JOHN BRENNAN Wants to See You

Catalogue Houses up against it and are sending out special prices in special Books, which in most places are higher than your home town.

They sit in the offices in Chicago and print thousands of pages of lies and send them out amongst the people who read, believing them because they don't think they would dare print that kind of stuff.

MATCHES.

It says: "Buy matches wholesale. Case contains 6 dozen 6c Boxes Matches, \$3.24."

There is no 6c Boxes of Matches anywhere. They are the same matches I sold 7 for 25c.

BROOMS.

Extra fancy Carpet brooms \$3.95 to \$5.19 per dozen, 35 to 50c. I can sell you the same brooms for 26 to 35c.

THREE REASONS WHY

you should trade with them.

First—"They are careful in selecting their line of goods." Yes. They are careful to buy something cheaper than any country stores would buy.

Second—"Their location means saving in freight and time."

They are located so far away that it generally takes from a week to fourteen days to get the stuff and the freight the railroads charge on catalogue goods make trading with them out of the question.

Third—"They guarantee a square deal."

They know when a man orders something and it takes so long to get it that rather than spend six months writing back and forth you would rather keep it. They are ready to guarantee you won't send it back.

When you see big companies send 2,000 page books full of lies into your home destroy them.

Its the catalogue houses aim to destroy the small towns which are their worst competitors.

One thing more which is a fact. O'Neill is the best Market for anything you have to sell in this county or any county either, because you got government weights here on a city scales which the city put in for the protection of the farmers. What good does it do if you get 10 or 15c more per cwt. if you have a big shrink. If the O'Neill buyers were making so much money off the stuff why don't some of these other buyers come into O'Neill?

No, they won't come to O'Neill as long as the city scales are here. Bring your stuff to O'Neill all the time. The city scales will protect you. If those other buyers want to give you more make them come and buy over the city scales and pay you your weights and your measure.

Some day you will find out that I am talking business and I know what I am talking about. I can save you money if you give me a chance.

Such a protection is now available to depositors in the Nebraska State Bank.

Why not take advantage of this opportunity to play safe!
