

**Educational Notes.**

August 22d, the Re-districting Committee of Holt County had their first meeting for the purpose of organization and to prepare questions to be discussed at the State Conference held in Lincoln September 4, 5 and 6.

The Re-districting Committee of Holt County met with the Antelope County Committee at Neligh, October 1, to confer with them in regard to a district (90 1/2), which extends across the county line. Each county agreed to retain its own territory.

There will be an examination for teachers November 15th, one day only. The Life Branches and all the county certificate subjects will be given. Programs of the examination will be sent out upon request.

The new law which went into effect recently, makes it compulsory for each school in the county to prepare an exhibit of their school work done during the school year and sent to the county superintendent not later than May 1st. By calling at the County Superintendent's office any teacher from a rural school may secure a specimen book in which to prepare the work for the exhibit.

Senate File No. 93 Laws 1919, makes it the duty of every teacher engaged in teaching in the schools of the state, separately and carefully to test and examine every child under his jurisdiction to ascertain if such child is suffering from defective sight or hearing or diseased teeth, or breaths through his mouth. A fine in any sum not to exceed one hundred dollars shall be imposed on any person violating the provisions of this act. In compliance with the aforesaid law material and instructions for making the required tests have been mailed out from this office to each teacher in the county.

**Estrays.**

Taken up on my place, twenty miles northwest of O'Neill, on or about May 15, 1919, the following stock: One red heifer, about 3 years old, branded FS on right hip, top of right ear clipped, V cut in top of left ear; 1 roan heifer, about 3 years old, branded FS on right hip; 1 red and white heifer, about 3 years old, branded FS on right hip. Owner can have same by proving property and paying expenses.  
20-5 CHARLES VEIQUIST, Ray, Nebraska.

**Put Restriction On Wheat.**

Omaha, Neb., Oct. 22.—Effective October 25, and until further notice, the blanket permit system on grain shipments from country stations to this market will be cancelled.

"Shipments of all grains to Omaha, South Omaha and Council Bluffs, will require an individual permit from the country station or primary market," says Henry T. Clarke, attorney and traffic manager for the Omaha Grain Exchange, in a letter to members.

"At country stations applications for permit will be made by shipper to the local railroad agent, who in turn will approve same and forward it

direct to the grain control committee. Permit will be mailed to the agent at point of shipment. Agent will notify shipper. The permit will expire at the expiration of five days from the first 7 a. m. after the agent has notified the shipper. Application to be made by shipper on the form used last year. We are advised that individual permit system will be applied at all terminal markets."

**Framed Picture.**

Hewitt—You're the very picture of health.

Greene—Yes, and I'm in a contented frame of mind.

**Ford**  
THE UNIVERSAL CAR

The Ford Model T one-ton truck is proving a splendid time and money-saver on the farm. It is very flexible in control, strong and dependable in service. It has really become one of

the farmers' necessities. One Ford truck is equal to half a dozen teams and it won't "eat its head off" when not working. The very low price makes it popular with shrewd farmers who analyze conditions on the farm. Let's talk it over, Mr. Farmer. Price, without body, \$550 f. o. b. Detroit. We have them in our garage ready to deliver to you. Come in and drive one home.

O'Neill, Nebr.

**Compulsion.**

Biggins—It is sometimes impos-

sible to rule with kindness.

Miggins—That's right. Even a

postage stamp has to be licked before it will do its duty.

**Built for a Purpose**

To serve long, hard miles of real usefulness, Fisk Tires are bigger and stronger and sturdy — just to serve you more faithfully than you've been served. Handsome, too, with tough, black non-skid treads and light side-walls.

They are built to an ideal!

"To be the Best Concern in the World to Work for and the Squarest Concern in Existence to do Business with."

**Chesterfield**  
CIGARETTES  
—of Turkish and Domestic tobaccos—blended

They do more than  
just taste good

CHESTERFIELDS are giving smokers an entirely new kind of cigarette enjoyment.

Not only do they please the taste, but they go straight to your "smoke-spot," they let you know you're smoking—they satisfy.

It's all in the blend—the manufacturer's private formula and it cannot be copied. That's why it's Chesterfields—and Chesterfields only—if you want "satisfy."

Moisture-proof package keeps them firm and fresh, whatever the weather.

Liggett & Myers Tobacco Co.

*They Satisfy*

**What other phonograph dares this test?**

**D**ID you ask some one about the Edison Tone-Test recital given Friday evening, September 26th, in K. C. Hall? The startled audience heard Mabelle Wagner Shank's living voice flood the packed house. It then heard the New Edison\* mach that voice, even unto its finest variation of shading and feeling. It heard The Sokoloff Trio repeat the experiment with their instrumental selections,—and again the New Edison matched every quality of harmonized violin, cello and piano. Any one who was present will tell you.

**The art of the living artist and its RE-CREATION by the New Edison can not be told apart.**

It is no idle phrase that you can enjoy Case, Middleton, Hempel, Matzenauer, Spalding—in your own home. The New Edison brings all that the great artist can bring, except his physical presence. It is the phonographic triumph of the age.

**The NEW EDISON**  
"The Phonograph With a Soul"

Come in and hear this wonder for yourself—the Three Million Dollar Phonograph\* that RE-CREATES the very soul of music.
