A Big Help
 Operate the small machines about the farm by electricity.

DELCO-LIGHT
 will supply ample power at an exceedingly low cost. Runs the grindstone, churn, separator, washing machine for practically nothing. Also supplies the entire farm with brilliant electric light. A child can run it and it pays for itself in a short time. Let us demonstrate it on your farm.

THE UNIVERSAL CAR

There are more than 3,000,000 Ford cars in daily operation in America. This is a little better than half of all the motor cars in use in the country. There is a very potent and profitable reason in this why you should buy Ford cars for your business and for your personal use. It is a demonstrated fact that Ford cars have, in every line of human desire so far as motor cars are concerned, best satisfied their owners with the service given. They must be safe; they must be comfortable; they must be always reliable; they must be convenient and they must be economical, or they wouldn't be so tremendously popular with all classes of people. The big Ford Factory has not yet reached normal production, but the war is over, and it is getting back as fast as possible. We are getting a few cars in right along, and we will do the best possible to give you early delivery.

Runabout, \$500; Touring Car, \$525; Coupe, \$650; Sedan, \$775; Truck Chassis, \$550. These prices are f. o. b. Detroit.

Leave your order with J. B. Mellor, Agent, and be assured of two things: First, the earliest possible delivery; Second, an after service that has the strongest commendation and endorsement of the Ford Motor Company as being a reliable, satisfactory and economical service.
