A Word to the Farm Renter
Why not sow fall wheat on your land this year and take all the profit
that this crop is sure to bring you? Stop turning over 40 to 50 per cent of
your energies and their results to your landlord. Buy some of those splendid
Southwestern Nebraska or Northeastern Colorado lands—approved wheat
lands at from \$20 to \$40 an acre. This is a hog and cattle country, too, with
big profits coming from dairying because you can raise forage cheaply and
ensilage crops plentifully.
We can send you right now carefully prepared leaflets, "Go to South-
western Nebraska," "There's a Farm for You in Colorado," telling you all
about these low-priced lands, or if you want a stockraising homestead of 640
acres in Northeastern Wyoming, send for our "Free Government Lands
Folder." It is my duty to help you get settled and there is absolutely no
charge for my services.
