There are several athletes of note on the Omaha police force, but if Jack wants a real drawing card and one that would attract a very large, but strictly impartial, crowd, he might challenge O'Neill's own.

will add greatly to the appearance of east Douglas street. T. tried the south once and was mighty glad to get back to good old Holt. That time he disposed of his farm before going, however, and purchased another upon his return. He says this time that he will hold on to his place and may return in the spring. He has many friends in this vicinity who wish him a very pleasant winter among the southern magnolias but hope to see him in his old haunts when the grass begins to shoot next spring.

### How Catarrh is Contracted.

Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The inflammation of the mucus membrane, at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life's burden. Many persons who have this loathsome disease will remember having had frequent colds at the time it was contracted. A little forethought, a bottle of Chamberlain's Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable everywhere.
