Postmaster McCarthy has received notice from United States Marshal Flynn, of Omaha, regarding the registration of alien enemy women, but dates of registration have not yet been fixed. The registration will be the same as that held for men. The instructions state that all women born in an enemy foreign country must be registered unless they can married to an American citizen, either native or naturalized. All women and girls over fourteen years of age are so classified, except that girls under eighteen years of age, born in an enemy foreign country become citizens if their father has died and their mother re-marries with an American native or naturalized citizen.

P. D. Mullen was passing around pint packages of ice cream to his friends in this city last Friday. The editor was one of the fortunate ones and for a time we were at a loss to understand Councilman Mullen's generosity. We asked him if he was celebrating the capture of the Kaiser or the advent of twins at his home, or if he was getting ready to enter the field as a candidate for the democratic nomination for United States senator. Neither of our queries were answered in the affirmative and then he informed us that the ice cream was shipped to him from Omaha in one of the O'Brien & Hicks Iceless containers. The cream was packed in the container at 5 o'clock Friday morning and Mr. Mullen received it at 5:30 that afternoon and it was as hard as if it had been packed in ice all day. These iceless containers are a new invention and are being manufactured in Omaha. D. J. O'Brien, well known in this city, and formerly owner of the O'Brien Candy Co., is at the head of the company. Mr. Mullen and several O'Neill people are stockholders in the company and are looking for big dividends on their investments when the company is able to supply the great demand for their product. To prove that the container would do what was claimed for it was the reason for Mr. Mullen's treat. Come again, Pat, and make the package a little larger.
