

## Such tobacco enjoyment

as you never thought could be is yours to command quick as you buy some Prince Albert and fire-up a pipe or a home-made cigarette!

Prince Albert gives you every tobacco satisfaction your smoke-appetite ever hankered for. That's because it's made by a patented process that cuts out bite and parch! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

On the reverse side of this tidy red tin you will read: "Process Patented July 30th, 1907," which has made three men smoke pipes where one smoked before!

# PRINCE ALBERT

the national joy smoke

has a flavor as different as it is delightful. You never tasted the like of it! And that isn't strange, either.

Buy Prince Albert everywhere tobacco is sold in tippy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and that corking fine pound crystal-glass humidors with sponge-moistener top that keeps the tobacco in such clever trim—always!

Men who think they can't smoke a pipe or roll a cigarette can smoke and will smoke if they use Prince Albert. And smokers who have not yet given P. A. a tryout certainly have a big surprise and a lot of enjoyment coming their way as soon as they invest in a supply. Prince Albert tobacco will tell its own story!

### May Divide Township.

The Holt county board of supervisors may divide townships when petitioned to do so.

The supreme court so holds in a decision handed down Saturday in the case of Ewing township against Golden, in which the former objected to the creation of the new township from a portion of its territory.

A county under township organization has power to create new townships, says the court in deciding that Golden township was legally created.

### How Mrs. Harrod Got Rid of Her Stomach Trouble.

"I suffered with stomach trouble for many years and tried everything I heard of, but the only relief I got was temporary until last spring I saw Chamberlain's Tablets advertised and procured a bottle of them at our drug store. I got immediate relief from that dreadful heaviness after eating and from pain in the stomach," writes Mrs. Linda Harrod, Fort Wayne, Ind. Obtainable everywhere. 47-4

### W. C. T. U. COLUMN.

Edited by the Ladies of the Local W. C. T. U.

Idaho people are so pleased with statutory prohibition that they are getting ready for a vote in a constitutional amendment next fall.

In Iowa, the Cedar Rapids brewery now makes yeast, with an increase of about one-half in the number of employees. Iowa City brewery now makes butter. Arrests in eight of the largest cities are cut down nearly fifty per cent the first month.

Colorado says "participation as far ahead of anticipation." Bank clearings in January, 1916, were \$8,000,000 ahead of January, 1915. Dry goods report 50 per cent increase. Mining camps and small towns are greatly benefited. A dealer in vegetables in a small way, in the lower part of the city of Denver, tells of people who used to beg for the wilted stuff left over, now bring in nickels and dimes to buy fresh, and that the third week of prohibition he sold more bunches of vegetables than during the entire previous year. Same story as others about fewer arrests and fines.

North Dakota has had prohibition for twenty-six years. Saloons closed, and in their place were soon housed meat markets, shoe shops, clothing, dry goods, grocery, and other stores offering comfort, necessities and luxuries instead, for the whole family and community. Then came the "dreadful effect on business." Merchants soon reported large increases in cash sales much better and collections were more easily made, less credit asked, and business in general very much more satisfactory. The decrease in arrests and inmates of poorhouses were very noticeable. The poor-houses in some cases were made into hospitals. Prohibitory law is very generally well enforced. "Blind pigs" pay the internal revenue tax and thus put the U. S. government behind them and their business, in that manner respecting the good old theory of "state rights."

## There is no after-glow

When you blow out a Safe Home match, it is OUT. And it stays out.

Every Safe Home match is chemically treated to prevent after-glow.

Safe Home matches are extra long and extra strong.

The extra length means extra service.

Safe Home matches are non-poisonous. They are safe to have in the home.

All grocers. 5c a box.

## At Last--A One-Adjustment Cream Separator

BEFORE you buy any cream separator, come in and look at the Primrose. But one adjustment is needed to keep it in perfect operating condition. This adjustment is a simple one for keeping the bowl at the correct height—an adjustment that you or your wife can safely make.

The adjustment is made from the outside of the separator by either raising or lowering the bearing containing the hardened steel point upon which the spindle revolves. A slight turn with a screwdriver, perhaps once a year, does the work.

The Primrose is a well-constructed, close-skimming, durable cream separator, one it will pay you well to buy. When can you arrange to see it?

HERE is a low priced car that requires no "extras." Its equipment includes everything you want your car to have. You have nothing more to buy. And this equipment, in keeping with Overland standards, is high grade in every particular. The electric starting and lighting system is the well known Autolite, two-unit type. It has a magnetic speedometer and a full set of tools. The tires are four inches all around; non-skids on rear. Demountable rims are used and an extra rim is included. The body is the latest streamline design, finished in black, with nickel and aluminum trimmings. Here is a car to be proud of and in which you can take justifiable pride.
