

Where Are You Going This Summer?

Not everybody can go to California; the summer will bring thousands from the East to the ranch resorts and hotels of scenic Colorado, the Black Hills, the Big Horn Mountains, the Abharoka Mountain ranches beyond Cody.

THE NATIONAL PARKS—This is going to be a big season for Glacier and Yellowstone National Parks, and for Estes Park, Colo., just north of Denver, adjoining the new Rocky Mountain National Park. The increased number of Eastern visitors to these western summer localities during the summer of 1914 showed the "grip" that the glorious summer life of the mountains was taking with Eastern people.

Publications now coming off the press. An early mention is made to call them to your attention and to indicate the wisdom of making your plans early. Write me of the locality you have in mind.

THE RICHEST, MOST FERTIL LAND IN AMERICA

Where is it? How is it farmed? What do they grow on it? The delta and reclaimed lands of the lower Sacramento and San Joaquin rivers sections of California has been pronounced by competent land examiners the most fertile land in our country. It is comparable only to the Valley of the Egyptian Nile or the dyked lands of the Netherlands. We have published a booklet describing the resources of—

San Joaquin County, California

This booklet, containing a fund of information, will be sent free to any address. Better still, enclose ten cents in stamps and we will send this book, a map of California and a sample copy of Sunset Magazine.

A BRONCHIAL COUGH

is wearing and dangerous because the inflamed, mucus-filled tubes interfere with breathing and the fresh air passes through that unhealthy tissue.

Probably no other remedy affords such prompt and permanent relief as **Scott's Emulsion**; it checks the cough, heals the linings of the throat and bronchial tubes and strengthens the lungs to avert tuberculosis. This point cannot be emphasized too strongly—that **Scott's Emulsion** has been suppressing bronchitis for forty years and will help you.
