#### Injured Street Sweeper Fatally Hurt, Struggles to Return to His Work, but Death Claims Him.

Frederick Birkmer, a street sweeper of New Rochelle, N. Y., "to poor to be laid up by an accident, "he said, was knocked unconscious when struck in the back in the Pelham road by a motorcycle ridden by Frank Purdy of Port Chester. Birkmer, still unconscious, was being lifted into an ambulance, when he regained his senses. struggled to his feet and staggered toward his broom.

"Can't afford to be hurt," he muttered.

Purdy and a hospital surgeon forced him into the ambulance. At the hospital his skull was found fractured. He was prepared for the operating table. A moment later he sprang from bed. tore off the bandages, and, struggling with an interne, strove to reach a doorway.

"I must go back," he faltered. Then he fell unconscious and died.

"What's his latest?" "Why, he's been trying all the morning to prove that 1915 is an unlucky year. He's manipulated the figures 1-9-1-5 with addition, subtraction, multiplication, division and the

rule of three." "What has he found that seems un-

lucky?" "Nothing, except that when he added 1-9-1-5 together and subtracted the

total, 16, from 1915, it left 1899." "Yes?

"And that was the year he married."

Not Well Enough to Work. In these words is hidden the tragedy of many a woman, housekeeper or wage earner who supports herself and is often helping to support a family, on meagre wages. Whether in house, office, fac-tory, shop, store or kitchen, woman should remember that there is one tried and true remedy for the ills to which all and true remedy for the ills to which all women are prone, and that is Lydia E. Pinkham's Vegetable Compound. It promotes that vigor which makes work easy. The Lydia E. Pinkham Medicine Co., Lynn, Mass.

The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the func-tions and growth of the cells which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to
