

**WHILE LOOKING THROUGH AN OLD TRUNK**  
a woman found some rare lace and a silk scarf, discarded years ago because of stains. She sent them to us for Dry Cleaning and we restored them to usefulness—returned them looking like new.

What have you in your old trunk? Something perhaps that can be renovated so that it will give you the service of a new garment. Some fine old silks, possibly, that can be cleaned and made over again.

Why not find out today?  
Then telephone 209 and have us call for them.

**You Can Get a Government-Irrigated Farm In The Big Horn Basin, If You Act Promptly.**

Uncle Sam built this irrigating system; he gives you the lands and charges you only the actual cost of an ample and permanent water right. The mode of payment is nearly a gift—twenty years' time no interest; with three years' cultivation, these farms will be worth at least a hundred dollars an acre; excellent surroundings; on the Burlington's main line, near Deaver, Wyo.

**THE BIG HORN BASIN:** Because of the rich oil discoveries, the great irrigated areas, the heavy alfalfa and grain production, beet sugar factories, oil refineries, growing population, the Big Horn Basin teems with prosperity and a rapidly increasing development.

**NEBRASKA AND COLORADO LANDS:** For dairying, wheat raising, for livestock and general farming, these lands can be bought on good terms. They are cheap and should double in value, in the face of the world's demand for food stuffs.

Secure my services; they are free to you.

**An Army of Stenographers.**

Washington, N. C., January 21, 1918.—There is today in the City of Washington in active operation an army whose exploits attract little notice, but whose members are doing a very large "bit" toward winning the war for America—an army of stenographers and typists, twelve thousand strong, recruited from every State in the Union. A majority of these soldiers of the notebook and typewriter are girls. Day in and day out their nimble fingers faithfully click out the tremendous volume of correspondence and records required by a great nation at war. They wear no badge nor uniform; their work is all work and has no thrill no romance; but the United States could not stay in the war a month without them.

The rapidly expanding departments of the Government in Washington employ stenographers and typists with a greed that seems insatiable. The United States Civil Service Commission estimates that there will be twenty thousand Government employees of this class in Washington at the end of this year. Owing to the general demand the Commission is finding it a difficult task to meet the calls of the departments. Examinations are held every Tuesday in 450 cities, and the Commission states that an examination will be held in any city at any time, day or night, when there is prospect of assembling a class of three or four competitors. Eligibility may be obtained through passing an examination in practical tests in shorthand and typewriting. It is practicable to complete such an examination in one hour. Representatives of the Civil Service Commission at the post offices in all cities are furnishing definite information to persons interested.

**HAPPY WOMEN.**

Plenty of Them in O'Neill, and Good Reason For It.  
Wouldn't any woman be happy, After years of backache suffering, Days of misery, nights of unrest, The distress of urinary troubles, When she finds freedom.  
Many readers will profit by the following.

Mrs. Bowen, O'Neill, says: "I was having a terrible backache and the dull, heavy pain was so steady it seemed to wear me all out. I couldn't get much rest at night and it was all I could do to keep at my work. Many days I had a severe pain in the back of my head. My kidneys acted irregularly and showed they were out of order in other ways. Doan's Kidney Pills completely relieved me, so I am glad to tell others about them."

Liberty Association Provides Books for Fighting Forces  
More than half a million books already have been furnished soldiers and sailors in training camps and in France by the American Library Association War Service and the flow is

steadily increasing, according to the director of this work.

A campaign for funds inaugurated by the association last autumn netted more than \$1,500,000 and real results in the tangible shape of books and comfortable libraries are being felt by the soldiers and sailors. The Carnegie Corporation gave \$320,000 for the erection of camp libraries. Nearly all camps now have libraries and in the others the buildings are in course of construction. The reading rooms each accommodate 250 men.

For the men in France the association has organized distributing stations at all points of embarkation, where books are assorted for shipment abroad. Soon every soldier who steps on a transport will carry a book with him, which he and his companions will read on the way across, after which it will be forwarded to the men back of the trenches. No attempt will be made to establish libraries in France, but the association will have representatives there to supervise the work of distribution.
