The two national banks of this city,

IMPORTANT WAR NOTICE!

TO THE CITIZENS OF HOLT COUNTY:

The United States government has ordered that a military census be taken for the purpose of registering citizens of this county of military age. The age limits or the day of registration have not yet been set but will be in a short time. An Act of congress vests the power in the president and they have attached a heavy penalty for the failure of any man who is within the age limit and does not register at the time appointed by the president.

Under the Act the registration places will be at the polling places of the various townships in this county, and all men between the ages set must register upon that day.

Within a short time a day will be set for registration and it is the earnest desire of the president that the registering will be conducted with as little expense to the government as possible and for that reason we are authorized to make an appeal to the patriotic men of Holt county who have had clerical experience to offer their services on the day of registration. It is the earnest hope that Holt county will not only register every man in the county of military age, but that they will do so without any expense to the United States government.

Under the Act one need not necessarily live in the precinct to be a registrar therein. He can act in any polling place in the county. Under the Act one registrar is required for every 170 voters or a fraction thereof; but that does not necessarily mean that two men cannot act as registrars.

The culmination of true patriotism is not necessarily the waiving of flags or the singing of songs; but on the other hand it is the willingness to offer your services when your country calls. We earnestly re-iterate and we trust that Holt county will come forth with enough volunteers to act as registrars at the different polling places on the day set to see that the cards are properly filled out and sent to the proper officials, and we would ask that every man who is competent at once mail to the secretary of the registration board his name and voting precinct and we then will assign registrars for the various polling places.

Under the Act the registration board consists of the sheriff, county clerk and county physician, which latter means the county coroner, which office was by the legislature of 1915 abolished and the duties thereto attached assigned to the county attorney.

The registration board hereby appeals to the manhood of Holt county in this the hour when their country calls, that they step forth and offer their services.

We again ask that you kindly mail at once to the secretary of the registration board your name and polling place and state that you offer your services, without compensation, to act as registrar on the day that is to be set by the president. As soon as possible those who are accepted will be notified and assigned to a polling place.

It is likewise the earnest desire of the registration board that no man within the age limit fail to register and that the Federal government has to arrest and punish him.

Let us all co-operate with the one aim in view of undying allegiance to our country and unending loyalty to our flag.

REGISTRATION BOARD,
BY PETER W. DUFFY, Chairman,
P. C. KELLEY, Secretary,
HUGH J. BOYLE.

the O'Neill National and the First National, have each taken \$10,000 worth of the bonds of the Liberty Loan that the United States is now floating. Northern Nebraska will be one of the first sections of the country to be hit by the war schedules for operation of the railroads, according to advices emanating from Omaha. When the new schedules go into effect passenger trains Nos. 5 and 8 on this line of the Northwestern and passengers Nos. 403 and 406 on the Bonesteel branch are to be taken off. Several freights also are to be dropped, but that travelers may not be overly inconvenienced the fast freights will carry

passengers between stopping points. The new time cards probably will go into effect within the next three weeks.

According to reports in Wednesday evening's papers about 200,000 young Americans have applied for admission to the Officers Training Camps, that are located in different parts of the country. Of this number sixty thousand have been examined and passed. Of this number 40,000 will be selected and sent to the various training camps for instruction during the next three months. The balance of those successful in passing the examinations will be held in reserve and will probably be called to training camps later.

Recently Mr. Brown was in town until quite late in the evening and invited Webb to accompany him home to the ranch for the night, remarking that he was coming in again the next day. Mr. Kellogg accepted the invitation. The next morning Mrs. Kellogg, coming down town early in the morning, spied Webb asleep in his office chair. "I thought you went out last evening to spend the night with Mr. Brown?" she commented as she aroused her slumbering spouse. "It don't take long to stay all night out at Brown's," drowsily replied Webb.

inducement to farmers to cultivate and raise a crop of this kind where the climate and soil are so well adapted to this purpose. Our facilities are not surpassed either in adaptability or climatic conditions by any of the large bean producing states, and there is no reason why this section should not develop into a bean producing country equal to or greater than the bean growing states of Michigan, or California, and with a greater profit to the grower on account of the nearby home market. Under the present conditions of all markets and especially the bean market the outlook for the bean grower this year is certainly very flattering, and should command the attention of every farmer in this territory. 48-1

Union service at the Presbyterian church next Sunday evening. W. F. Porter will lecture on "The Bible."

Mother's Day.

On the second Sunday in May, 1917, the American people will again pay homage to the Mothers of the nation. The quiet and reverent celebration of this day, which has now become a fixed event in the Nation's Calendar, is irrevocably interwoven with the memories of childhood's happy hours and an appreciation of the true interpretation of self-sacrifice and devotion.

At this season the progressive photographer regards it as his duty to suggest to his patrons that "Mother" come to his studio for a sitting, for there is no better way to perpetuate the memory of this beautiful day than by appropriate photographs. Will be open Sunday after church.
