

**SUCCESS VS. FAILURE**

Opportunity is not a jest—it's an everlasting fact. The one great, basic difference between the successful man and the unsuccessful man is that the one is prepared to take advantage of opportunity when it comes—and rides on to success. The other is not prepared—and remains a failure. Are you preparing yourself for opportunity? \$1.00—a trifle in itself, but pregnant with possibilities that affect your entire future—starts your Savings Account here with us today. And why not today.

If you cannot master your wants now, you will never be master of dollars in the future.

**Robert Emmet Anniversary Celebrated Locally.**

The anniversary of the birth of Robert Emmet was fittingly observed at the Golden Hotel, Monday evening, when about seventy people, representing all nationalities gathered at a banquet to do homage to his memory. John A. Harmon presided as toastmaster in his characteristic way, and the speakers, inspired by his flattering remarks, both before and after the talks, done great things. It was quite evident, from the remarks of some of the speakers that the dreaded H. C. of L. had been at work, these speakers persisted in, lauding the generosity of the bankers. Whether this was in anticipation of a future need, or in gratitude for a past favor, was not disclosed. The speaking was all exceptionally good, also the singing. E. H. Whelan made one of his customary brilliant talks, referring briefly to Irish History and character and explaining the inconsistency of the much believed statement that the Irish are clanish. T. V. Golden referred briefly to the inception of the Emmet Literary Society and the men who organized it. Lack of space forbids us going more into detail with regard to the rest of the program as we would like to. You may be assured, however, that it was all equally good, outstripping all previous events of its kind. Others who spoke were J. J. Harrington, C. J. Malone, S. J. Weekes, Rev. Longstaff and Rev. Parkerson. T. J. Nolan, and Helen Harrington favored with readings and the Misses G. Biglin, D. Stout, M. Donohoe, and Mrs. H. Reardon with Irish melodies.

**Death of Mrs. Charles Calkins.**

A telegram received this morning, just as The Frontier was going to press, announced the death of Mrs. Charles Calkins at Council Bluffs, at 7 o'clock this morning, following an operation. Mrs. Calkins, accompanied by Mr. Calkins, went to Council Bluffs Wednesday, where Mrs. Calkins was to undergo treatment. Arrangements for the funeral have not yet been completed, but the body will be brought to O'Neill for interment. The Frontier joins with the host of friends in extending to Mr. Calkins and their little daughter, and to Mrs. Calkins' parents, Mr. and Mrs. C. W. Morgan of Mineola, the heartfelt sympathies of the community in the hour of their great bereavement.

**A Little Pedestrian Tour.**

A. A. Driggs of the McGinnis Creamery company is expecting an unusually heavy traffic in dairy products toward O'Neill this year and this week, accompanied by L. C. Peters, made a tour of the tributary territory in a Ford Special. Because of Tuesday night's heavy snow the special was parked at the Ewing terminals. Wednesday Inman was visited by the steam car route and Wednesday evening Driggs and Peters made a personal inspection of the roadbed between Inman and O'Neill, at the same time qualifying as members of the O'Neill Pedestrian club recently organized by Judge Malone and Judge Freeman.

**J. I. Case Foot Lift Gang Plow—"The Plow a Man Can Pull"**

To produce good crops the land must be plowed to a uniform depth—not deep in one place and shallow in another. This requirement has been kept in mind in designing and constructing the J. I. Case Foot Lift Gang and Sulky plows.

**PERFECT PENETRATION**

These two plows have a penetrating arm connecting the rear end of the main frame to the rear end of the beam. Lengthening this arm by means of jam nuts gives more penetration to plow—shortening it gives less.

**SPRING PRESSURE LOCK**

A spring pressure lock gives flexibility to the beam so that the motion of the frame in going over uneven ground is not communicated to the bottom—The furrow is always level and uniform. This spring also acts as a buffer and absorbs the shock when the plow strikes a rock or other obstruction, thereby preventing breakage of shape or bending them.

The Frame is of One piece of Steel Strongly reinforced and is leveled automatically as the plow enters the ground or comes out—One movement does the work—just one slight pressure of the foot.

The Rear furrow wheel is provided with a set screw adjustment by which the wheel may be angled to take the landside pressure from the furrow bank.

All side draft is eliminated by means of the J. I. Case evener and hitch. The plows are hitched in the center and yet (in the Gang) all four horses are abreast, One in the furrow and the other three on the land. The extra width between the wheels also tends to eliminate side draft.

The width of furrows is controlled by adjusting the front furrow wheel axle.

The entire weight of the driver and plow is carried on the wheels—not on the bottoms.

The bottoms are built narrow at the throat and so designed as to offer the least resistance. They are made of the best grade of Soft Center steel.

Early Machine buyers will save money and have the chance to see all different kinds before buying.

Prices are not yet high but will be advanced about the time they are most used and it will not pay you to wait. Come in now and see the new Goods.

**LAND WILL BE SOLD UNDER THE HAMMER!**

The 1000 acre Ranch of the late T. V. Atkinson, in Cedar Valley, 30 miles south of Atkinson, 22 miles south-west of Chambers and 22 miles north of Burwell, will be sold to the highest bidder on Monday, March 19th, 1917, at 10 o'clock A. M. in O'Neill, Nebr., at a court sale.

This land will be a bargain for any man desiring a small and productive ranch, is well improved, has 100 acres in cultivation and contains some of the best meadow land in Nebraska. Tom Atkinson kept 200 head of stock on this place.

The owners all live in England and the land must be sold. No by-bidding. Title confirmed by Court. \$4000 mortgage, balance cash.

640 acres of this ranch with the buildings will be sold separately if desired, part cash.

You will never get another chance like this. Go and examine it now. Come to O'Neill on March 19 and buy it. See or write H. D. Grady, Referee, or Ed. H. Whelan, Attorney for Heirs, O'Neill, Nebr.

**Rank Foolishness.**

You occasionally see it stated that colds do not result from cold weather. That is rank foolishness. Were it true colds would be as prevalent in mid-summer as in midwinter. The microbe that causes colds flourishes in damp cold weather. To get rid of a cold take Chamberlain's Cough Remedy. It is effectual and is highly recommended by people who have used it for many years as occasion required, and know its real value. Obtainable everywhere. 39-4

**Cash and Joy Debt and Worry**

I have saved enough by trading with you this week to buy one of the small boys a suit of clothes—so spoke a woman to us the other day. I have traded at one store 12 years in the usual way from two to three times a day, always having the goods charged. I would pay my bill each month paying the same price as those who pay once a year, two years or never pay at all. Your cash system ad started me to thinking and I finally decided to try you, with the reason above stated. No more charging goods for me... I will pay cash and pay less.

**Announcing the NEW EDISON**

"THE Phonograph With a Soul" has come to O'Neill. That is what the New York Globe called the New Edison, the wonderful musical instrument

for which we have just become licensed dealers in O'Neill. We want every music lover of O'Neill to know this, we want them, every one, to come to Warner & Sons' Furniture Department on March 17th, or any other day convenient. We want you to come even if you haven't the slightest idea that you will ever purchase a New Edison. We shall see to it that you do not feel any more obligated or embarrassed than you would if listening to your instrument in your own home.

THESE MACHINES WILL BE ON DEMONSTRATION AT WARNER & SONS' FURNITURE DEPARTMENT ON MARCH 17th.
