**Soap**

When the prices advanced 60 days ago about 50 per cent we found ourselves with a very large stock on hand that we bought in anticipation of the advance. We are still able to sell at the old prices and will continue to do so as long as this stock lasts. Here is a chance for you to save money. Buy a box of soap today.

**Sugar MUST BE Saved.**  
A teaspoonful means nothing, you say; yet a heaping teaspoonful saved each meal for 120 days for each of the 100,000,000 persons in the United States makes a pile as big as the Woolworth building—enough to supply the entire armed forces of the nation.—U. S. Food Administration.

Why don't you get that Royal Tailored look? The mills frankly intimate that there will be no civilian woollens woven next year. We offer Royal Made to Measure suits and Overcoats at \$19.75, \$22, \$25, and \$30.

**You Can't Eat Meat 100 Miles Away**

Preparing meat is only a part of Swift & Company's usefulness.

The finest meat in the world wouldn't do *you* any good one hundred miles away from your table.

Swift & Company efficiency has made it possible to place complete lines of products in the smallest and most remote communities.

To be sure the work is done well Swift & Company, through its branch houses and car routes, brings the meat to the retail dealer for you.

Swift & Company lays out car routes covering towns—big, little, medium size—which are not served by a Swift branch house.

Salesmen find out in advance what is wanted by the dealers in every town.

They are followed by refrigerator cars loaded with retailers' orders, which are delivered at each town—fresh, clean, and sweet—once or twice each week.

Swift & Company operates a large number of car routes like this, from fourteen distributing plants.

This is a necessary and natural part of the packers' usefulness. It fits into the industry in an orderly, effective way. It makes *better* meat *cheaper* from one end of the land to the other.

**Swift & Company, U. S. A.**
