The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition and as a result her nervousness disappeared.

Catarrhal Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrhal Deafness, and that is by a constitutional remedy. FALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rembling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Shrfaces.

"Blue," worried, half-sick people should find out the cause of their trou-bles. Often it is merely faulty kidney action, which allows the blood to get action, which allows the blood to get loaded up with poisons that irritate the nerves. Backache, headaches, dizziness and annoying bladder troubles are add-ed proofs that the kidneys need help. Use Doan's Kidney Pills. Thousands thank them for relief from just such troubles.

French and British Object to Including League of Nations In Preliminary Peace Treaties-President Surprised.

By United Press.

Pichon's claim that the League of Nations will not be included in the preliminary peace treaty was emphatically denied today in American official circles.

President Wilson and the other American commissioners are standing pat on its inclusion, it was stated. Surprise was expressed that Pichon should hold views to the contrary.

The president, it is known, intends to make a strong fight for inclusion of the league. He feels that France and Great Britain need the league even more than America. Hence, Pichon's statement astounded and somewhat piqued the Americans.

An early peace is desired by President Wilson, it was stated, and he holds that inclusion of the league in the pact is vital to America. He was said to be especially surprised at Pichon's action in view of the fact that the French, along with the others, signed the plenary resolution in January for the league's inclusion.

May Restate Position. The president planned to attend this afternoon's meeting of the supreme war council, and those close to him believe that a re-statement of his position might be forthcoming. Pichon, who made his statement yesterday in his weekly conversation with correspondents, declared that although fundamental principles of the final peace are laid down in the preliminary treaty, the League of Nations probably will not be included. He said that Wilson had not asked that it be included. The question is yet to be decided, he said, but inasmuch as neutral countries will be asked to submit their opinions regarding the league before final adoption of the covenant, he believed the preliminary pact would be signed before the

league is completed. The preliminary peace, according to Pichon, will end the state of war, but will not permit Germany to resume full relations with other countries. The blockade will not be lifted completely before the final treaty. He said the question of German-Austria has not been taken up, but that the allies may offer certain advantages to that country if it remains independent, which will not be allowed if it persists in uniting with Germany.

British Concede Point. If President Wilson insists that the league of nations be incorporated in the preliminary peace treaty the British, it is understood will concede the point, although they still believe that the preliminary pact is not the proper inauguration of the place for the league, which, they declare, should be included in the final peace pact.

This attitude was indicated today after the announcement that the American delegation strongly desired the inclusion of the league in the preliminary treaty as well as in the final

The British, it is made known, do not wish to delay the league of nations program in any way, but they express the keenest desire for the immediate signing of the preliminary peace treaty, so as to alleviate unsatisfactory conditions resulting from the continuation of the armistice.

Final action on the military terms of the preliminary treaty with Germany was to be taken by the supreme war council this afternoon.

Treaty Nearly "Final."

While the forthcoming treaty with Germany is termed preliminary, it is to all intents and purposes final, it fixes that country's military and naval tionalists which began as a protest status, defines its boundaries and disposes of the questions of reparation and economic freedom. It will not be really effective, however, until it is ratified by all, or a fixed percentage of the signatory nations. The period for ratification by the allied nations may be at least 40 to 60 days. This will give an opportunity for the calling of a special session of the American congress, enabling the Senate to act. Germany probably will be given a much shorter period in which to accept terms.

## Paris, March 19.—Foreign Minister Dichon's claim that the League of Sations will not be included in the WAR LIABILI

Erzberger, Head of Armistice Commission, Declares Germany Liable Only to Belgium For Indemnities.

By Associated Press.

Copenhagen, March 19 .- If the allies oad the peace treaty with conditions going beyond President Wilson's 14 points, the German national assembly will have to refuse its assent to the treaty, Mathias Erzberger, head of the German armistice commission, declared in an address at a Berlin meeting on the subject of a league of nations, according to dispatch from the German capital today. The matter then would be left to a referendum of the German nation, he said.

Herr Erzberger declaimed any obligation upon Germany to give compen-sation for acts she committed after her first peace offer in December, 1916.

The speaker declared that the only means of calling a halt on bolshevism was the abandonment of the "mailed

fist policy of the allies." Confidence in Wilson. The German people, said Herr Erz-berger, had almost unlimited confidence in President Wilson and he hoped that the League of Nations covenant as promulgated February 14, would not be finally adopted, as he declared it was a compromise of the ideals of President Wilson, with the imperialistic aspirations of some of the allies. The American president, Herr Erzberger insisted, was under obligations to advocate the mmediate admission of Germany to

the league.

Honesty for Belgium. Herr Erzberger asserted that Germany was prepared to accept the vote of Alsace-Lorraine as to its future, but he referred to the reported aspirations of France respecting the Rhineland and to Poland's claims to Danzig as "crimes," adding:

"What is German will remain Ger-

As far as the demands for compensation were concerned, Herr Erzberger declared there was no moral obligation upon Germany regarding compensation, aside from the case of Belgium. In that case Germany would act honestly he said.

### REDS RUSH INTO AMERICAN TRAP

Machine Gunners Mow Down Bolshevists at Vistavka-Enemy Suffered Heavy Losses at Gorka.

By Associated Press.

Archangel, March 19 .- The futile attack which the bolshevists delivered yesterday on the allied and American forces comprised the first serious attempt to cut the line of communication of the Dvina and Vaga columns. The attempt was not only frustrated. but the bolshevist forces suffered a severe

defeat and sustained heavy losses.

Moving from the Kandish-Tarezvo sector the first battalion of the sixth soviet regiment. 500 strong, attacked at 1:45 o'clock in the afternoon the allied positions in the village of Gorka, which is 25 miles north of Beresnik, at the junction of the Vaga and the Dvina. The American-Russian detachment at Gorka was well intrenched and it decisively repulsed the enemy, capturing five prisoners and five machine guns during the fighting. After the attack the bodies of 57 bolshevists were found. The allied force suffered only one casualty, a man wounded.

Vaga Section Quiet. The Vaga sector in the vicin'ty of Kitsa is quiet, as are the other fronts. American officers who returned today from the Vaga front declared that the bolshevists sustained exceedingly heavy losses last week. They related one particular instance of such losses to the correspondent. It occurred after the enemy had razed with artillery fire nearly all the blockhouses in Vistavka,

Rush Into Trap. All the defensive troops withdrew with the exception of a squad of Americans, who lay concealed in a partly destroyed block house with ma-chine guns. When the first column of the bolshe vists' walked unsuspectingly up to the entanglements the Americans inside the block house turned their machine guns loose and mowed down the entire enemy party. After this the defensive forces went back into Vistavka.

Of the total of 36 Americans listed as missing since the beginning of hostilities on this front it has been reported that 10 are prisoners in bolshevist hospital at Velsk. This information was given an American Red Cross field worker who questioned bolshevist deserters on the Vaga front.

#### PICK UP SURVIVORS OF NAVAL TRANSPORT

Thirty-five Adrift In Boats Takken to English Port-Casualties Not Confirmed.

By Associated Press.

London, March 19.-The American naval transport Ysel Haven, which a mine early Friday morning, was at the time 40 miles northwest of Hartlepool. The survivors say that after the first explosion a second blew away the steamer's steam and the vessel sank in seven minutes. The survivors, of whom there were 35, were adrift for several hours before they were picked up. Four were sent to the hospital.

An earlier report on the sinking of the Ysel Haven placed the possible number of casualties at nine sailors drowned. The Ysel Haven was bound from Baltimore for Copenhagen.

## "STINGY" NOW HUN YELL ON FOOD SUPPLY

Allied Allotment Through Brussels Agreement Declared Niggardly-Berlin Wrestles With Prices.

By Associated Press.

Berlin, March 19 .- Indications are that the average German is not enthusiastic over the amount of food he is likely to get under the provisioning agreement with the allies. After his first feeling of enthusiasm over the singing of the long desired arrange-ment he immediately began to figure out his share of the provisions under the terms of the document, an extended summary of which was published officially yesterday, and such comment as is made reflects an undenlable feeling of disappointment at the quantity provided. This was particularly the case be-

cause the newspapers in reducing the totals to figures of pounds per capita, take as the basis of their estimates the population before the war and work out the result at 10 pounds monthly per person, instead of the approximate 18 pounds which results from a computation upon the basis on a popula-tion of 45,000,000, excluding the selfproviders from the number as the food ministry contemplates doing. This means that the allotment would be a half pound of flour and one-tenth of a pound of fats per day to supplement the waning German food stocks. In commenting on the agreement,

Vorwaerts predicts that the independent socialists and the Spartacans will make capital of the fact that there is a provision in the agreement that no food shall be alloted to those who are unemployed through their own fault. The newspaper characterizes the agreement as "anything but a success."

Prices Source of Worry.

Arrangements for foreign credits is only one part of a difficult financial problem confronting Germany in connection with the supply of food from The price of various food abroad. stuffs, particularly cereals, on the world markets is so high compared with the maximum prices which Germany maintained on rationed food-stuffs during the war that some method must be found to make up the differences in cost if the price of bread is to be within the reach of the majority. The constant strikes and discontent of labor which are the breeding ground for disorder and worse, are caused largely by the inability of the poorer classes to meet the cost of living on present wages. The government is aware that if the price of bread, which now is 50 to 60 pfennigs for a twopound, is increased three or four times, the entire laboring class and many of the lower middle classes might swing over into bolshevism.

EIGHT SHIPS FOR U. S.

Paris, March 19 .- Under the agreement which the Germans made at Brussels, the United States will receive eight German ships which will be ready to go to sea within four days. The vesare the Zeppelin of 15,200 tons; the Prinz Friedrich Wilhelm, of 17,000 tons; the Graf Waldensee of 13,000 tons; the Patricia, of 14,466 tons; the Finisterre, of 14,500 tons; the Pretoria, of 13,(200 tons; the Cleveland, of 16,000 tons, and the Kaiserin Augusta Victoria, of 25,000 tons.

The giant Imperator of 52,000 tons also will go to the United States. At the present time the Imperator is stuck in the mud, but it is believed she can be

floated shortly. The total ships made available to the allies under the agreement number more than 700, approximating 1,500,000

The vessels going to the United States are passenger ships on account of the American desire to use them for the transport of troops.

Food Ready to Ship. There is available in England for immediate movement to Germany ap-proximately 30,000 tons of pork products, 5,000 tons of beans, 5,000 tons of rice and 15,000 tons of cereals. The United States has in Rotterdam and on the way there approximately 75,000 tons of breadstuffs

A summary of the agreement shows that payment by Germany will be made by freight hire accruing to the Germans for the use of the shipping; and part from credits that Germany may continue to establish and maintain in neutral countries; part from German exports; part from the sale of German owned foreign securities, and part by the use of German gold.
