EUROPE NEEDS FOOD

Food Administration Declares It Is an Absolute Sin to Waste Food-Food Has Become Sacred.

Europe is still sending an insistent call for more food. We must send it 10.00 if the war is to go on efficiently. If we eat it all we cannot ship it, and 10.00 the food administration has already 10.00 tried to picture how much that wheat is needed by people who will starve if they do not get it, the food administration states.

"For the least bit of heedlessness 10.00 on your part in food conservation some 10.00 fer privation," an official statement declares. "The food administration 10.00 has mastered the problem of Amerithe currents of trade goes to an empty

"It is an absolute sin to waste food.

"Food means life; it means somebody's life, and you cannot escape responsibility.

"There is no waste of food among the allied nations."

in Germany. He expects to be gone O'Neill Dray and Transfer 10.00 SEIZURE OF HOUSEWIVES' FOOD STOCKS IMPOSSIBLE

The government has never considered any plan of seizing foodstuffs

In spite of this fact, the United States food administration has been obliged repeatedly to issue official denials of rumors that the government intends commandeering preserves and canned goods put up in American 5.00 homes.

These rumors were originated partly The officers and members of the ly by conscienceless grafters, who

The year 1918 will see home canning and preserving practiced on greater theirs, and theirs alone,

WAR BREAD COSTLY TO BRITISH GOVERNMENT

Every year the British government pays \$200,000,000 toward the cost of The Government needs urgently, for principal reason why English bread

Great Britain has taken over all loaf of four pounds to sell at 18 cents. The two pound loaf costs 9 cents, and the one pound loaf sells for 5 cents.

In milling, however, 14 per cent. more flour is extracted from the wheat

Compared with American bread, the British product is only about 65 per cent. pure at its best.

In France, under conditions somewhat similar, but with a larger extracassured by the Chancellor that the tion, the four pound loaf sells for 16

You'll find the results far more satisfactory, and incidentally save your household 10.00 taken to the cantonment as evidence a lot of troublesome bother. Geo. P. Ide & Co., Troy, N. Y.

Where are the Hinges, Catches And Latches?

Inside out of sight and out of the way.

Women have been cleaning fussy ranges for fifty years. They have had to dig the dirt out of cracks, corners and crevices, from around hinges, catches, latches and knobs. Poor, longsuffering woman!

Just a few years ago automobiles came out. They were full of ornaments—hinges, catches, knobs and handles. But man had to clean automobiles. He rebelled. He wouldn't stand for these things. They were not only ugly, but prevented the proper cleaning of the body. About this time the Concealed Hinge of the Copper-Clad was invented. The automobile manufacturer grabbed it. Inside went all hinges, catches and latches, and ornaments were abolished entirely.

Why shouldn't a kitchen range be smooth and easy to clean?

The Copper-Clad Range Cleans Like a Dish.

Warner @ Sons
