Unexplored Libya.

Italian Libya now comprises the two provinces of Tripolitana and Cirenaica and lies along the northern coast of Africa, between Tunis (French) on the west and Egypt on the east, in longitude from about 9 to 23 degrees east. The extremely northerly part of Libya is at about the parallel of latitude 33 degrees north; the southernmost point is unknown, as the territory runs south into the uncharted Sahara indefinitely.

Catarrhal Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be removed and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of Deafness are caused by Catarrh which is an inflamed condition of the Mucous Surfaces.

ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by HALL'S CATARRH MEDICINE.

Acid Stomach Makes the Body Sour

Nine Out of Ten People
Suffer From It

It sends its harmful acids and gases all over the body, instead of health and strength. Day and night this ceaseless damage goes on. No matter how strong, its victim cannot long withstand the health-destroying effects of an acid stomach.

Good news for millions of sufferers. Chemists have found a sure remedy—one that takes the acid up and carries it out of the body; of course, when the cause is removed, the sufferer gets well.

Bloating, indigestion, sour, acid, gassy stomach miseries all removed. This is proven by over half a million ailing folks who have taken EATONIC with wonderful benefits. It can be obtained from any druggist, who will cheerfully refund its trifling cost if not entirely satisfactory. Everyone should enjoy its benefits. Frequently the first tablet gives relief.

EXPECT LODGE TO BE CHAIRMAN

Appointment of Bay State
Solon Is Predicted on Eve
of G. O. P. Committee
Meeting.

Chicago, May 10.—The appointment of Senator Henry Cabot Lodge as temporary chairman of the coming republican national convention was declared as close to certainty as anticipation of things political can be by party leaders here tonight for the meeting of the national committee tomorrow.

"I understand it is to be Lodge," said one committeeman, who declined use of his name. "If he is not named it will be a concession to the Johnson forces and in such a case Senator Lodge will most likely be given the permanent chairmanship. Both positions lie between Senator Lodge and Albert J. Beveridge of Indiana."

All republican leaders who would talk mentioned the possibility of Chairman Will H. Hays being named for the temporary chairmanship, but none seemed to believe that Hays would accept the job.

Aside from this question, the matter of greatest moment to be tackled tomorrow is the battle facing the committee on arrangements in closing on all the remaining details planned to make the convention move on ball-bearing wheels.

Nominating Cost Goes Up.
The cost of nominating a presidential candidate has gone up with everything else.

In 1916 it cost \$100,000 to properly present Charles E. Hughes as the duly accredited choice of the republican party. In 1912 the cost was \$70,000.

But with Mrs. John Glover South and Miss Mary Garrett Hay as members of the arrangements committee it is hoped by the men members that some way of economizing on decorations may be found.

Other women who will sit with the committee tomorrow as proxies, when chairmanship is decided are Miss Maude Wetmore, Rhode Island, and Mrs. John T. Pratt, New York.

Miss Hay Speaks For Women.
"To date we know of 80 women who will attend the convention, either as delegates or alternates," said Miss Hay. "Some of the states have not yet appointed their delegates. The part we will play at the convention is entirely up to the rules committee and we are willing to abide by that committee's decision."

"As long as 35 states have not ratified the Susan B. Anthony amendment, it is a question whether women can be legally elected delegates to the convention from states where women have not enfranchised. There are three republican states left, Delaware, Connecticut, and Vermont, and we have all hopes."

WILL LOUISIANA BE THE 36TH?

Southern State Legislature
Has Chance to Beat Delaware
Ratify Suffrage
Amendment.

Washington, May 10.—Louisiana now has a chance to step ahead of Delaware in being the final state to ratify suffrage.

The Louisiana legislature meets tomorrow in regular session in Baton Rouge. The Delaware legislature, with ratification through the senate, has recessed until May 17.

Louisiana's legislature is solidly democratic and national woman's party leaders here are pointing out that if Louisiana ratifies ahead of the republican legislature of Delaware it will place the democrats in favorable position with the new women voters.

Sentiment in the Louisiana legislature is well divided, but woman's party leaders think the support of Gov. John M. Parker and Mayor Behrman, of New Orleans, leaders of the two opposing factions of the state, may decide the issue. Preliminary returns from a poll of the legislators shows a slight lead for suffrage.

The feeling in favor of state's rights in southern states is a strong factor against ratification in Louisiana.

In case Louisiana and Delaware refuse, the next effort will be concentrated on North Carolina when the legislature meets in July and on Connecticut and Vermont, where the governors have refused to call special sessions of the legislatures for suffrage.

REVOLUTIONISTS SEIZE CARRANZA; OCCUPY CAPITAL

Obregon, Rebel Troops' Leader,
in Mexico City Today—
Says Carranza's Life Shall
Be Spared.

Mexico City, May 10.—The report that Carranza, fleeing from the capital, was captured in Apisaco, was officially confirmed tonight.

General Obregon is heading the revolutionary troops and will enter the capital tomorrow. He has guaranteed Carranza's life shall be spared.

Word Sent to Washington.

Washington, May 10.—Mexico City has been occupied by revolutionary forces under General Pablo Gonzales, according to official dispatches from the American embassy in the capital to the state department.

President Carranza has fled. The occupation was peaceful. General Obregon was reported on his way to Mexico City.

No Fighting Indicated.
The dispatches were under date of May 8 and 7, but nothing had come up to a late hour tonight indicating there had been any fighting.

The embassy reported that the rebel troops entering the city constituted the advance guard of General Gonzales, under direct command of General Jacinto Trevino.

Trevino issued a statement guaranteeing safety to peaceful citizens and good order. He admonished commerce, banks and other institutions to continue normal operations. He threatened to punish severely profiteers, in necessities. A new chief of police and a new military commander were named for the city.

General Obregon, it was said, was on his way to the city from the west, while Gonzales entered from the south. Word was sent by courier from Obregon, assuring there would be no disorder.

Carranza Escorted by Adherents.

An official telegram from Vera Cruz, telling of the occupation of the capital, said Carranza left there escorted by a number of adherents. The sender of this was not made known.

The American consul in Vera Cruz reported order was being maintained in that locality.

General Obregon's wife, who is in Nogales, Ariz., received a wireless from a member of Obregon's command, which stated the general was receiving congratulations and that a large Mexican flag was floating over his headquarters and home.

The message to Senora Obregon further said streets of the capital were thronged and that a ball was being arranged in the public plaza.

Other dispatches said Tampico, center of the oil industry, was in revolutionary hands, and that the federal governor, Orozco, has taken refuge on a federal gunboat.

Monclav, state of Coahuila, Nuevo Laredo and Agua Calientes are said to have been captured.

Officials hope for better relations between the United States and Mexico under a new government.

Although given moral support of inestimable value through the recognition by this government, Carranza had been growing increasingly hostile. Many of his acts during the war sorely tried the patience of the army in both parties between now and their respective national conventions.

In the republican field approximately 800 of the 984 delegates to the convention have been elected or selected, with the unquested figures giving 115 instructed for Wood, 96 for Senator Johnson, 73 for Governor Lowden, 14 for Senator Poin-dexter, 39 for Senator Harding, 63 contested and 384 uninstructed.

The democratic situation is similarly divided, with Governor Cox of Ohio leading the instructed field, but with McAdoo the strongest potentially.

Convention Nearly Under Way.

In both parties the convention nearly is under way, that in the republican party being pressed to selecting a nominee sufficiently progressive to satisfy the Johnson wings, and that in the democratic party having as its objective the selection of a nominee that will appeal to the conservative vote of the country, as well as the so called liberal vote it has commanded recently.

The big aim of the old regulars in the republican party is to prevent the nomination either of Wood or Johnson. They have advanced as their leading dark horse for this purpose Senator Knox of Pennsylvania. A corresponding element in the democratic party aims to prevent the nomination of President Wilson or W. G. McAdoo, and this element has suddenly developed a boom for Vice President Marshall.

Marshall has openly espoused the purpose of his democratic followers to get the party back on a more constitutional, and his utterances were resented.

Obregon is considered friendly to America.
