JORDAN'S STORE NEWS.

A few reasons why I sell for cash. I eliminate all bad debts; when such bad debts are cut out I am able to sell my goods for less money because I don't have to charge up anything to such losses. When you pay cash there is no chance of having any misunderstandings which invariably come up when a person does a credit business. Many of you have paid for the same goods twice, but when you pay cash this is not the case. When I sell for cash I can buy for cash and by doing so can take all my discounts and can buy goods cheaper and can therefore sell them cheaper. Some people say that I sell goods too cheap; but why should you worry, what is my loss is your gain. I can make your dollars have more cents.

Harry G. Jordan.

the first of the week, is a candidate for the appointment for federal judge to succeed Judge Munger, who retires in October.

The \$20,000 damage case of Oscar A. Hagensick vs. Dr. R. M. Campbell was dismissed in district court last Saturday and costs taxed to defendant. This was an action brought by Hagensick against the Doctor for the alienation of the affections of Hagensick's wife.

W. V. Hunter, who went to Omaha

about six weeks ago to receive treatment for his foot, returned home last Thursday night. While not able to walk without the use of crutches W. V. says that the foot is getting along nicely and that he thinks he will be able to run foot races before very long.

Frank Hammerburg of Celia, was in the city yesterday. Frank says that crops are in good condition in his neighborhood. Small grain, he says, is better than he has ever seen it, in this county or in any other; winter wheat and rye being especially good. Corn is also doing nicely and with sufficient warm weather we are bound to have a bountiful crop.

E. S. Scofield of Neligh was in the city last Friday, having come up from Neligh to inspect The Frontier's linotype machine. Mr. Scofield was engaged in the newspaper business in Neligh for several years, disposing of his paper, the Neligh Register, about a year ago to Prof. Mohrman formerly of Atkinson. The Grand Moving Picture Show will open for business in the K. C. opera house next Thursday. This show will be conducted by the Knights of Columbus Hall Company and they expect to put on a first class show with change of program nightly. Their machine will be in the rear of the building, instead of in front, and the pictures will be thrown on the screen from the rear. This machine is said to be a great improvement upon the other make of machines, and all danger of fire is removed as the machine is outside of the building.

Thomas Nolan, who went to Lincoln last week and took the state examination for admission to the bar, passed the examination with flying colors, standing first in a class of fifteen. From Lincoln he went up to Omaha where he was also admitted to practice in the United States federal court. He returned home Friday night. He has not as yet decided where he will locate for the practice of his profession, but his many O'Neill friends wish him success in his chosen profession, no matter where he may decide to hang his shingle to the breeze.

Hugh O'Neill came in from the north country Tuesday. Hugh says the cloud burst they had in their country a few weeks ago and in which he lost considerable property, done a great deal of damage in that section of the county. He says that walls of water ran down through the canyons and gulches sweeping everything before it, even cutting down the slate rock hills that have stood for centuries and scattered the slate all over adjacent farm lands. He says that people were very fortunate in the fact that there were no lives lost in the flood.

\$375.00

is the amount a Blacksmith is out. He kept his cash on hand. He paid all his bills in cash. He was not an expert bookkeeper. He was too busy working. He kept memorandums of what he received and what he spent. There is \$375 he cannot account for. Had he kept his money in this Bank he would not be "out." We would have done his bookkeeping without charge. We would have furnished him with statements at any time, showing just what he had put in Bank, and exactly what he had paid out. He now keeps a Bank Account.

Many a Blacksmith knows as little about bookkeeping as a bookkeeper knows about shoeing a horse.

This bank carries no indebtedness of officers or stock holders and we are a member of THE FEDERAL RESERVE BANK. Capital, surplus and undivided profits \$95,000.00.
