SECURE A FARM IN NORTH PLATTE VALLEY

THE NORTH PLATTE VALLEY, frequently called the "Scottsbluff country," is making a more wonderful showing every year in its production of irrigated crops—sugar beets, alaffa, potatoes, wheat and oats; it is becoming one of the richest localities for breeding and fattening of live stock. Many Government irrigated holdings of 160 acres are being reduced to 80 acres, making it possible for land seekers to secure 80-acre tracts irrigated under the reliable system of the Government on terms that will never again be duplicated. All we can ask is that you visit the Valley and let our agents put you in touch with reliable firms. Ask about the crop tonnage, the increased nead values you may expect there in the next five years. Or, write for the Burlington's new publication, "North Platte Valley." Let me help you go there and see for your self this locality which is the talk of the West.

of the West.
