The southwest's harvest, characterized as the "sanest" in history, is over. Higher wages were paid than ever before, and was practically no radical agitation. An army numbering at times 125,000 advanced with the harvest from southern Oklahoma through Kansas and into Nebraska, earning an average of 60 cents an Federal officials say about 100 alloged agitators were arrested on vagrancy charges, but so far there has not been a single complaint of sabotage. College stu-dents and returned soldiers predominated among the harvesters.

Lincoln, Neb., Aug. 12.-Corporations will be held responsible for representations made by agents selling their stock, according to a rule made by the bureau of securities of the trade and commerce department of Nebraska, The bureau was formerly known as the blue sky department.

The rule is to the effect that any warranty, guaranty, promise of predic-tion made for the stock and the corporation by the agent selling the stock, will be considered as though made by the applicant, and as this is made a part of all permits to corporations, which must signify their acceptance of all the terms before they can get the right.

Commissioner Donnelly stated that this will be a standard rule and hereafter be made a part of all permits granted. They will contain other standard rules. One will forbid the sale of bonus stock nor can any be issued. All stock must be sold at par. That no greater commission shall be paid for the sale of the stock than herein contained; that surety bonds will be required of all officers who handle any money of the corporation, that each share of stock must show that it has been issud under a permit, giving the number; that no dividends may be paid that are not actually earned; that all stock remaining unsold of the authorized issue at the end of the year cannot be disposed of except under a new permit; and that the sale of stock under the permit cannot be made until the company has accepted the terms and conditions of the order. Any breach of contract will result in its revocation

#### Exhibit All Literature.

The bureau proposes to turn the full effects of the searchlight on speculative enterprises. It will require all of the literature, the permit and the stock itself to show exactly what the proposition is, so nobody will be deceived. No permit to sell stock will be issued to an enterprise where an examination of the proposition shows that there is no reasonable chance for success.

#### LINCOLN LINEMEN GET HANDSOME WAGE BOOST

Lincoln, Neb., Aug. 8 .- Rather than have any trouble with its linemen the city water and light department has increased their pay to 62 cents an hour. A little while ago linemen in the employ of the telephone company found out that the Nebraska Telephone Company was paying \$5.50 a day to their workers, and they threatened to strike if they did not get it. The Nebraska company said it had been compelled to pay that figure because the high wages of the railroad administration attracted its men. The local telephone company then raised its linemen to \$5.50 Whereupon the city linemen said the telephone company linemen were getting more than they, and they demanded an increase. They now get it.

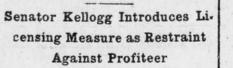

TELEPHONE COMPANY IS GIVEN A RATE BOOST

Lincoln, Neb., Aug. 8 .- The Western Union Telegraph company has been given permission by the state railway commission to continue to collect the Burleson schedule of charges for Nebraska business until the end of the year. By that time it must make a complete showing so that the commission may settle upon just and remunerative rates. The state law limits the charge for 10 word messages within the state to 25 cents, but gives the commission power to change the rate if it is found unremunerative. The com-pany is now charging 30 cents, with 2½ cents for each additional word.

BILL WOULD CURB

### By Associated Press.

Washington, Aug. 12 .- Legislation roposing the licensing of corporations having a capital or assets of \$10,000,000 or more, engaged in interstate com merce and authorizing federal supervision over the issuance of stock and se curities was introduced today by Senator Kellogg, republican, Minnesota. Licenses would be issued by the federal trade commission which would have supervisory jurisdiction over the corporations and in case of illegal combinations in restraint of trade, it would have power to revoke the licenses President Wilson, in his cost of living speech, recommended a licensing measure.

#### To Consult Leaders.

Industrial conferences, in which Pres ident Wilson will meet representatives of capital and labor for open discussion of economic problems, will be held at the White House before the high cost of living problem is disposed of, according to plans being made here today The men whom the president will meet will form some sort of unofficial cabinet. The object sought is a free exchange of ideas to clarify the atmosphere and silminate misunderstandings between the workers and employers; and the development of con structive suggestions for betterment of relations between labor and capital.

President Wilson's attitude toward the industrial conference's idea was set forth in his last speech to congress wherein he said he was willing to meet any groups of his fellow citizens who "know what they're talking about," to take steps for improving capital-labor relations.

#### Poindexter's Plan.

Senator Poindexter, Washington, is he author of a joint resolution asking the president to call representatives of capital and labor for a face-to-face talk. This measure is pending in the Senate labor committee, and Poindexter said today he would seek early ac tion on it.

Poindexter, in the original resolution, named several prominent labor and industrial chieftains who should be called in, but this aroused protest, especially from Basil Manley, of the war labor board, and others, who said that a broader committee would have to be selected. Poindexter explained today that his list was only a suggestion to the president and that others should be called. He favors allowing each group to choose its own spokes man.

Washington, Aug. 12 .- President Wilson wrote to Chairman Lodge, of the Senate foreign relations committee, today, that it would not be possible to comply with the committee's request for the documents used by the American peace commissioners at Paris in negotiating the peace treaty.

"The various data bearing upon or used in connection with the treaty of peace with Germany," said the president, "are so miscellaneous and enormous in mass that it would be impossible for me to supply them without bringing from Paris the whole file of papers of the commission itself, and would include many memoranda which it was agreed, on grounds of public policy, it would be unwise to make use of outside the conference."

The president sent Chairman Lodge the informal draft presented by the American peace commissioners at Paris and also the formal report of the committee of the League of Nations.

#### Refuses Bliss Letter.

The president to day refused to send the Senate a copy of General Eliss' letter concerning the Shantung settlement, on the ground that it contained confidential refenrences to other governments.

Wilson also informed the Senate he has no knowledge of any negotiations with regard to an alliance between Japan and Germany.

He stated he knows nothing of an alleged attempt by the Japanese delegation at Paris to intimidate Chinese envoys.

### STATE INSTITUTION IS

WORST FIRE TRAP Lincoln, Neb., Aug. 12 .- State Fire Warden Ed Beach, whose duty it is to see that all buildings are equipped with fire escapes, has discovered one of the worst offenders.

He has served notice on the board of control that it must provide fire es-capes for the Girls' Industrial home at Geneva. The building is a four-story affair, with the girls' sleeping quarters on the third floor, and employes on the fourth. The upstairs is accessible by a single stairway. Mr. Beach says that the building, while of brick, is constructed of all wood partitions, and that not a single fire extinguisher is kept on the grounds. There are some 90

girls and 20 teachers and employes at the institution. Beach also notified the state normal

board to place fire escapes on the Kearney normal scohol, which is attended by about 800 students. The board has made arrangements for their construction.

#### CONVICTED MURDERER IN EFFORT FOR FREEDOM

Lincoln, Neb., Aug. 11 .- A new way of getting a convicted murderer out of prison is being attempted by attorneys for Arlowe D. Stutter. The man has been three times tried in Lancaster county on the charge of killing his wife. His story is that she committed suicide after a quarrel over his attentions to another woman. The first time Stutter drew a life sentence, but the supreme court awarded him a new trial because of errors of the trial court in excluding evidence. On the second trial the jury disagreed. The third time he was convicted of a lesser

offense, and sentenced to 10 years in prison. Before the case was submitted in the

second trial his attorney asked the court to instruct the jury to return a verdict of not guilty on the ground of insufficiency of evidence. The court overruled him, and the jury disagreed. Now comes the attorney and asks the supreme court for a writ of mandamus compelling the trial judge to submit to the higher court a transcript of the evidence in the second trial in order that that tribunal may pass upon whether the trial judge did not err in refusing to instruct the jury to free Stutter. The trial judge has refused to do this because there was no final ruling in the case from which an appeal

## DEMPSEY COLLECTS FOR WINNING CHAMPIONSHIP

Chicago, Aug. 7 .- It's great to be a

heavyweight champion! Jack Dempsey signed a theatrical

contract yesterday calling for 15 weeks' work at \$15,000 a week. He is to have his own comapny and show and it will play all of the big cities, opening either here or in St. Louis.

Larney Lichenstein, local fistic impressario, put it over for the champion and is one of the partners of the men behind the project. Linick and Jacoby, Chicago theaterical men, are furnishing the backing.

Dempsey got a taste of the dramatic or rather the theaterical, at the signing of the papers. It took place in the Morrison hotel in the presence of boxing critics, a movie camera and the usual frills that go with such a scene The entire sum for Dempsey's salary is to be posted with a Chicago bank which will dole him out his weekly golden check. The check will begin arriving August 25, as the champion will start his tour a week earlier than that date

The wise Jack Kearns did not overlook a bet in closing the deal. A clause was inserted that the length of the contract could be doubled at the wish of the champion. That made it really a \$450,000 document.

Manager Kearns has planned to have a minor operation performed on Dempsey's nose while here, but has delayed it until the champion reaches Philadelphia. A surgeon friend of Jack's lives there and will take the case.

This is the "extra legal" means of reaching profiteering which Mr. Palmer recently indicated was under consideration. He has frankly admitted from the start that there was no means to prosecute directly a man guilty of extortion in prices. Retailers who are gouging the ultimate consumer will have to be disciplined by public sentiment, which officials have no doubt is sufficiently alert to the situation now to act vigorously in clear cut cases.

Palmer's Telegram.

The attorney general's telegram follows:

"In order to secure accurate infor mation relative to charges of profiteer ing by dealers in necessary commodi ties it is the desire of the government to ascertain whether or not such deal ers are making more than a fair margin of profit. Will you assist in your state by requesting those persons who have been county food administrators under your jurisdiction to appoint fair price committees, including one retailer of groceries, one of dry goods, representative of the producers, of organized labor, of housewives, two or three representatives of the public generally, also a wholesaler when practicable? Please request them to pursue approximately the same inquiry with reference to food products and the ordinary necessities in dry goods and clothing that were pursued by your fair price committees under the food administration act. This committee will be an extra legal body without power to summon witnesses or fix prices. It is requested, however, to ascertain the cost prices, determine a fair margin of profit and if retail prices are in excess of what the committee regards a fair price to have published its list of fair prices, reporting

to you for review. You are requested to report to the department of justice a general review of the situation in your state.

"There is a pressing necessity for the restoration of normal conditions and it is believed that through the same organization which you had as federal food administrator you and your county administrators, together with their appointees, can render a valuable service to the country at this time, and your co-operation and theirs without compensation, will be greatly appreciated. The widest publicity of this movement and the results obtained by county committees, it is believed, will be an important factor in its success. Washington, Aug. 12 .- Existence of the secret treaty between Japan and Great Britain regarding the Shantung, China, peninsula was "concealed" from Secretary Lansing by Viscount Ishii, Japanese ambassador to the United States, Mr. Lansing testified today before the Senate foreign relations committee.

On September 6, 1917, Mr. Lansing said, during the negotiations leading up to the Lansing-Ishii agreement, Viscount Ishii told him that he had assured Sir Edward Grey the British foreign minister, that Japan would return Kiao-Chow to China, "but would have to retain the German Pacific islands because no Japanese government could stand without retaining them.

"Did Viscount Ishii make any further statement regarding the disposition of German claims in China?" asked Senator Borah, republican, Idaho,

"No," replied Secretary Lansing. "But, you know that at that time Japan had an understanding with Great Britain for Japanese control of Kiao-Chow and that Ishii concealed that from the secretary of the United States?'
