Discharged American soldiers, seeking employment, can give Germany a reference.

Yes, the Germans know what they can do. Our up-to-date methods are not to be sneezed at.

**ST. GEORGE KILLS THE DRAGON DIRT.**

The mythical Dragon of ye olden times has become a very realistic and lively killer of today: the deadly microbe.

St. George followed suit and changed his mount:

"Sanitation" is his hobby horse.

**WATER & BRUSH STEAM & SOAP** are his weapons.

St. George also begs to announce that he has migrated from Old England and that his headquarters are now

**I Am Proud of This Enamel Finish**

It is real Lincoln Enamel, almost like porcelain, and is always clean and sweet. It is such a help in my house work that I have had almost everything enameled—Cupboard—Kitchen-Cabinet—Shelves. It takes so little work to keep them clean.

Of course I use the

**Lincoln Enamels**

I always keep the little surfaces about the house refinished regularly with Lincoln Paints and Finishes. Use and wear makes them shabby. A few brushfuls of paint or finish saves the surface and keeps them like new.

You can get color samples and find out what to use and how it should be applied by calling on the Lincoln Dealer right here in our own town.

**Straight talk on Cream Separators by WARNER & SONS**

O'Neill, Nebr.

**NO MATTER** what anyone may claim, there is *only one speed* at which a cream separator should be turned in order to get all the cream and cream of uniform thickness.

That's the speed plainly indicated on the crank of every separator, of *whatever* make.

Full speed is the only assurance of full capacity and full efficiency.

Every De Laval now has a Bell Speed-Indicator. The bell warns the operator if the separator is turned too slowly. There can be no mistake about it.

The Bell Speed-Indicator adds nothing to the price but much to the value of the De Laval Cream Separator.

Come in, examine the machine and see how the Bell Speed-Indicator works.

Sooner or later you will buy a
