempting a movement which, if it fails, will leave them in a dangerous situation, with their troops exhausted.

The British army, fresh and rested, the experts say, is about to engage the extreme German right and to support the French, who have been retiring slowly for several days.

The Germans are fortifying the environs of Brussels and they have transformed the cemetery into a redoubt.

Russ Victory Brilliant.
A Rome dispatch to the Temps says the Russian victory over the Austrians on the Galician side was brilliant, the right wing of the Austrian army having been decisively turned and cut to pieces, leaving 30,000 prisoners in the hands of the victors.

On the Vistula front when the Russians encountered the Austrian left wing the result was somewhat uncertain, but the arrival of important reinforcements enabled the Russians to take a vigorous offensive and repulse the enemy. They captured a large number of pieces of artillery.

The Russians, the dispatch adds, executed many bayonet charges against the Austrians, which had a large share in deciding the issue of the battle. Elsewhere the Germans, endeavoring to effect a junction with the Austrians, sought to meet the Russian attack with a counter attack offensive, but were repulsed with losses.

Austrian Defeat Colossal.
London, Sept. 2.—The Central News publishes a dispatch from Rome saying telegrams received there from Bucharest, Roumania, declare that the Austrian defeat in Galicia was colossal. Trains are transporting tens of thousands of wounded; many Austrian regiments have been destroyed.

The Westminster Gazette publishes a dispatch from Gothenburg, Sweden, saying that the Wilson line steamer Oslo has arrived there from Hull and reports having heard heavy cannonading as it passed through the Skagerak, the waterway between northern Denmark and Norway.

MORE GERMAN BOMBS THROWN INTO PARIS

French Flier Describes Trip Over German Lines.

Paris, Sept. 2.—A German monoplane dropped two more bombs in the streets of Paris. Lieutenant Campaigne of the aviation corps, while flying over the German lines at a height of 1,800 yards, was subjected to the enemy's fire. A shell struck his machine and stopped the motor. The aeroplane oscillated violently in the wind, but the lieutenant succeeded in righting it and in volplaning into the French lines. He landed safely and gave important information concerning the German position.

CLAIM DEFEAT OF RUSSIANS

German Crush Czar's Forces at Allenstein.

TAKE 70,000 PRISONERS.

Two Commanding Generals Asserted to Be Among Captives of Victorious Teutons—Russian Artillery Said to Be Complete Loss.

Washington, Sept. 2.—Official advices received through diplomatic channels reported two of the most important developments of the present war.

The German embassy gave out a message from Berlin, received by wireless via Sayville, L. I., claiming that the German forces had captured near Allenstein 70,000 Russian prisoners, including two commanding generals and the entire equipment of Russian artillery.

See Turk Against Them.
Great Britain asked the United States to be prepared to care for British diplomatic interests in Turkey, indicating that the allies had practically lost hope of persuading the Ottoman empire to remain neutral.

Dispatches received at the British embassy referred to the incorporation in the Turkish army of several German officers, which was regarded as the forerunner of intervention by the porte in behalf of Germany.

Means Italy With Allies.

Turkey's entrance in the conflict means the alignment of Italy as well as Greece on the side of Great Britain, France, Russia, Serbia, Montenegro and Roumania, diplomats here believe. Just what the attitude of Bulgaria will be is a matter of uncertainty, though the Turkish ambassador here gave out a statement speaking of the community of interests of Bulgaria and Turkey.

The Turkish situation was watched with deepest concern by diplomats because of the imminence of a general war in the Balkans and extension of the war drama to all of eastern Europe.

The official statement of the big German victory against the Russians attracted wide attention. Military observers pointed out that if the number of Russians taken prisoners had been correctly estimated at 70,000, there must have been great casualties. No mention of this was made.

U. S. HAS RIGHT TO BUY SHIPS

Hearings on House Merchant Marine Bill Concluded.

Washington, Sept. 2.—The right of the United States to buy merchant ships of any nationality for neutral uses cannot be disputed by any nation declared Secretary McAdoo of the treasury department before the house merchant marine committee, supporting the administration merchant marine bill.

Mr. McAdoo refused, however, to discuss the diplomatic phases of the situation when asked if protests had been received from Great Britain or France against the possible government purchase of German vessels. Hearings on the bill were concluded and it will be taken up today for immediate committee action. An early report to the house is expected.

Russians Regret Samsonoff Deeply.

London, Sept. 2.—A telegram from St. Petersburg says: "Lieutenant General Samsonoff, who commanded a corps in the Russo-Japanese war, and until recently chief of the Russian-Turkistan military district, is deeply regretted."

The foregoing would seem to indicate that General Samsonoff had died although no report of his death has been received here.

Canadians to Bermuda.

Halifax, Sept. 2.—Eight hundred British regulars will be withdrawn from service in Bermuda and replaced by an equal number of Canadian volunteers. Later the Canadians may also be sent to the front in Europe. The Duke of Connaught, governor general of Canada, so announced in reviewing the Royal Canadian regiment, which has been selected for service in Bermuda.

Britons Put Ban on Export of Jam.

Washington, Sept. 2.—War on the continent and mobilization in England will not be allowed to affect the British breakfast. Ambassador Page at London reported to the state department that exportations of jam and marmalade, an essential part of the British breakfast, had been forbidden by English authorities.

Rounding Up Reservists.

Cape Town, Sept. 2.—The process of rounding up Austrian and German reservists from the different parts of the Union of South Africa and holding them as prisoners of war has been proceeding for a fortnight. Some 8,000 are now detained in a special camp at Johannesburg.

France Calls Last of Its Reserves.

Paris, Sept. 2.—Official announcement was made to the effect that the minister of war has decided to call out immediately all the reservists in the country who have not been previously summoned to the colors.
