A SHOE STORE WITHOUT SHOES

A shoe store without shoes would not do much business—would it? And each shoe store buys its shoes from those makers who manufacture the kind of shoes for which it has a market. It must have shoes adapted to the requirements of its trade. How many men—yes, and women, too—are trying to do business without a Bank Account? You can no more do a successful business without a bank account than a shoe store can sell shoes without stock. You need a Bank of Personal Service. One that takes a hearty, personal interest in you and your individual needs. This is a bank of Personal Service. It gives the same individual attention to the small depositor that it does to the large.
