

**MORE LOCAL MATTERS.**

Flour sacks are said to be very popular with the young ladies of this city, so said one of our prominent young men.

Mrs. Marie O'Donnell Weekes, deputy pure food commissioner, of Norfolk, is in the city today visiting local merchants.

E. H. Smith, of Page, was in the city last evening, coming up to hear Mr. Palmer speak upon the thrift stamp campaign.

B. E. Sturdevant, of Atkinson, was in the city Wednesday and remained over for the thrift stamp meeting at the Royal that evening.

At the card party held at the K. C. opera house last Thursday night \$170 was cleared, which was given to the Sisters of St. Francis.

W. W. Bethea, of Ewing, former county clerk of this county, was an O'Neill visitor last Thursday, having come up to attend the meeting of the County Council of Defense.

Lew Chapman has lost his reputation as a prophet. A couple of months ago Lew staked his reputation as a prophet and he has lost it. He said that this winter was going to be a mild and open one.

At a meeting last Wednesday evening the Knights of Columbus decided to have a class initiation in this city on Sunday, February 10. At this meeting about fifty new members will be initiated into the order.

C. E. Hardin, and Rev. A. H. Grose, of Chambers, were in the city last evening to attend the meeting addressed by Mr. Palmer, of Omaha, in the interest of the thrift stamp campaign. No day seems to be too cold for these gentlemen to come to this city to attend a meeting called for the purpose of helping the government in the great struggle.

C. M. Daly, of this city, has been

appointed as enrollment officer for the U. S. Public Service Reserve, for the enrollment of skilled mechanics and trained workers of all classes and ages, wanted by the Government, even men of draft age, if not likely to be called soon. The month of January has been designated for enrollment for this work. Literature pertaining to the work can be procured from and application and enrollment can be made with C. M. Daily, O'Neill.

Ed. F. Gallagher, chairman of the Thrift Sale Campaign committee of this county, has selected Mrs. C. E. Stout to have charge of a booth for the sale of thrift stamps that will be opened in the lobby of the postoffice. This booth will be decorated with the national colors and will be in charge of a young lady of this city Mrs. Stout to select the young ladies who are expected to devote their time to the work for the welfare of their country. Thrift stamp sales will continue throughout the year and it is expected to keep this booth open until the campaign closes next fall.

Albert Timm died at his home, on the old Shaw ranch southwest of this city, last Tuesday, after a short illness of paralysis. The body was shipped to Norfolk, the old home of the family, this morning and will be interred there. Mr. Timm was a native of Germany and was 60 years of age the first of last October. He came to this country from Madison county in the spring of 1916 and has since been living on the Shaw farm. He leaves a wife and nine children to mourn his death. The children are: Mrs. Conger, Lewis and Lawrence, of Madison, Neb., and Herbert, Franklin, Ralph, Mayme, Esther and Lester of this city.

George E. Hansen was in from the north country last Tuesday and was a pleasant caller at this office. Mr. Hansen is now a firm believer in the

advertising power of The Frontier. A couple of months ago he advertised a truck for sale through the want ad columns of The Frontier. A farmer residing near Basset seen the advertisement and corresponded with Mr. Hansen. The result was that Mr. Hansen sold his truck, at the expense of \$1.00 paid for advertising. Mr. and Mrs. Hansen just returned last week from a couple of weeks visit at the home of his brother and sister at Harlan, Iowa. He says they had a splendid visit with old time friends.

This section has been enjoying some real old time weather the past week. Thursday the mercury dropped to 12 below, there it clung about all day and that night dropped to 30 below. Friday the mercury registered about 20 below all day and with a heavy wind blowing from the northwest it seemed to be at least 20 degrees colder. Friday night the thermometer registered 31 below, which is the coldest point reached this winter. Saturday, the anniversary of the great blizzard, was a cold and dreary day but that night was not near as cold as the two nights before. The past couple of days it has not reached zero, but the continual snow flurries makes it very disagreeable and cold.

Harry O. Palmer, of Omaha, was in the city last evening and delivered an address at the Royal Theatre on war savings and thrift stamps. He also addressed the pupils of the High School and St. Mary's Academy during the afternoon. A large crowd was out to hear Mr. Palmer, showing that the people of this city are awake to the importance of supporting all government activities, in order that victory in the great world struggle be secured that much quicker. Mr. Palmer urged upon his audience the necessity of cutting out the purchase of all unnecessary things and the investment of the money thereby saved in government thrift stamps, so that

the government would have that much more to assist in the purchase of the necessary equipment for our army

boys. His address was well received and we believe that he added "push" to the stamp sale in this section.

"I wish to give a friend a timely and striking present."  
"Then why not give him a clock?"

**The Bell Telephone Links the Fighting Forces and the Great Industries**

The high development of telephone efficiency in this country gave the United States, when it entered the war, a superiority over all other nations for quick communication.

One man in every six from the maintenance and construction forces of this company is now in the telephone signal corps of the army, or in some other branch of the military service.

The nation's capital and the various military headquarters and camps are linked with all the great industrial centers by the long distance lines of the Bell Telephone System, which reach 70,000 communities.

Not only our men have answered their country's call, but the telephone operators are "doing their bit," too.

Thousands of miles of special telephone wires have been turned over to the government for its exclusive use.

The faithful young women at the telephone switchboards realize the tremendous dependence the nation places on rapid communication in this crisis, and are accepting cheerfully the heavy responsibilities thrust upon them.

In spite of the war and what it has meant to this company in the increased number of telephone messages to handle, the enlistment of so many of our trained men, the shortage of equipment, the scarcity of labor and the high cost of telephone materials—

In spite of all these obstacles, we are meeting the needs of the public for telephone service in a remarkably successful way.
