

THE FRONTIER.

THE ARM OF A SETTEE

It was hollow. In cleaning house mother discovered it. She thought it was a good place to keep her money. She gathered together \$150 in bills and hid them in the hollow of the arm of the old settee. The other day she went to add some more bills to them, when she found mice had made a nest of her \$150. The Bank is a good place to "hide" your money. It is safe—and so is your money.

The bill as amended and passed by the senate now must go to the house for concurrence before being presented to the governor for his signature.

Why Not Get This For O'Neill.

Inman Leader: The assistant superintendent of the C. & N. W. Railroad Co., was in Inman Tuesday looking over the grounds with the view of making a freight terminal at this point. Under the operation of the new eight hour law the haul is too great a distance between Norfolk and Long Pine resulting in tying up a number of crews along the route. The officials have realized for some time that a division point was necessary and Inman's location with a sufficient amount of yard ground, adequate supply of water and other advantages gives the public reasons to believe that a railroad terminal will be established here.

O'NEILL, NEB.

Our reputation for fair dealing and reliable goods, coupled with the De Laval record of service and durability, has made the De Laval Cream Separator the leader in this community.

COST—That's what you put into a cream separator.

VALUE—That's what you take out of your cream separator.

Value in a cream separator depends upon the amount and the quality of service you get out of it.

Because it lasts fifteen to twenty years the De Laval is the most economical cream separator to buy. If you consider its cleaner skimming, easier running, greater capacity and less cost for repairs, the price of the "cheapest" machine on the market is exorbitant in comparison.

With present high butter-fat prices and the scarcity of labor this is truer than ever.

We'll sell you a De Laval on such easy terms that it will pay for itself out of its own savings. We want to see you the next time you're in town.
