Doughboy Chose Poor Time to Impress Companions With His Knowledge of French.

A Y. M. C. A. secretary with the expeditionary force in Paris (not Abintra and not Sacca Bonna, but another one who prefers to remain nameless) tells us this one:

Some Yanks attended a theatrical performance the other evening. I speak French pretty well myself, and I went along with one of the boys as an interpreter. After the curtain had gone down on the first act, the principal comedian came out and addressed the audience. When he had finished, my companion broke out in vociferous applause.

"Why did you applaud that curtain speech?" I whispered.

"I wanted to make some o' these other doughboys think I understood French," he whispered. "What did the guy say?"

"He announced to the audience," I answered, sadly, "that his part must be taken by an understudy for the rest of the performance, as he had just received word that his mother was dying."-Cleveland Plain Dealer.

have unusual merit.

If you are troubled with pains or aches in the back, feel tired in the morning, headaches, indigestion, insomnia, painful or too frequent passage of urine, irritation or stone in the bladder, you will almost certainly find relief in GOLD MEDAL Haarlem Oil Capsules. This is the good old remedy that has stood the test for hundreds of years, prepared in the proper quantity and convenient form to take. It is imported direct from Holland laboralories, and you can get it at any drug store. It is a standard, old-time home remedy and needs no introduction. Each capsule contains one dose of five drops and is pleasant and easy to take. They will quickly relieve those stiffened joints, that backache, rheumatism, lumbago, sciatica, gall stones, gravel, "brick dust." etc. Your money promptly refunded if they do not relieve you. But be sure to get the genuine GOLD MEDAL brand. In boxes, three sizes.—Adv.

Getting the Bird.

Four travelers were dining at a village inn. They evidently taxed the resources somewhat, for one attenuated looking duck was all that appeared for the four.

The gentleman who was to carve stuck his fork into the back, and exclaimed with great rapidity:

"Who says duck? No one says duck? Then I say duck!"

Whereupon he transferred the bird to his own plate and was half-way through it before the others had re covered from their astonishment.

From the London Times. Four years ago, when prophets held that three years, at the most, would see the war through, boys born in 1906 were not inclined to take a very near view of their chances of service. The overturn of the world seemed rather fine to live amidst, at one remove; but

still outside themselves. Elder brothers on service were enviable fellows: "No such luck for us youngsters." It would be all over before we could be of military age. Spectators they expected

to remain. But there came a day when the boy realized that he might "get a look in" after ail. The khaki of everyday school wear took a new meaning. It became a foreshadowing of a possible reality. And with that conviction came a grad-

ual change, curious for parents and guardians to watch. Not that the boy ceased to be a boy in all outward es-sentials, but something different had been added—a hint of gravity, an in-crease of common sense, an interest in public affairs that used not to develop very strongly until the university was reached, a general impression of rapid ripening. The burden of life and of the nation had been laid upon him; he was taking it up, not grimly, or in any burdened way, but with seriousness, the seriousness with which he played games, where one must be whole hearted or fail. very strongly until the university was

To his father the boy's sudden leap To his father the boy's sudden leap to manhood has been a revelation somewhat disconcerting. What his mother thinks of it has not been told. The days creep on toward his birth-day. It seems but yesterday that he was an infaut. In a few weeks more his country will have claimed him.

his country will have claimed him.

But if the father had something of a shock when he discovered that the years of war had stolen away his boy untimely, he has compensation, deep and wonderful, in the man thus suddenly set before him. For in twilight talks it is indeed a man that now sits beside him, a man with all the freshness and charm of boyhood still unshed, more gracious perhaps and winning by its whimsical contrast with the new, strange gravity of certain moods. It lightens the brooding shadow of uncertain fate, which to the elder will not be denied; it purges of everything morbid that inevitable misgiving. The boy accepts the fortune of war gladly. accepts the fortune of war gladly. These last years have been crowded with glorious life; he looks only for something more glorious. And those who remain behind have a priceless possession—a remedy of good and evil fortune.

For, let the event be what it may, there cannot now be any sense of utter incompleteness in that young life. The boy may have ripened before his time, as men accounted time in the sleek days of peace, but nature or Providence has spared him unhealthy precocity, and has vouchsafed a glimpse, and more than a glimpse, of the man, watched for, wondered over with a myriad tender hopes and surmises for 18 fleeting years, and now, on a day we looked not for it, suddenly revealed in full stature. It is as though the eternal law of compensation had ordained this clear provision of a character that might otherwise have remained only a fond speculation. But here is a com-For, let the event be what it may, fond speculation. But here is a com-forting measure of certainty: it is a man that will go forth to war; a man not merely dreamed of, but one whom we have seen and known—that will receive our parting blessing: "Macte virtute esto!"

Ear Plugs for Burmese.

Burmal: Correspondence Cleveland Leader All the girls here wear ear plugs. They cannot enter society without them. As a maiden approaches the age of coming out, which is usually at 12 or 13, her ears are bored, and the coremony is as important to her as the first long dress is to her American sister.

The ceremony is formal, and it must be done when the stars are propitious. The family consults the fortune teller for this occasion, and a big feast is prepared. All the relatives and friends attend in their best clothes to witness the piercing. This is done by a professional earborer, who uses needles of pure gold for the rich and silver ones for the poor.

When the exact moment has arrived the

girl is laid down upon a mat in the back of the room and her relatives hold her there while the earborer thrusts the gold-en needle through the lobe and twists it around into a ring. This he leaves in the ear. The other ear is treated like-

wise.

While this is going on the bands play, and after it there is a feast. It takes the ear some time to heal. When it is quite well the process of enlarging the hole begins. The needle is pulled back and forth until the sore heals.

It is then taken out and a little cylinder of finely rolled gold is pressed in. This is gradually opened from week to week, stretching the hole larger and larger.

As already noted, our actual expenditures will apparently not go over \$13,000,000,000. When we deduct from that sum our loans to allies, we find that, in the first year we are raising at least 50 per cent of our actual war expenditures from taxation, whereas England raised only 18 per cent in her fourth year and proposes only 31 per cent in her fifth year.

And in the coming year the British budstructure of their financial strength.

In the first year of the war, Great Britain increased taxes only slightly. The main factor was to keep business going at full speed. In the second year about 9 per cent of Britain's war expenditures was raised from taxation. In the third year 17 per cent came from taxes, and about 18 per cent in the fourth year. In presenting its budget for this, the fifth year, the British treasury proposes to raise about 21 per cent of the war expenditures from taxes. SOUTH AFRICA AND
ARGENTINE PUSH TRADE

World War Has Developed Commercial Intercourse Between
Two Countries.

Buenos Aires, (by mail).—A very important commercial intercourse has developed with the last few months between the Argentine republie and South Africa. This is all the more striking because there was not enough trade between the two countries a year ago to be worth mentioning. When a direct line of Japanese steamships was inaugurated between Yokohama and Buenos Aires, calling at Cape Town, the South Africa my covernment sent a trade commissioner to Buenos Aires and within a very short time he succeeded in inaugurating a flow of business in both directions that is rapidly assuming large proportions.

This commissioner then returned to South Africa to centinue his work there and has just come back to Buenos Aires again to supervise the important transactions which, by his initiative, are now taking place between the two countries. countries. The volume of business which these transactions represent at this stage already exceeds \$2,560,000.

The goods now being exported to South Africa are such as to have aroused interest and surprise among Argentines. For example the South African union either has imported or is in the act of importing 13,500 tons of steel rails and accessories valued at \$1,500,006; 24,000 pairs of shoes valued at \$75,000; slaughter house by products such as bone meal, dried blood, etc., valued at \$75,000; leather to the value of more than \$150,000; 10,000 casks of linseed oil; 20,000 cases of canned meats, valued at \$225,000; locally meanufactured chemical products, mattress wire and between 790 and 800 tons of wheat. South Africa also is buying

more than \$150,000; 10,000 casks of linseed oil; 20,000 cases of canned meats, valued at \$225,000; locally manufactured chemical products, mattress wire and between 700 and 800 tons of wheat. South Africa also is buying Argentine hard wood raillway ties.

But the trade is not all one way. Argentine hard wood raillway ties.

But the trade is not all one way. Argentine has recently taken from South Africa hessians to the value of \$100,000, ostrich feathers, tea, lucerne seed, wines brandy and gin, as well as coal in considerable quantities. Two cargoes of South African coal have arrived here within the last few days and more is on the way. This coal has been thoroughly tried on the railways and is giving entire satisfaction, so that is probably will form one of the principal articles of trade between the two countries in the future. It is of particular interest to note the growth of Argentine industries to an extent that permits of the export on a comparatively large scale of manufactured goods as boots and shoes, and semimanufactured goods such as leather. The market for Argentine shoes and leather in South Africa appears to be excellent. Already Argentine representatives of these industries have visited or are visiting South Africa on behalf of their factories, with satisfactory results.

At regular intervals selected, correspondents are permitted to write letters from "Grand Headquartera," descriptive of the life led by the kaiser, and of the deeds of manhood, chivalry and plety which fill it. All of them, of course, unite in describing his imperial majesty as a Twentieth century Bayard, with the tender heart of a St. Francis, and the mystic plety of a St. Thomas A. Kempis.

We are informed that the army immensely enjoys those days when the kaiser visits the front. The things he has said at the front will fill a shining page when the history of the war comes to be written. The soldiers eyes fill with tears when they see him. They are proud to hear that he has been in their trenches.

His majesty, we hear, always manages to be at the front on great occasions. You might think he is averse to fatigue. Not a bit of it. He likes fatigue. From 'The Man Without a Country,' by Edward Everett Hale.

For your country, boy, and for that flag, never dream a dream but that flag, never dream a dream but of serving her as she bids you, though that service carries you through 1,000 terrors. No matter what happens to you, no matter who flatters you or abuses you, never look at another flag; never to bless that flag. Remember, boy, that behind all these men you have to deal with, behind officers and government, and people even, there is the country herself; your country, and that you belong to her as try, and that you belong to her as you belong to your own mother. Stand by her, boy, as you would stand by your mother.
