ROCKY MOUNTAIN TOURS
The season of 1916 brought to the Rocky Mountains the greatest
patronage yet recorded. Estes Park, Colo., and a number of ranches in
the Big Horn Mountains were forced to turn tourists away. Many
mountain localities and rancho resorts are now increasing their ca-
pacity preparing for the coming Summer's volume.
Every prospect now indicates a greater tourist volume in the
mountains this coming Summer than ever before. Tourists will view
Yellowstone Park by automobile; the magnificent Rockies with their
three National Parks—Rocky Mountain-Estes, Yellowstone and
Glacier are luring Easterners from their limited environment, who
want to tour the big, wide West and to understand it. In due time,
descriptive publications of Summer tours will be available. If you
expect to join the mountain Summer throng, especially if you desire
accommodations at some particular place, it would be well to make
early plans.
Let me know the region in which you are interested, that I may
list your name for information and publication.
H. G. FREY, Ticket Agent.
L. W. WAKELEY, General Pasgr. Agt.
1004 Farnam Street, Omaha, Nebraska.

"IT IS US AGAIN"
The is a reason why we are here and there
will be a reason if we leave, but there is no
reason, why you do not send the whole family
wash.

O'Neill Sanitary Laundry

Hardware **Neil P. Brennan Implements**

The Seed Hopper and Spout being mounted on the beam eliminates telescoping, because both are raised with the beam and are always in the same relative position to each other. No chance to clog up or get out of order.

Variable Drop, controlled by a hand lever conveniently placed near the hopper insures accurate dropping. An opening in the spout enables the operator to see the seed passing down. Planting distances may be varied 12 to 22 inches.

Distances between press wheels can be varied

The Disc Covers are held firmly in the ground by spring pressure, allowing them to ride over obstructions and to rebound to position. They are adjustable for depth, width and angle, enabling the operator to set the discs just right. Shovel Covers furnished if desired.

J. I. Case Racine Jr. Variable Drop Lister
HANDLES ANY KIND OF CORN

By means of the slotted casting at the side of the beam, the movement of the bottom is so timed that the point travels faster than the heel, thus securing perfect penetration, whether splitting a ridge or listing on level ground.

Distance Easily Changed.

By means of a series of cog wheels, which are controlled by a small hand lever within easy reach of the operator, the distances for drilling can be instantly changed while the machine is in motion. The implement is controlled by a single lever assisted by a large coil spring.

Using a 9-tooth sprocket with a 10-hole plate, for example, gives a dropping distance of 13 inches when set on high gear; 17 inches on medium gear and 22 inches on low gear.

The dropping mechanism is automatically thrown in motion when the bottom enters the ground, and ceases to operate when the bottom is raised. It can be thrown out of gear at any time.

Specifications.

Drop is force feed and seed plate is driven directly from axle. Tilt over hopper allows changing plates without removing the seed. Can be used with or without a pole. Frame is of one piece, high carbon steel. Width between main wheels can be changed 34, 37 or 40 inches.

Rear wheels pivot on a roller bearing, making lister easy to guide. Sand collar on the axle protects the clutches from dirt and dust. Disc covers, regular equipment; shovel covers can be furnished if desired. With each Racine Jr. Variable Drop Lister we furnish one set of combination three or four-horse eveners—one rolling colter—9-tooth sprocket on feed shaft—one blank plate—3 ten-hole plates—one set covers (disc unless otherwise specified) and one subsoiler. Three-horse set over attachment can be furnished when wanted but will be charged for as extra equipment.

Rank Foolishness.
You occasionally see it stated that
colds do not result from cold weather.
That is rank foolishness. Were it true
colds would be as prevalent in mid-
summer as in midwinter. The microbe
that causes colds flourishes in damp
cold weather. To get rid of a cold
take Chamberlain's Cough Remedy.
It is effectual and is highly recom-
mended by people who have used it for
many years as occasion required, and
know its real value. Obtainable every-
where. 39-4

LEGAL NOTICE.
Steve Cieslak, non-resident defend-
ant will take notice that on the 29th
day of November, 1916, Theresa Cies-
lak, as plaintiff, filed her petition in
the District Court of Holt County, Ne-
braska, against you, as defendant, the
object and prayer of which are to ob-
tain an absolute divorce from you upon
the grounds that you have wilfully de-
serted the plaintiff for a period of
more than two years prior to the fil-
ing of her petition. Plaintiff also asks
the custody of all minor children: You
are required to answer said petition
on or before Monday, May 4th, 1917.
THERESA CIESLAK,
Plaintiff.

MOTHERS
Should see that the whole family
take at least three or four doses of
a thoro, purifying system cleaning
medicine this spring. Now is the
time. The family will be healthier,
happier and get along better if the
blood is given a thoro purifying,
the stomach and bowels cleaned out,
and the germs of winter, accumulated in
the system driven away. Hollister's
Rocky Mountain Tea is the very best
and surest Spring Remedy to take, get
it at once and see the difference in the
whole family. Their color will be bet-
ter, they'll feel fine and be well and
happy. 35c. The best Spring tonic-
laxative, purifier.—Reardon Bros. 38-5

How to Prevent Croup.
When the child is subject to attacks
of croup, see to it that he eats a light
evening meal, as an overloaded stom-
ach may bring on an attack also
watch for the first symptom—hoarse-
ness, and give Chamberlain's Cough
Remedy as soon as the child becomes
hoarse. Obtainable everywhere. 39-4
