Extinction of Animal in This Country.

There are, according to estimates made by the National Sportsmen, about 100,000 elk in this country, of which 2,200 are in captivity in 125 different places. Thelargest herd, numbering, according to the government census, between 50,000 and 55,000, is in the Yellowstone region. In the summer thes elk range in the vicinity of the continental divide in the park. Since the settlement of the valleys the elk which are forced to descend from the mountains in the winter in order to obtain food have starved in large numbers. Since 1909, winter feeling has been provided by the state of Wyoming and the federal government, and recently congress appropriated \$50,000 for the purchase of 2,000 acres near Jackson, Wyo., where sufficient

In this way it is hoped that wild elk can be retained in this country permanently. The Adirondack herd was rapidly approaching extinction when the government and the state of New York took a hand. It is believed that after the fate of the buffalo many states will attempt to encourage the propagation of elk in country which is unfit for farming.

#### Drug Act Defective.

From the Pittsburgh Dispatch. The decision of the supreme court affirming the ruling of the Western Pennsylvania circuit court in the Harrison drug act case indicates a serious defect in the law. Under this interdefect in the law. Under this inter-pretation the law can reach only those pretation the law can reach only those who deal in opium, not, as the prose-cution contended, any person having the drug in his possession. Justice Holmes, in delivering the majority opinion, Justices Hughes and Pitney dissenting, said it would not do to strain the powers of the United States almost, if not entirely, to the breaking point by making it a criminal offense for any person to have opium in his possession, unless the wording of the statute made any other interpretation possession, unless the wording of the statute made any other interpretation untenantable. The law, as it stands, is directed against any person dealing in the drug who is not registered. There was no allegation in the indictment in this case that the drug was to be dealt in and the majority of the court held that the act was so worded as to in-clude only those who failed to register

enforcement has proceeded on the the-ory that mere possession was illegal. The remedy is clearly indicated by the court's intimation "unless the wording of the statute makes any other inter-pretation untenantable."
