**From "Cheese" Conklin.**

Camp Funston, Sept. 16, 1917.  
Dear Mother, Father and Sister:  
No doubt you will wonder what has become of me, but I haven't had much time to write for we have been very busy drilling and cleaning our quarters.

We have to work hard, but we are well fed and have a very nice bunch of officers. I meet fellows every day that I know or know somebody they do. There are thousands of soldiers here and thirteen thousand workmen. Carpenters get \$7.15 per day and \$13.50 for Sundays. Our barracks is right next to the post exchange store and it is a busy place and we can buy anything we want. The fellow that bunks next to me and I bought a shoe polishing outfit in partnership. We have been given a hat, shoes, two pair socks, two suits underwear, one shirt, poncho, hair brush, tooth brush two towels, one bar soap, two blankets, cot, mattress, and a pair of blue overalls and we will get the rest of our uniform tomorrow.

I was sergeant in charge of quarters yesterday and had to put the boys to bed at 9:45 and lights out. Two of our fellows went on guard duty last night and I expect to be on soon. We have a Y. M. C. A. and a free picture show. We are not allowed to leave the camp yet. We came from Lincoln on a special train of twelve cars and it sure was a noisy bunch and when we arrived we were lined up and given two sandwiches and a cup of coffee, then were examined and vaccinated for typhoid and small pox.

I saw Anna O'Donnell at the Lincoln station and she gave me a large box of good things to eat. How is Jean? Send me the home papers. I must close now for I must do some washing and study the general orders of a sentinal. They are both hard enough.

With Love,

Cecil W. Conklin,  
Co. E 35th Infantry,  
Camp Funston, Kansas.

**ZEDA THE MODERN BROOM**

Outlasts Two, Three and Sometimes Four Ordinary Brooms

Yet it costs only a trifle more than the broom you're now using.

The material used in ZEDA, The Modern Broom, is carefully selected for fineness, flexibility and long-wearing qualities. Fibre sorted by hand, to make doubly sure of full tip.

The ZEDA can't possibly come apart or lose its shape. The broom head is held absolutely tight by two spring steel clamps, and is rigid to the handle.

Note the protective fibre shield on shoulder.

Ask your dealer to show you ZEDA, The Modern Broom. Try it, and see its patented advantages for yourself. If your dealer can't supply you, write our Lincoln factory.

the O'Neill Roller Mills, is feeling pretty good these days, as bread made from his flour received first and second premiums at the Holt County fair.

A splendid rain visited this county last Monday afternoon and night, putting the ground in splendid shape for fall seeding. The rain extended only about five miles east of this city, but was west clear to the state line. The precipitation here amounted to one inch.

Last Saturday C. W. Campbell sold his barber shop to A. V. Plummer, who formerly conducted a moving picture show in the K. C. Hall, taking possession immediately. Mr. Campbell is spending this week on his ranch in Swan township putting up hay and says that he thinks he will return to the ranch and live the simple life hereafter.

Last week T. T. Waid sold his farm east of this city to Edward Leach, brother of E. M. Leach, who resides on the old Thompson farm. The price paid for the 120 acres was \$8,000, or \$66.66 per acre. Mr. Waid bought this farm eight years ago, paying \$3,100 for it, so that the advance in

the price of the land netted him \$4,900. Mr. Waid will spend the winter in California and after his return may conclude to make his home in the south. Mr. Waid has been a resident of this county about fifteen years and has owned four different farms in that length of time and has made about \$1,000 a year on the increase of his land, besides receiving a handsome income therefrom. He is well satisfied with old Holt but says that as he is getting too old to farm he may conclude to go where the winters are warmer and take things easy the balance of his days.

**Telephone Traffic in Peace and War**

Purchase of army supplies, the mobilization of troops and the gigantic war preparations have necessitated an unusually large number of local and long distance telephone calls.

We are handling 30 per cent more long distance calls than we did before the war began, and heavy demands have been made upon us by the government for telephone equipment, and for trained men for the army signal corps.

In this time of the nation's greatest need you can "do your bit" by asking only for equipment you must have and by making only such local and long distance calls as are absolutely necessary.
