of cattle and sheep are dying for lack of feed and water.

E. H. Whelan, Mike Horisky, Mike Kirwin, Ed. O'Donnell, Will Froelich, Arthur Ryan and "Sandy" Kirwin went over to Lake Andes, S. D., last Friday on a fishing expedition, returning home Tuesday night. They report a catch of between eighty and ninety bass, of which each claims to have caught the major portion.

The north half of the county was visited with a splendid rain last Sunday evening. The rainfall amounted to an inch in the territory north of this city to two inches in the northeastern corner of the county. The rainfall did not extend any further south than a mile north of this city, but covered the entire north half of the county.

John Davidson, who was a member of Co. F., 109 Engineers, and had been in service in France for about a year, returned home the first of the week, having been discharged from the service. Jack entered the army in September, 1917, and lacked but a few months of being in the service two years. He is mighty glad to get back to God's country.

Floyd Wolfe and Ed. Carson were in from the Dorsey country last Tuesday. The boys say they had a splendid rain in that section of the county last Sunday evening and that crops were looking fine. Wheat would not be up to expectations they said, having been hurt some by rust, but the oat crop was never better and corn was coming along fine.

S. J. Weekes, J. F. O'Donnell and Mr. and Mrs. J. A. Donohoe were in attendance at the annual meeting of Northwest Nebraska bankers, which was held at Long Pine last Tuesday. Those in attendance say they had a very enjoyable time and that they were royally entertained by the citizens of that city. Governor McKelvie was one of the speakers that addressed the convention.

Philip Simmons, son of Mr. and Mrs. Sheridan Simmons of this city, sustained several severe lacerations of the leg last Wednesday morning, when a team with which he was raking hay ran away. The tongue of the

rake broke and ran into the ground and young Simmons and the horses were piled in a heap, he receiving the lacerations from the teeth of the rake. He was brought to town and his injuries attended to by a physician.

Jas. A. Brown arrived home last Friday from a two weeks survey of the Wyoming Oil Fields. Jimmie secured an option on 240 acres which he is going to develop into an Oil Land pool and place among his friends to raise the money for immediate drilling. He got the option through Ex-governor Geologist J. J. Fagan who has spent years in Wyoming, and Jimmie says his holdings are much better than the Operators put into these pools.

Grandma Hershiser was 86 years old last Sunday and her children gave a surprise party in her honor, at the Hershiser farm home west of the city. About sixty neighbors and friends of the family were invited and a very pleasant afternoon was spent. All of her children, but one, was present, which made it a very happy birthday for Mrs. Hershiser. The children present were: Ed., of Park City, Utah; Jake, Eli and Mrs. Storts, of this city, and Mrs. Thomas Shively, of Norfolk.

The city of O'Neill is now the proud owner of an auto fire truck. The truck is a G. M. C. and was purchased from J. J. Thomas. It is a combination chemical, hose and ladder truck. It is fully equipped with fire extinguishers, axes and other necessary fire fighting equipment. The truck carries 1,000 feet of fire hose, and about a couple of hundred feet

of chemical hose. This is the same kind of a truck as they use in the Omaha and Lincoln fire departments. The machine cost \$3,500 and will be kept in the engine house in the southern part of town where a man is on duty all the time. The addition of this truck to the fire fighting equipment of the city will cause the fire insurance companies to revise the insurance rates for the town and make a substantial reduction therein.

Mr. O. Stratton, formerly of Atkinson, was in the city today. Mr. Stratton is advance agent for his son, Lieutenant Edwin L. Stratton, who is giving flying exhibitions throughout the country. Mr. Stratton is going to give exhibitions in South Dakota next month and decided to stop here for one day and give exhibitions. He has set August 1st as the date when he will give the exhibition in O'Neill. Mr. Stratton was in the service of his country for eighteen months and was taught aviation in the training camps in this country. For several months he was an instructor in one of the largest flying fields in the United States. Those who wish to see all the "air stunts" pulled off by the allied flyers in the late war should make it a point to come to O'Neill on August 1st and see them. Lieut. Stratton performs all of the "circus stunts" of the air, so if you want to be thrilled do not fail to come to town on that date.

Edward Howard On League of Nations (Columbus Telegram.)

Every true American is in favor of a plan which will make war among the nations impossible, but no red-blooded American favors any manner of alliance between the American eagle and the British unicorn.

We fought this war to rid the world of autocratic government, and now we shall give the lie to our own declarations if we shall form an alliance between our own free republic and the kings and emperors of Europe and Asia.

A subscriber asks: "What will be

the percentage of the United States' vote on all matters coming before the proposed league of nations?" One in nine. That is to say that the governments of the kings and emperors of Europe and Asia will have nine times the voting power of this great republic on all questions up for solution by the league. How can we get rid of autocracy by building a league of nations which is to be absolutely controlled by autocrats? It is as impossible as perpetual motion.

Henry Losher Remarks.

Editor Frontier: If the Honorable ex-Senator, John A. Robertson and clique can get enough of state and Federal Aid they are going to

construct a viaduct over the Blackbird and Camp creeks; traffic is so heavy and bridges are so hard to keep in place, it is an absolute necessity. I think it better to go through a corn field than to crawl out of a mud hole on both sides of my house.

Yours truly,
HENRY LOSHER.

No Novelty.

"So our engagement is at an end?" said the blond youth.

"It is certainly at an end," replied the fickle brunette.

"I suppose you will return the engagement ring?"

"I certainly will if you call around some night and pick it out."—Yonkers (N. Y.) Statesman.
