

WHILE LOOKING THROUGH AN OLD TRUNK

a woman found some rare lace and a silk scarf, discarded years ago because of stains. She sent them to us for Dry Cleaning and we restored them to usefulness—returned them looking like new.

What have you in your old trunk? Something perhaps that can be renovated so that it will give you the service of a new garment. Some fine old silks, possibly, that can be cleaned and made over again.

Why not find out today?

Then telephone 209 and have us call for them.

You Can Get a Government-Irrigated Farm In The Big Horn Basin, If You Act Promptly.

Uncle Sam built this irrigating system; he gives you the lands and charges you only the actual cost of an ample and permanent water right. The mode of payment is nearly a gift—twenty years' time no interest; with three years' cultivation, these farms will be worth at least a hundred dollars an acre; excellent surroundings; on the Burlington's main line, near Deaver, Wyo.

THE BIG HORN BASIN: Because of the rich oil discoveries, the great irrigated areas, the heavy alfalfa and grain production, beet sugar factories, oil refineries, growing population, the Big Horn Basin teems with prosperity and a rapidly increasing development.

NEBRASKA AND COLORADO LANDS: For dairying, wheat raising, for livestock and general farming, these lands can be bought on good terms. They are cheap and should double in value, in the face of the world's demand for food stuffs.

Secure my services; they are free to you.

WEEKLY WAR NEWS DIGEST.

Stories of Activities and Conditions Throughout the United States and on the Battle Fronts, from Washington, D. C.

Application for Insurance by Fighting Men Now Near \$3,000,000,000.

Applications for war-risk insurance by men of the Army and Navy have nearly reached* the \$3,000,000,000 mark, and continue to come in at a rate of about \$60,000,000 a day. The average amount applied for per man is \$8,630, the average having increased steadily since the act went into effect, October 6.

For persons who joined the colors before October 15, 1917, the last day for applying for Government insurance is February 12, 1918. Intensive efforts are being made by commanding officers to have all their men take insurance before that date.

The maximum amount which may be taken by any man is \$10,000.

War Credits Granted to Allies by United States Total Over \$4,000,000,000.

War credits extended to fourteen Governments since the United States entered the war total \$4,236,400,000. Of this Great Britain received \$2,045,000,000; France, \$1,285,000,000; Italy, \$500,000,000; Russia, \$325,000,000; Belgium, \$77,400,000; Siberia, \$4,000,000.

Lower Requirements For Admission to Army Nurse Corps.

Because of the great need for nurses for the Army Nurse Corps certain requirements have been waived for the period of the war emergency. Registered nurses are preferred, but registration may be waived.

Nurses between the ages of 21 and 45 will now be considered, as well as those who are graduated from army hospitals of less than 100 beds. Under the temporary revision of rules they are not required to purchase new uniforms.

A nurse traveling under orders is given a first class ticket, Pullman-car accommodations, and traveling expenses not to exceed \$4.50 a day.

Denmark's Restaurants and Theaters Closed by Illumination Orders.

Theaters and restaurants in Denmark close at 10 p. m. to save lights. To save kerosene, which is sold at a price regulated by the Government at 72 cents a gallon, Greenland whale oil is being tried for lighting. It is estimated 200,000 acetylene lamps are now in process of manufacture.

The distillation of all kinds of alcohol except for industrial uses is prohibited. A large part of the available alcohol will be needed for use in the new incandescent lamps. It is estimated that 2,000 tons of grain will be saved by the new regulations.

Motion Picture Show How Work of Boys Increases Meat Supply.

To help increase the pork supply the Department of Agriculture has released to motion picture theaters, through one of the large companies, a film showing the work of the boys' pig clubs which the department is organizing in all parts of the country. The film shows methods of instructing farm boys who have joined the agricultural clubs how to raise better pigs and the methods used by club members in carrying out instructions.

The first pig club was organized in Louisiana in 1910. Now approximately 45,000 members are enrolled throughout the country. Clubs in several States are planning to send carloads of fat hogs to fairs and stock shows, after which they are to be marketed co-operatively.

Other moving pictures being used to show the importance of increased food production show activities in the national forests, important sources of timber and water supply.

German Paper Tells of Hardships of Soldier's Family.

The Committee on Public Information has made the following translation of a story appearing in the October 15, 1917, issue of the Leipziger Volkzeitung:

"A sample of the fashion after which bloated landlords treat the wives of soldiers has been brought to our attention from Upper Langenun in Silesia. One of the hired men of Dr. Mueller's agricultural estate has been for a long time at the front. His wife, who has worked alongside her husband before the war after the usual custom, remained in the ranks of the field hands and accordingly retained her farm cottage. October 1 this woman got the following letter:

"The undersigned bailiff of the estate hereby gives you notice as of this date to the field service for January 1, 1918. On that day you are to give up your house. The work which you are doing on the farm does not compensate the farm for the loss which accrues to it through the continued support of your family. Look out for yourself away from this farm, your house is needed for other use."

"The woman communicated the notice to her husband with these words:

"I must tell you my distress, soon I shall not be able to see the paper for my tears. What shall I do? Winter is at the door and the cottage is full of little children."

"Thus the bailiff of the estate of a bloated landlord turns a family with eight children out of doors in mid-winter while the man is at the front. Comment takes care of itself."

further reduction of 20 per cent in the bread ration would soon become imperative.

Denmark is now looking forward to a reduction of wheat rations. Final figures for the cereal harvest show a total of about 62,000,000 bushels, which is 20,000,000 bushels less than in 1916 and about 10,000,000 less than was estimated in the summer, when the populace was put on bread rations. The authorities are already considering a further reduction in the allowed consumption.

The food situation in Switzerland is rapidly falling to the danger line. A ration that is far below the consumption in many of the countries at war has already been ordered. Under the new regulations the Swiss may have only a pound and a half of sugar per person per month. The bread ration has been fixed at about half a pound a day, and the butter ration at one-fifth of a pound a month.

Boys' and girls' clubs in northern and western states pledged for war service in gardening, canning, poultry raising, and other emergencies have more than 800,000 members.

Cable rates have been reduced between North and South America.
