MORE LOCAL MATTERS.

James Scriven, of Chambers, is home from the Great Lakes naval training station on an eight days furlough.

The Red Cross benefitted \$42.00 by a box social held at the Chain Lake school house in the south end of the county the Saturday night before Easter.

The many O'Neill friends of Miss Eurna Clyde, of Paddock township, will be glad to learn that she has recovered from a severe seige of rheumatism.

The total receipts of the box social at the Bert Miller school house in Paddock township Easter eve were \$114, all of which went to the Paddock Red Cross.

John P. Golden, of Creston, Iowa, who came to O'Neill to attend the Hammond funeral, is spending several days renewing acquaintances and will return home Friday morning.

Fish Commissioner O'Brien has notified Sheridan Simmons that he will be in O'Neill about April 20 with a supply of young trout for the trout streams of northern Holt county.

This year's graduating class at the High School will consist of thirty-one members, the largest in the history of the school. Last year's class of twenty-one was a record up to that time and previously the largest class graduated numbered sixteen.

James Gaughenbaugh returned Wednesday evening from Omaha, where he has been in attendance at the bedside of Mrs. Gaughenbaugh who is undergoing treatment at one of the hospitals. The physicians have as yet been unable to ascertain the exact nature of Mrs. Gaughenbaugh's illness.

The Liberty Loan address at Page Saturday afternoon was delivered by County Judge Malone, whose eloquence drew round after round of applause and resulted in the Page quota of the loan soon being subscribed. Judge Malone has devoted much time the last fall and winter to assisting in the financial and patriotic work of the war and has delivered addresses in many of the towns and school houses of the county.

On April 5th, Miss Etta Alfs, teacher in District No. 8, gave a program and social for the benefit of the Red Cross, which was a big success. The program of patriotic songs and pieces were the best ever heard in this community, and it goes to show that Miss Alfs took great pains in training her pupils for the occasion. On account of the evening being stormy there was not as large a crowd as was expected; but those who were there enjoyed it fine. John Murray and Loyde Ritts were the auctioneers and the way they got the money out of the boys goes to show that they are not slow. They have gained for themselves a reputation as auctioneers and are thinking of entering the field next spring in competition with Jim Moore. The proceeds amounted to \$71.10. The highest basket brought \$21.00 which was the teacher's.

Hurrah For Webb Kellogg. Sioux City Tribune: O'Neill, Neb., brings forth the name of Webb Kellogg as the largest food producer in the state of Nebraska. Mr. Kellogg, whose oldest son is on his way to France and whose second son is "rarin' to go," is farming 3,000 acres at Allen; 640 acres at Brunswick and a 320-acre dairy farm near Sioux City. In addition, he is operating two ranches at O'Neill with a joint acreage of 5,600 from which he has for years turned off from 5,000 to 8,000 head of cattle annually. This year his output from these two ranches will be more than 15,000 beeves.

Beware Of O'Neill Orators.

The fiery eloquence of O'Neill orators, when loosed in the cause of patriotism, sure starts their auditors to going. If the people of neighboring towns don't want trouble among themselves they had better not invite an O'Neill man to address them on the subject of the war. First it was Senator James Donohoe, who last fall was invited by the citizens of Butte to make a patriotic address. When the senator got through one half of the town tried to tar and feather the other half for being disloyal. Last Saturday the citizens of Stuart asked Judge J. J. Harrington to make a few remarks about the Third Liberty Loan. When the judge got through the citizens tried to mob William Krotter, a leading citizen who had objected to some of the judge's remarks, and even the home guard, called out to preserve order, wanted to participate in the festivities.

North East Holt.

The little snow storms of late have been a great benefit to all the small grain. There is an increased acreage this year mainly of wheat and oats and it is all looking fine now.

J. E. Wiley is the new P. M. at Dorsey, Mrs. Davis having resigned. Jim also has one phone central so that with farming he certainly ought to be busy.

The mail line from Lynch has been extended to Star, that much of the line being cut off from the line from O'Neill, which had for many years supplied Dorsey via Star. Three lines now end at Star all due there at the same time which we think would also put a few more lines in the brow of the Star P. M.

Ed. Alders barn burned a few days ago, also burning some harness and a saddle. The women folks saved a

good horse from the fire which was caused by a match in the hands of a small boy whose intentions were good but his judgment a bit wrong.

John Mosier is as usual selling some fruit trees this spring, working on the principle which is correct, that if you do not plant fruit you will never raise any.

Tom White and family moved to Omaha a short time ago, as he had sold his personal property and rented the home farm for this year.

The infant son of Mr. and Mrs. Ralph Phillips died at the Norfolk hospital on March 31st and the little body was brought home and buried in the Star cemetery.

Roy Pilger had a sale shortly ago and moved to a farm he had bought near Plainview. However he still owns his farm here so he can come back anytime and find his many friends pleased to see him.

Adrian Robinson is farming the Pilger farm this year.

George Tomlinson is moving on high gear this spring, and in fact always has. This season however he has to increase speed somewhat to take care of and farm the 320 acres extra that he bought a short time ago.

Anton Sorenson died at his home near Opportunity March 30th and was buried in the Mineola cemetery followed by a very large crowd of his friends and neighbors. Mr. Sorenson was a native of Denmark and at the time when Germany by force stole Schleswig from Denmark was a small boy, but had a very distinct remembrance of seeing the Prussian robbers march through and devastate almost unprotected Denmark. Mr. Sorenson leaves a widow, one daughter and three sons to mourn his loss.

Spencer-O'Neill National Highway Again Designated.

The official route of the Spencer-O'Neill and Butte highway has at last been designated and other routes, previously surveyed, are to be abandoned. The new route, as approved by the engineers of the government who inspected the several proposed routes last week, begins at the Clyde King residence corner in the east part of town and runs due north on the section line east of the fair grounds to Meek postoffice; thence west one mile; thence north to the Whiting bridge over the Niobrara river and afterward on to Spencer over the present automobile road. The new road will be clayed across the strip of sand between the Liddy bridge over Eagle creek to the Niobrara river. Survey of the new route will be made next week and construction of the road will begin this summer.

WHAT TO USE TO PREVENT APPENDICITIS

O'Neill people should know simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka, flushes the ENTIRE bowel tract so completely that appendicitis is prevented. ONE SPOONFUL Adler-i-ka relieves ANY CASE sour stomach, gas or constipation because it removes ALL foul matter which clogged and poisoned your system. The INSTANT action surprises both doctors and patients. Gilligan and Stout, druggists.

You will find the 6 per cent guaranteed preferred shares of the Norfolk Building and Loan Association admirably adapted to the purpose.

Buy a lot, make a loan and build a home.

John L. Quig, O'Neill

Millions of Dollars Have Been Paid in Dividends to People Owning Stock in Packing Companies

IF YOU ACT AT ONCE, THIS IS YOUR OPPORTUNITY TO SECURE AN INVESTMENT IN THE 8 PER CENT GUARANTEED, PREFERRED, PARTICIPATING STOCK OF THE

Skinner Packing Co.

OMAHA, U. S. A.

Dear Sir:-

We are offering at Par, \$100 per share, a limited amount of the Guaranteed Preferred Participating Stock of the SKINNER PACKING COMPANY, of Omaha, Nebraska.

This company is backed by some of the leading business men of Omaha and is under the personal management of the Skinner Brothers who operate the Skinner Manufacturing Company, the world's largest manufacturers and distributors of Macaroni products, and the specialty lines of the SKINNER PACKING COMPANY will be marketed under the present nationally known SKINNER quality trade mark through the present national sales organization of the Skinner Manufacturing Company.

The SKINNER PACKING COMPANY is organized on a high grade basis and there is not a dollar of promotion stock.

THIS IS YOUR OPPORTUNITY TO PARTICIPATE IN THE PROFITS OF THE PACKING BUSINESS. Morris & Company, this year, paid over 180 per cent on their capital stock.

While the preferred stock of the SKINNER PACKING COMPANY calls for only an 8 per cent dividend the best authorities estimate that their plant will earn an annual dividend on their entire capitalization of over 30 per cent and as each share of stock in the company participates equally in the profits, this stock should be on a 30 per cent dividend paying basis within a very short time. Entire capitalization only \$2,500,000.

Omaha is the world's second largest live stock market. \$192,000,000 of meat products packed here last year which represented but 60 per cent of the live stock shipped to this market. The operating by the SKINNER PACKING COMPANY of Omaha's Daylight Snow White Independent Packing Plant will retard the trans-shipment of the live stock at this point which will mean a great economic saving. THE TIME IN WHICH YOU CAN TAKE ADVANTAGE OF THE OPPORTUNITY TO PURCHASE THIS STOCK AT PAR IS LIMITED.

Please fill out the enclosed blank for further particulars and state the amount you might invest so same may be reserved for you. Address me care Golden Hotel, O'Neill, Nebraska, as I am representative of the Financial Department of the SKINNER PACKING COMPANY.

Yours very truly,

E. A. Dorland.

SKINNER PACKING COMPANY,
E. A. DORLAND,
Golden Hotel, O'Neill, Nebraska.

I have \$..... to invest and without obligation on my part, would like to have you send me detailed information on your company.

It's Your Move

About a year ago we advised the people of this community to lay in their winter's supply of coal, predicting a serious shortage.

Did they take the advice?

They did not

The shortage arrived on time, and the only reason there was not actual suffering was because the local dealers had stocked a supply during the summer and were on the alert day and night. Fuel was secured for O'Neill when many other localities were unable to obtain any. It was sold at times in limited quantities, at an actual loss to the dealers, on account of high cost of delivery in small lots.

The outlook for the coming winter shows no improvement. The government has fixed prices to encourage consumers to buy during the summer. It is up to the public to do this. At the prices fixed dealers cannot store coal to supply your needs next winter. You must share the burden. The government margin to dealers is figured close. In fact the question as to whether the dealer has any margin of net profit is a problem for students in higher mathematics.

As to hard coal, no one knows how much, if any, O'Neill will receive. It would be wise to act upon the assumption that there will be none to speak of, and arrange for soft coal instead. We hope to secure nut coke for base burners, which gave general satisfaction the past winter.

But the main point is: Go to your dealer, whoever he is, and leave an order for coal, for delivery as soon as he can get it, and tell him you will pay for it when delivered. He has spent his cash for liberty bonds and will have to have the money. He can't buy on time. This coal should be in your bins before July 1, as it is almost impossible to secure teams for delivery work between July 1 and October 1, on account of the haying season.

Will the public pay any attention to this advice?

We shall see.

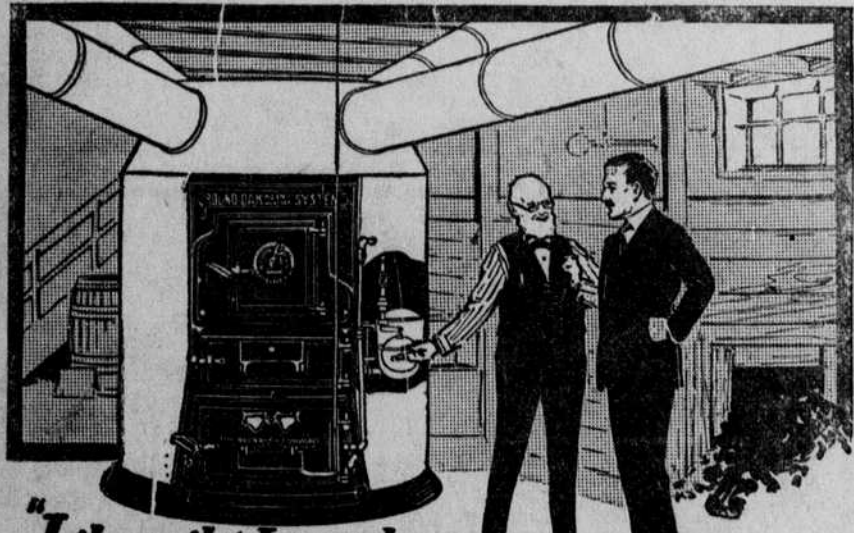

If it doesn't it will place itself in the position of having to uncomplainingly accept responsibility for whatever conditions may exist next winter.

And besides: In addition to providing prudently for your own necessities, you will be performing a real service for the government. This summer coal business is a hardship on us but we are ready to do our bit. Are you?

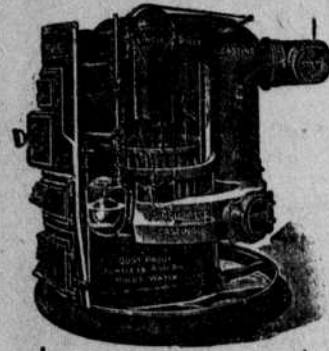

Today, right now, is the time to place your order.

Galena Lumber Co.

O'NEILL, NEBRASKA.

"I thought I was buying just a Heating System but I find that I purchased a Lifetime Guarantee of Health and Comfort for my Family."

This is always the experience of folks who invest in the Round Oak Moistair Heating System. It safeguards health and comfort—it heats uniformly—it burns all fuels—it is more economical—it is absolutely clean—it lasts a lifetime—these are the reasons why we want you to know about

The Round Oak Moistair Heating System

We have an instructive and interesting book at our store for you. It tells all about the basic principles of healthful heating of homes. It explains and illustrates each and every one of these powerful claims. We want you to have this Round Oak Moistair Book. When you call be sure to ask about the free heating plans and engineering service we are in position to render.
