ten by him and published in a newspaper in which he referred to Washington as a "slave holder" and "inveterate drinker." Under the state law Haffer is liable to fine and imprisonment. He probably will appeal.

Every modern human being is pickled in brine until his health is ruined and he is brought to an untimely grave through his salt-eating habit, according to Dr. Charles Woodward of the Illinois State Eclectic Medical Society, which is holding its convention in Chicago. So much salt is eaten by civilized white men that cannibals cannot eat him, the doctor asserts. Dr. Woodward said: "Every man needs 20 grains of salt a day—he gets about 600. 'The South Sea Islanders never eat a white man and the explanation given is that the white men are too salty.'"

New details regarding the reported wounding of Villa in the fight with Carranzists at Guerrero, have been brought into Gen. Pershing's camp in Mexico. Charles E. Tracy, a scout, visited Guerrero the day following Villa's flight from that town and went to the home of Seora Refuga Saenz, the nurse in whose house Villa is said to have been cared for after being wounded. Tracy asserts the Mexican wept for two hours before she would admit knowing anything regarding Villa's condition. Then she said the bandit leader was brought to her home with his head bandaged so he could not be recognized, that her own folks were ordered out of the place and only she and Gen. Beltran were allowed in Villa's room.

Giles W. Trask, wealthy farmer and elevator owner of Frankfort, Ind., confessed Thursday, the police say, that he killed Mrs. Alice A. Evans, a fortune teller known as Mme. Rand. Trask said the woman had been black-mailing him. Trask, who is married, is 45 years old and the murdered woman 56.

A pearl necklace that was stolen from Mrs. Howard Cooper Johnson wife of a lawyer in Philadelphia, when she was a girl, thirty-five years ago, was returned Thursday. An anonymous letter accompanied the parcel post package which brought the necklace back. The writer explained that she had become conscience-stricken and could keep the necklace no longer.

Sheriff White of Murphysboro, Ill., Thursday wrote to Gov. Dunne, refusing to say how many persons he would invite to the hanging of Elston Scott, negro murderer, set for May 12. The governor is in Chicago, but on his return will grant a new reprieve to Scott to July 14. This will be the fourth reprieve granted because White will not promise to private execution.

Whooping Cough.
"When my daughter had whooping cough she coughed so hard at one time that she had hemorrhage of the lungs. I was terribly alarmed about her condition. Seeing Chamberlain's Cough Remedy so highly recommended, I got her a bottle and it relieved the cough at once. Before she had finished two bottles of this remedy she was entirely well." writes Mrs. S. F. Grimes, Crooksville, Ohio. Obtainable everywhere 474

M. E. Church Notes.
This is the second week of the revival and much has been accomplished for Christ Jesus our Lord, to whom be all the praise.

We are looking for mighty results, and by prayer and consecrated endeavor we will succeed in securing these results.

We would like to say to all Christian people that you are cordially invited to take part in this blessed revival. This is not for the Methodist Church alone, but for all O'Neill and we would be more than pleased to have the co-operation of all christian people. Hear the Macedonian cry, "Come over and help us," and be sure to come while the opportunity is at hand. The crowds are good, but we will see greater, and we ask that all come over and hear the evangelist preach the glorious gospel of Christ the Lord. Come and hear the two-choirs, Senior and Junior, sing the good old songs and many new ones too. Such cheerful singing so faithfully rendered will do you good. Hear the choirs sing tonight and for the remainder of the series of meetings. Evangelist Heddon is not preaching denominationalism. He is preaching Christ as the Savior of all mankind. He is a member of the Congregational denomination and is here in the interests of Christ's Kingdom and to seek for the salvation of souls. He preaches the gospel in such a plain, practical way as will help all the churches in O'Neill. Come out and hear him. Sermons every night, except Saturday, at 8. If you can't come at 8, come later. Preaching at 8:30 preceeded by song service.

Mothers' Day will be celebrated next Sunday morning by a special sermon for that memorial occasion by one who has never personally known a mother's love and care. The speaker being left an orphan at three years of age. Nevertheless he knows and appreciates the "other fellow's" mother. A carnation will be presented to every mother entering the church next Sunday morning. Bring your mother to church, young people, and show that your love for her is strong and imperishable.

Young people come to church next Sunday morning and honor the memory of your "best friend," and if your Mother is living be sure to either give or send to her a bunch of flowers, she will be so happy to know that you have not forgotten her sacrifices made in your behalf. At 3 p. m. there will be a special address especially for the Young people. This means all young people of the higher grades of school work, and those yet unmarried.

At 7:15 there will be the regular meeting of the Epworth League to which we cordially invite all the young people who enjoy a live spirited service.

At 8 p. m. the evening service will be one especially prepared for the young people where-ever they are to be found for young people are very much the same wherever you go. This service will be a practical one. The subject is entitled "The Drama of Life in Three Acts." This is solid, clear-cut, convincing. Don't forget the meetings of next week. Prayer meeting for one half hour every morning from 10 to 10:30. This does not include Monday and Saturday mornings. Bible Study every afternoon excepting the days already mentioned at 2:30 to 3:30. BRING YOUR BIBLES. Let everybody boost for the revival. What helps this revival will help the city and people. This is O'Neill's opportunity. Grasp it NOW. This is your chance. Questions sent up to the pulpit will be answered every night next week. What is it you wish

The Most Cream Separator Value For Your Money

ON a Primrose separator there are no mechanical adjustments to make except the turning of one screw to bring the bowl to the correct height—once a year, perhaps. Every bearing is oiled with clean, fresh oil before the handle makes a quarter turn. There is no chance to injure the spindle or spindle bearings when replacing the bowl. These are three exclusive Primrose separator features.

The milk supply bowl is firmly set in one place—the right place. The milk float goes into just the right position, either side up. The gears are all rigidly fastened. The bowl has the cleanest, closest-skimming device and the largest skimming surface ever put into a cream separator. The Primrose is worth more than any other separator built, and it sells for less than many of them. Drop in and let the dealer show you why.

TO THE County Commissioners and TOWN BOARDS

I am selling Metal Culverts and ask for a chance to figure with you. I will guarantee quality and prices. If out side traveling salesmen call on you absorb the sale talk, but as a long time resident and tax payer of the county I ask you to wait with your order 'till you hear from me. If I can't satisfy you I don't expect the business.

SUMMARY OF NEWS.
(Continued from page four.)
Husting declined to say who received the letter. It set forth the writer had been in Washington, had conferred with the leaders and that the "situation was serious."
At Tacoma, Wash., Paul Haffer was convicted by a jury of "libeling the memory of George Washington." Haffer's conviction followed a letter writ-

COMFORTING WORDS.
Many an O'Neill Household Will Find Them So.
To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kindey sufferer grateful. The following advice of one who has suffered will prove comforting words to hundreds of O'Neill readers.
J. J. Lingel, farmer, Page, Nebr., says: "I had a lot of trouble from backache and an almost constant soreness just over my kidneys. If I took cold, the pain got very severe and left me so lame for a few days that I couldn't work. I tried several medicines but with no benefit. Finally, I used Doan's Kidney Pills and they cured me."
Price 50c, at all dealers. Don't simply ask for kidney remedy—get Doan's Kidney Pills—the same that cured Mr. Lingel. Foster-Milburn Co., Props., Buffalo, N. Y.

Needless Losses On Stock.
The number of farms showing stock receipts too small to cover the value of the feed consumed is surprisingly large. Surveys of the College of Agriculture indicate rather conclusively that this is chiefly the result of improper feeding and care, rather than inferior breeding or quality of the live stock. This is particularly true with strictly meat producing animals such as hogs and beef cattle, which possess more uniform ability in production. Too much stock is underfed and poorly sheltered. While it sometimes pays to rough stuff through the winter, especially in the western part of the state, as a rule it is a very expensive practice. A large percentage of the pigs lost at farrowing time or soon following is the result of negligence. In many cases this has meant the difference between profit and loss.
Judging from the way the wind has blown the past few days "Bill" Bryan must be trying to explain his defeat.
