Boys, when you speak of your father don't call him the "old man." Of course you are older now than when you were taught to call him "father." You are much smarter than you were then, you are much more manly looking, your clothes fit you better, your hat has a modern shape and your hair is combed differently, in short, you are "flyer" than you were then. Your father has a last year's coat, a two-year-old hat and a vest of still older pattern. He can't write such an elegant note as you can and all that, but don't call him "old man." Call him "father." For years he has been hustling around to get things together, he has been held to the thorny path of uphill industry, and the brightest half of his life has gone from him forever. He loves you though he goes along without saying much about it, therefore be not so ungrateful.

Although everything that willing hands and loving hearts could do was done she sank rapidly and quietly passed away upon the above date.
