Blue Bird Feature with Fritzie Burlette, Mary Anderson and Lew Colby.
Also, Animated Weekly.

TWO SHOWS—7:30-9 O'CLOCK
Matinee 3 p. m. Saturday.

MORE LOCAL MATTERS.

The dance at the K. C. hall Wednesday evening was well attended, despite the inclement weather, and a good time was had. The music was by the Twentieth Century Jazz band.

Among the distinguished attorneys present at the session of district court this week was W. A. Price of Grand Island, one of the leaders in the Nebraska house of representatives during the session of 1911.

Radical amendment of the present primary laws is provided for in a bill which the state house of representatives has recommended for passage. The bill provides that all state officers except the governor shall be nominated by the state conventions, instructed delegates to which are to be selected at the primaries.

The heavy snow and wind storm which struck this territory shortly after midnight Wednesday night and is still prevailing, is general over the northern part of the state. Train service is badly disorganized and livestock is reported as suffering in the cattle country to the west. None of the rural mail carriers made trips today.

Eastern capitalists are endeavoring to purchase the Cornell power plant on the Niobrara river near Valentine. This is one of the largest water power plants in the state and its location is such that its capacity can be more than quadrupled without much additional outlay. The eastern investors would acquire the plant for use in manufacturing a sand brick recently invented and in the manufacture of which intense heat is required.

Soldiers To Get Bonus.
A ruling formally announced from Washington is that all discharged soldiers may keep the equipment and uniforms in which they were mustered out. Also that each discharged soldier will receive a \$60 bonus.

May Have Uptown Express Office.
O'Neill soon may have an uptown express office. A petition signed by a majority of the business men and patrons of the express companies already has been submitted to the officials and is receiving favorable consideration. One inspector already has been sent to investigate the situation and word has been received that another shortly will visit the city. His report probably will be final. With both an uptown express office and telegraph office, and a possibility of electric lights in the near future, the city soon may take on metropolitan airs.

Educational Notes.
The next regular examination for teachers will be held March 15, 1919, one day only.

Reading Circle Examinations will be given in the forenoon on the following dates: March 15, 1919, May 24, 1919; July 26, 1919.

The prices of the Reading Circle books are:
Rural School Management \$1.00
American Patriotic Prose 90c
School Efficiency 90c

These books may be purchased from the County Superintendent.
There will be two Eighth Grade Examinations given this year, one April 10th and 11th, and the other May 8th and 9th. Blanks on which to list pupils wishing to write, will be mailed to all teachers.

Miss Ester Richardson, teacher in District 184, reports her school 100 per cent Junior Red Cross.

The North Nebraska Teacher's Association will be held at Norfolk March 26-27-28.

ANNA DONOHOE,
County Superintendent.

Discharging of Soldiers Discontinued.
Mustering out of soldiers now in this country has been discontinued for several months pending the outcome of the peace negotiations and to permit of discharge troops being absorbed into civil occupations without disturbance of economic conditions.

County Agent's Notes.

Many farmers have inquired regarding the sowing of sweet clover in a field where there is a poor stand of alfalfa. I have the following letter from E. C. Waters, of Atkinson, one of the most experienced sweet clover growers in the county and it will be of interest to many farmers. Any farmer desiring sweet clover seed for spring seeding should look over the exchange list and purchase at once as there is a big demand for seed and it will soon be sold out.

Mr. Lancaster, O'Neill, Nebraska.
Yours of January 27th at hand. In reply will say that I have never sown clover with alfalfa. If the stand of alfalfa is a light stand and it was wanted for pasture purposes it would be fine. The alfalfa could be pastured to keep the growth down and allow the clover to start. This would make a fine pasture. If it was wanted for hay I would disk the alfalfa, put a press drill in and seed to alfalfa. This field would yield a crop of fine clover hay if the ground was plowed and seeded to sweet clover as this is innoculated for clover. The trouble in sowing the clover with the alfalfa is that the alfalfa would draw the moisture from the clover plant while young and tender. I doubt this being a good plan unless the alfalfa was pastured to hold it out. The tramping of the clover plant would do it good. Spring seeding of clover makes a fine cutting of

choice hay that would be cut in September or October, usually a good time to cure hay.

I will advise you in regard to the clover seed before it is all sold. The seed is giving the best of satisfaction. Everyone that is not satisfied has the privilege of returning the seed. I sell it only as choice seed and it has to be such. I am very grateful to you for what you are doing for the sale of the seed. You may say that if the seed doesn't come up to the highest standard they can return it and I will return the money.

Yours respectfully,
E. A. WATERS.

HOGS IN POOR CONDITION.

I have had several calls from farmers of late stating that their hogs were not doing well. Most of the cases proved to be wormy hogs and were cleaned up in a short time with Santonine and Calomel. You can get this at most drug stores. The druggists should mix 6 gr. santonine to 4 gr. calomel per 100 pounds of pig. Skip one feed and feed it in a thick slop, followed by a feed of oats.

You can mix the following conditioner and keep before your hogs in a small self-feeder. It is much cheaper and as good as any set-back powder you can buy:

Charcoal, coal slack or wood ashes 60 pounds 25c
Air slacked lime 8 pounds 12c
Copperas 4 pounds 40c
Sulphur 4 pounds 20c

Total cost \$1.07

This makes a cost of only \$1.07 for

81 pounds of the conditioner. All ingredients can be purchased here as I have made arrangements for the same in large quantities. If you want any of this come to the office and I will help you get it.

IMPORTANT BULLETINS.

The following bulletins may be obtained by writing to the county agent office:

1. Prevention of Losses of Live Stock from Plant Poisoning.
2. Dehorning and Castrating Cattle.
3. Sweet Clover on Corn Belt Farms.
4. Butchering Bulletin on Pork and Beef.

Big Reduction In The Price of Blackleg Vaccine.

We have made a new contract with a Blackleg Vaccine Company by which the company agrees to furnish us Germ Free Blackleg Vaccine, which immunizes for life at 17c per dose. This vaccine retails at 35c per dose but as we have agreed to order in lots of 3000 doses and take it in 50 dose bottles the above offer was made. During the past year we have used 8000 doses of the Germ Free Vaccine which was furnished at 31c per dose. It can easily be seen that a saving of several thousand dollars can be made the coming year. If you can not use the full 50 dose bottle it may be that your neighbors will help you out. Vaccine that is left over will remain good for six months if the bottle is sealed and placed in a cave or cellar. A few of

the small bottles are on hand at the present time. As far as time permits, I will help you in administering it the first time and we will keep a supply of instruments on hand at all times to loan to farmers. The vaccine comes in a liquid form all ready to use. In the 8000 head that I have aided in vaccinating during the past year only two have died although many herds were badly infected when vaccinated. Should you desire to use this vaccine at any time write or phone the County Agent Office, O'Neill.

Corn Wanted By Cattle Feeders.

Have you corn to sell? If so, call on O'Neill Mill & Elevator. I have arrangement with large feeders to

buy corn at O'Neill and can use all corn for sale in this locality at the highest market price. Don't fail to see me if you have corn to sell.
361f GEORGE GAUGHENBAUGH.

"ESSENKAY TIRE FILLERS."

A positive substitute for air. No inner tubes. No punctures. No blow-outs. No flat tires. Twice the mileage. Will save the average car owner \$50 per year. Can be transferred from one casing to another.

The Essenkay Products Co., of Chicago, have established a County Distributing Agency and Service Station at O'Neill.

Write or call on C. E. Downey for particulars. Phone 42. O'Neill. 36-2

Whee! What Bargains!

Harpoooned to the hilt in price. Just to put a little pepper and salt into our early season's business and get the Easter rush started in February, we've put the cleaving knife into the prices on thirty of the peachiest styles in that grand old heavyweight Royal Tailors Fall line of 1918.

We have faith in these patterns. An excellent assortment suitable for all year wear. Yet we've priced them without heed of their cost or sterling worth—priced them at an actual loss, if you please—in order that they may provide the basis for a rousing big early order drive in our store.
