\$2.00 WHEAT

Last fall the farmers bought seed wheat at \$3 to \$3.50 per bushel and planted it. What the birds didn't eat the frost got-In the spring the wheat come up thin-The Newspapers-The Government-all'teld the farmers not to plow it up for corn or oats, to leave it go-That the price they got in the fall would make up for the loss-Then they set the price at \$2.00, just one-third less than the cost of the seed-Everybody hollering about what the farmer is making-Why don't they go farming-The Newspapers said to plant big gardens-They did-What price do they want to pay for it. \$0.

Now if the people want cheap bread next year they better pay the price this year-Does the Government figure the farmers are bone-headed enough to run their farms into debt and pay double prices for the stuff they have to buy-Talk about Patrictism-is it patriotism to knife your comrade in the back-if that is what Hoover-Wilson or any man calls patriotism then I want to be shot for a traitor. No farmer yet has kicked on selling his wheat at \$2.00, providing he could buy his coal at \$8.00 instead of \$14.00. If he could buy his grain drills for \$19.60 instead of \$48.75 and \$50.90. If he could hire hands to work for \$20.00 per month and board instead of \$45 to \$65. The farmer is entitled to his price just as well as the Ammunition Makers-the Ship Builders-the Lumber and Coal Yards or the Railroads. Better buy your flour now for two years ahead because no farmer is going to raise wheat for you at \$2.00 per bushel when he can get \$2.25 for corn and 90 cents for oats. As I said before a good many times. MOST OF THE SUCKERS HAVE LEFT THE FARM. Some farmers say that \$2.00 is a good big price for wheat. They are the farmers who can't raise wheat. Wouldn't it be nice if we could set the price on the other fellows stuff? The \$2.00 price on wheat this fall will put most of the wheat farmers out of the wheat business and we may not see any wheat flour for sale next year. This week Yeast Cakes-Soda-Toothpicks free with your grocery order.

I am getting discouraged on trying to make a Grocery Man out of my boy-He is inclined towards the circus business-He spends most of his time tumbling-He can now tumble out of the baby buggy and he is only nine months old-He tries to eat tin cans like a goat-Pins, pieces of glass and broken dishes-He swallows whole. No matter what position with the circus he gets he will be able to fill-Even pounding the tom toms, or bally hooing-He heard Jim Donohoe speak about the Kaiser and he's been trying to repeat it ever since-Even the motions. He is also a good contortionist. He can twist himself out of his clothes without opening the buttons.

Our next shipment of Sugar will be here this week. Our meat will be here before the paper goes out.

There seems to be a movement to stop me from getting the goods-All I ask the customers to do is have a little patience for a few days 'till I catch up and get things squared away. At this time the business is heavy and a few tricks balls up the shipments, but we will have all the goods here in a few days-It's a smooth game-but it won't work?

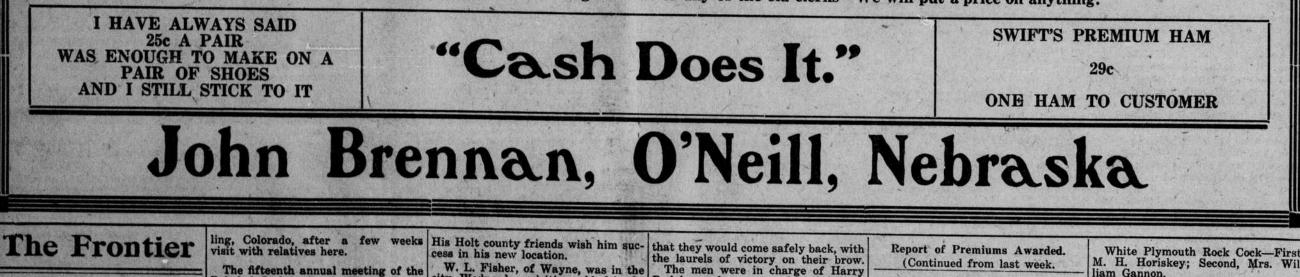

A word about Quality-One store was selling ice cream at 40c a quart-Another was selling at 60c-My wife got a quart of the 60c stuff and when we were eating it she says ain't this fine-I told her it all tasted alike to me-That evening going by-I showed her the tubs-They were both marked "McGinnis."

I have the only absolutely cash, no delivery, no telephone store in the state-The only store where a man or woman who pays cash can buy goods every day at sale prices. This is the oldest store in the country that protects you from bookkeepers and dead beats. Why should one man work to support two others who won't? I give \$1.00 prize to the lady or gentleman bringing me an order I can not save them money on.

Don't think because Every Item in the store is not listed in the paper that the prices ain't down-Generally our prices at the store is less than the ones in the papers-Don't be fooled-Come to the store and be safe. Even the Auctioneer found poor sledding against this store.

We have some more of the keg fish and pickled pigs feet coming this week. 40c jar Pickles, 20c each. 40c Coffee, 29c.

This week you name the items and I will make the price. Anything you want make out a list and bring it to the store. I suppose you are tired of seeing toilet soap and yeast cakes, overalls, etc. Make out your own list. Bring it to me or any of the old clerks-We will put a price on anything.

Lawrence Chapman left last Fri-day night for Billings, Mont., where he will locate and enter upon the practice of his profession. Lawrence has had a couple of years in the practice of his profession in this city and is well equipped to enter upon the practice of law in our neighboring state. He visited Billings a couple of weeks ago and decided there was a splendid opening in that city for an ambitious young lawyer.

A net earning of \$54 per acre on rented land, sown to winter wheat, is this year's record for W. A. Marr, seven miles northeast of O'Nelil. Mr. Marr, in addition to farming his own land rented an additional quarter, the owner of which insisted on a cash rental.
