

IN THE DAYS OF THE LONG AGO.

Thirty Years Ago.
Taken from the files of The Frontier of July 7, 1887:
C. C. Milliard visited Omaha and Council Bluffs over Sunday, returning Tuesday evening.
The assessed valuation of Holt county is about \$2,400,000 and the levy will be about \$36,000. The commissioners have made the levy to the fullest extent possible.
The heavy rain of last Saturday was

general throughout the county and assures a good corn crop and from one-third to one-half crop of small grain. It was the first good rain we have had since May and is worth many thousands of dollars to Holt county.
O'Neill celebrated the glorious fourth in a splendid manner. Hon. John Rush of Omaha was the orator of the day. All kinds of sports were furnished for the edification of the people.
A very sad and painful accident and what might have been a fatal one,

befel James Harrington, brother of M. F. and John, on the Fourth. Jim was riding in a race on the fair grounds and his horse became unmanageable, running into the barbed wire fence, surrounding the grounds, and Jim's right leg, above the knee was badly lacerated, the flesh being cut to the bone. The wildest excitement prevailed for some time and everybody thought he was killed, but such was not the case. He was brought to their home in town as soon as possible and Drs. Shore and Connolly called, who dressed the wound, cut out considerable of the lacerated flesh and took twelve stitches in sewing up the wound. It was a narrow escape and all was glad it was no worse and hope to soon see James around as of yore.
Taken from the files of The Frontier of July 14, 1887:
J. M. McDonough, for many years editor of the Tribune, is now business manager of the Omaha World-Herald. James Harrington is getting along very nicely and expects to be out in a few weeks.
A good rain Monday night makes all nature look happy and the farmers greatly encouraged.
Arrangements are being perfected for the erection of a brick block 40x90 adjoining the First National bank, the same to be done by W. G. Palmenteer and A. U. Morris and Co. The building will be two stories high, two rooms below and numerous offices upstairs.

Ten Years Ago.
Taken from the files of The Frontier of July 4, 1907:
Charles Reka, who has been attending school in Omaha the past year, returned home last Friday for his summer vacation.
J. F. O'Donnell and H. P. Dowling have each a handsome cushion tired buggy of the latest style and make. O'Neill bankers are undoubtedly prospering as another banker, Ed. F. Gallagher, now spins about in a handsome auto.
The National Amusement Co. opened a five day street carnival last Tuesday. One of the most striking acts put on by the company is "Valjean" who makes a daring dive from the top of a sixty foot ladder into a tank of four and a half feet of water. It is something new to an O'Neill crowd and the daring diver is watched with bated breath as he plunges through the air into the water and comes out safely.
In a ball game on the local diamond last Sunday O'Neill defeated Ewing by a score of 19 to 3. Hugh Coyne trilled the game for O'Neill fanning thirteen of the Ewing batters.

Uniforms and supplies are received from the ministry of war, to which we render account and present reports. Yesterday the commander of the Petrograd military district reviewed us and expressed his satisfaction. I am convinced that we will excel the male fighters."
Asked as to the attitude of the male army, Commander Butchkarof said

that only the Volynsky regiment, which led the Petrograd revolution, was really favorable.
The regimental clerk is Madame Barbara Rukovichkoff, editor of the weekly Woman and Economy, and author of some admirable stories. She said that Madame Kerensky intended to join the regiment not as a soldier, but as a Sister of Mercy.

We Have Always Wanted To Handle the BEST Manure Spreader --- And We've Got It.

As all our friends know, we have been engaged in the farm implement business right here for a long time. We've made it a rule to handle only thoroughly reliable goods. No matter how tempting a maker's proposition is, we leave it alone, unless we are convinced that the article will be of real value to our customers.
Now please keep this rule of ours in mind and then come in and see the

NISCO
The New Idea
Manure Spreader

The fact that we have this machine set up, ready to demonstrate, shows that we believe there isn't a better spreader made. If there had been we would have found it. "Nisco" is the original wide-spreading spreader. Built to spread outside its own wheel track when other machines merely dumped manure behind. Low down and light draft, easy to load, easy on a team. Its chain conveyor brings every scrap of manure to the two cylinders where it is thoroughly pulverized and thrown onto swiftly revolving steel paddles that distribute it in even width and depth across three corn rows. This makes driving over spread manure unnecessary.

The Nisco Spreader can't clog and spreads at will, 3, 6, 9, 12, 15, 18 loads per acre. It has a chain drive—no gears to break or strip from cold or under sudden strain. Wide tires fit the "Nisco" for use on soft soil. The Nisco Spreader is thoroughly well built of exceptionally stiff and sturdy materials, and the makers cheerfully guarantee it for a year against breakage from any cause. With proper care it will last a lifetime.
Now here is a machine that will give you dollar for dollar on a moderate investment in one year's time; because if used regularly it will absolutely save the full fertility value of manure and put it on the soil in such condition that growing plants can get it all.
The Nisco Spreader will save you money. Come in and see it next time you're in town. You'll be interested.

DON'T FORGET TO ASK US FOR THIS FREE BOOK We've a book here we would like you to read—"Helping Mother Nature." Tells more about the care and use of manure than you ever thought of. Written by an expert and full of right-up-to-the-minute scientific data. Don't forget this—it's important.
Yours for better farming.

O. O. Snyder

Twenty Years Ago.

Taken from the files of The Frontier of July 1, 1897:
Pat O'Donnell is spending his vacation in Deadwood and other South Dakota towns visiting friends.
The heavy rain Monday night washed out several bridges on the Blackbird. It is reported that the precipitation at Agee was about three inches.
S. J. Weekes returned last evening from Omaha, where he attended a convention of the Nebraska State League of Republican clubs.
A. T. Potter returned from Glendive, Mont., Tuesday evening. Mr. Potter went to Glendive last spring to accept a position as passenger conductor on the Great Northern railway. After working a few weeks he was taken sick and for several weeks was confined to his room.
By order of Judge Westover, O. O. Snyder, receiver of the Holt County bank, offered for sale all the assets of the bank on Tuesday last at two o'clock in the afternoon, at the front door of the court house. But only a portion of the same received a bid. There was \$18,856.87 worth of notes and judgments that were sold to the highest bidder for \$120.85. Three pieces of real estate, farm land, were bid off for \$526, the sale of the real estate to be approved by the court.
The total valuation of all property in Holt county is \$2,587,90, an increase of \$60,134.90 over last year.
Donald McLean arrived in this city yesterday evening and returned to Sioux City this morning. Mr. McLean said he had nothing new in connection with his new railroad project to divulge at this time, further than to say that the enterprise was progressing through the preliminary stages as rapidly as could possibly be expected.
At the annual school meeting, held last Monday, Patrick Hagerty, A. J. Hammond, R. Killmurphy and M. M. Sullivan were elected trustees. It was decided to build a one story addition on the east side of the main school building, that addition to have the same floor space as the rooms in the main building.

"COMMAND OF DEATH" IS WOMAN REGIMENT

Petrograd—The "Command of Death," is the official title of the women's regiment raised by the twice wounded girl officer, Vera Butchkaroff. The regiment will leave in a fortnight for the front, probably for the Minsk sector.

The Associated press correspondent, who visited the barracks in Torgvaya street found posted at the gate, a little blue eyed sentry in a soldier's khaki blouse, short breeches, green forage cap, ordinary woman's black stockings and neat shoes. The sentry was Marya Skryldoff, daughter of Admiral Skryldoff, former commander of the Baltic fleet and minister of marine. Inside there were four large dormitories, the beds without bedding and straw, with heavy soldiers' overcoats. In the court yard 300 girls were at drill, mostly between 18 and 25 years of age, of good physique and many of them pretty. They wore their hair short, or had their heads entirely shaved. They were drilling under the instruction of a male sergeant of the Volynsky regiment and marched to an exaggerated goose step.

Commander Lieutenant Butchkaroff explained that most of the recruits were from the higher educational academies or secondary schools, with a few peasants, factory girls and servants. Some married women were accepted but none had children. The girl commander said:

"We apply the rigid system of discipline of the pre-revolutionary army, rejecting the new principle of soldier self-government. Having no time to inure the girl graduate to hardships we impose a spartan regime from the first. They sleep on boards without bedclothes, thus immediately eliminating the weak. The smallest breach of discipline is punished by expulsion in disgrace.

"The ordinary soldier's food is furnished by the guards' equipage corps. We rise at 4 and drill daily from 7 to 11 and again from 1 to 6. The girls carry the cavalry carbine which is five pounds lighter than the regular army rifle. On our first parade I requested any girl whose motives were frivolous to step out. Only one did so but later many who were unable to stand the privations left us.

"We are fully official and are already entered on the list of regiments.
