

MONSEY'S MONEY

Dr. Messinger Monsey—and it happens this is his true name—laid by for old age. He didn't care to spend his old age practicing medicine. He wanted a period in his life when he could rest all day and sleep all night. He selected the fireplace of his sitting room for his treasury. He placed his bank-notes under the stone. Upon his return from a sudden call he found the maid had built a warm fire on the hearth. Need we say more about Monsey's money? The one, sure, safe, solid place to keep YOUR money is in an account with us.

Money out of a Bank Account is like a fish out of water—it doesn't last long.

A number of friends of William Gaghan gathered at his home on Wednesday evening in the nature of a good-by party, Mr. Gaghan having determined to leave his farm, northeast of this city and move to town. All of the residents of that section of the country were present and a delightful evening was spent. Mr. and Mrs. Gaghan started Thursday morning to move their effects into town.

William Simpson and James F. O'Donnell, two enthusiastic members of the Idle Hour Golf Club, went down to Sioux City Tuesday morning to measure their prowess on the links in that city, which is said to be some measure. The fact that Mr. O'Donnell had been around those links before and Mr. Simpson had not, did not seem to bother Mr. Simpson any for he deliberately and maliciously defeated the aforesaid Mr. O'Donnell 54 to 57. Yes, he'll explain it to you.

The Fitz-Hamdon Concert Company, composed of the Misses Mary Fitzsimons, Grace Hammond and Margaret Donohoe, all of this city, left over the Burlington on Wednesday of last week for a short concert tour. On account of the illness of Miss Donohoe's mother the young ladies were compelled to cut their tour short, returning to this city Monday. Everywhere they appeared they received tremendous ovations and have in all cases been asked for early return engagements. These talented young ladies have long been known here for their musical abilities, and the warmth and sincerity of the reception they received in the cities they visited indicate that their talents and their entertainment was appreciated.

During a thunder storm on Wednesday afternoon of last week, three mules belonging to Everett Brown were killed by lightning. Four mules were on a manure spreader, being driven by John Kingery. When he noticed the rain storm coming up he started for the barn and the mules were killed about ten feet from the barn. Mr. Kingery was knocked unconscious by the bolt and Cecil Brown and Ted Green, who were standing in the barn door were knocked down. One of the mules was knocked unconscious and was unconscious for several minutes, but finally recovered. Mr. Kingery or the other two men have felt no after effects from the shock. Two of the mules killed was one of the best teams Mr. Brown owned, he having refused \$500 for them a few weeks ago. The other one was an ordinary mule worth about \$100.

J. E. Wolfe, son of Sam Wolfe, and

formerly a resident of O'Neill, was accidentally shot on last Saturday near Moorcroft, Wyoming, while standing near some men who were fighting when one attempted to shoot the other. He was taken to a hospital in Sheridan and according to word received here Thursday by his brother-in-law, R. A. Baker, is getting along fine. Immediately on hearing of the accident his father went up there and is now with him at Sheridan. From word Mr. Baker received it appears that two men were engaged in a quarrel and Mr. Wolfe was standing there looking on when one of the men pulled a gun and shot, the bullet hitting Mr. Wolfe, entering the right cheek and lodging behind the left ear. He was immediately taken to the hospital where the bullet was removed and he is now resting nicely. Unless unforeseen complications arise no fatal results are anticipated.

Red Cross Meeting at Agee.

Last Sunday, owing to the storm in the morning and the high wind all day, the Sunday school program had to be curtailed somewhat, but at 3 p. m. a Red Cross meeting was held in Agee school house, splendid speeches being delivered by J. J. Harrington and W. K. Hodgkin. The crowd was small but great interest was shown, sixteen becoming members and an offering of \$29 being made for the same. On next Sunday the program of last Su.

Join the Red Cross.

The local Red Cross chapter has now 500 members, but the membership committee are anxious to raise the membership in this city to 2,000, so if you have not become a member kindly hand your name, with the membership fee of \$1.00, to any member of the committee on membership.

The local chapter is preparing a float to appear in the parade on July 4th and they will also have an office open during the day, so that those from the country can join. The O'Neill chapter will be the headquarters for this county and the membership committee are anxious to have the citizens of other towns in the county get busy and organize.

The finance committee collected about \$3,000 in subscriptions in this city last week and they are still busy at the good work. This amount is in addition to the membership fee paid by the members.

I Am Still With You

Two years ago when I started up in the old shack on the south of Douglas Street my competitors said I couldn't last, because I sold goods too cheap. Some of my friends said I was a cheat and a robber and I suppose I am, because I am stealing a lot of business from somebody.

I sell sickles and sections and other repairs for Deering and McCormick mowers cheaper than my competitors did when they were cheap.

One of my competitions said the other day he wished I would go to war. I wonder why?

Try some of our high grade machine oil at 30c a gallon.

Say, did you know they tried to raise nails to 8c a pound on you. I sell them for 5c.

They say I will go broke. But why should you worry if you buy the goods right.

They sure have got some bad tales about me now. They say I helped to enforce the law.

Does the lice and mites bother your chickens? We have a guaranteed cure for 85c.

Some people say that I haven't got a cent to my name, and that's the nearest thing to the truth that they have said yet.

Automobile and telephone batteries 30c each.

If you want to bust me come and buy some of these goods that my competitors say I sell below cost. That will be the quickest way.
