A Way Out.
 Premier Clemenceau gave the red ribbon of the Legion of Honor to an old acquaintance of his who had done important work for France in the war. The recipient of the decoration was delighted and at the same time embarrassed because the large band, which he had worn for years, hid the honor badge from view.
 "Oh, that's easily remedied," Clemenceau said to him when told of the dilemma: "Just cut a window about shoulder high in your whiskers and the ribbon will show through it nicely."

Lift off Corns!
 Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callous. Instantly it stops hurting, then shortly you lift that bothersome corn or callous right off, root and all, without one bit of pain or soreness. Truly! No humbug!—Adv.

Blessed are the meek, for they get in their work just the same.

VILLA THREATENS TO DESTROY U. S. MINING PROPERTY

Issues Warning When Americans Refuse to Pay Him \$50,000—Carranza's Daughters Coming to U. S.

Washington, May 29.—Francisco Villa threatened to destroy the property of the Alvarado mining company in Parral, Chihuahua an American concern if any attempt is made to operate the mine, according to advices to the state department today from the American consul in Chihuahua City.

The Mexican rebel chieftain made his threat upon refusal by the mining company to pay \$50,000 to Villa.

The present military authorities of Chihuahua have been requested by the American consulate to give the necessary protection to the mining company.

The counsel was informed that there are about 4,000 troops in the vicinity of Parral.

Ignacio Enriquez, revolutionary military governor of Chihuahua was reported to have conferred with Villa on Tuesday.

MAY VISIT EUROPE, TOO
 Mexico City, May 29.—Both daughters of the late President Carranza, Miss Julia Carranza and Mrs. Virginia Aguilar, the wife of General Aguilar are preparing for their return to the United States as soon as the verdict on their father's death is reached and their personal affairs can be adjusted.

The young women are familiar with the United States having been educated in a convent in St. Louis.

They probably extend their itinerary to Europe.

Both of the mourning daughters have signified that they will not leave Mexico until the senate commission makes its final report on the circumstances of the president's death, and they are determined to disprove, if possible, the suicide theory.

In refutation of this theory, they have called attention to the fact that Carranza's uniform showed where two bullets had struck close to his heart at such an angle that it would have been impossible for him to have shot himself except with an automatic. Such a weapon they say he did not possess.

General Felix Diaz has agreed to surrender his entire forces to General Guadalupe Sanchez, revolutionary commander, according to reports received today.

General Diaz arrived at Misantla in the state of Vera Cruz and in transmitting the proposal to give himself and army up, asked for guarantees of safe conduct to the city of Vera Cruz, where he intends to take a steamer for some foreign port, the report said.

GONZALES TO RETIRE.
 Vera Cruz, May 29 (United Press). Gonzales today confirmed the reports that he was about to retire to private life at Monterey, making public a statement to this effect.

General Gonzales' withdrawal from public life follows a period of three weeks in which he was in virtual control of the administration of national affairs subsequent to the evacuation of Mexico City by President Carranza.

OBREGON SEEKS PEACE.
 Mexico City, May 29.—Gen. Pablo varo Obregon, chief of the present regime in Mexico, in a message to the Los Angeles city council today declared it would be "one of the happiest days in his life" when the United States and Mexico are able to withdraw troops now stationed on the boundary "because of mutual lack of confidence."

The message was in reply to a telegram from the municipal officials of Los Angeles, wishing success to the new government in Mexico.

EMBARGO ON SUGAR IS DRAWING NEARER
 Mexico City, May 29.—General Agriculture committee today ordered a favorable report on the McNary bill providing for an embargo on sugar exports. The committee believed this would help reduce the retail price of sugar.

Those supporting the bill were Senators McNary, of Oregon; Capper, of Kansas; Kenyon, of Iowa, and Norris, of Nebraska, republicans, and Harrison, of Mississippi, and Kendrick, of Wyoming, democrats. Senators Smith, of Georgia; Smith of South Carolina and Ransdell, of Louisiana, democrats, opposed it.

Before taking final action the committee amended the measure so that it would not except sugar sent to the United States by foreign countries or their nationals to be refined. Early Senate consideration of the bill is planned by Senator McNary.

Washington, May 29.—The Senate papers calling for removal of Sherry Scott and John Rogers to Des Moines from Omaha on charges of robbery were held up in the office of Governor McKelvie here pending the arrival of papers from Des Moines, attaches of the governor's office said.

Annette Has Gone, But the City of Butte Will Not Forget Her

Butte, Mont., May 29.—Butte did its best today in memory of Annette Clotch Markham.

Eleven months ago a gay little French bride, she was buried from the county poorhouse, where for weeks she had fought a losing battle against ill health and adversity.

When Ralph Markham, former private in the quartermaster corps, took his French bride to Butte and found parental objections, his love cooled.

He deserted her and fled. Alone and among strangers she fell ill, and was taken to the county poorhouse.

When business men learned of it today they hurried a committee to see her.

She had just died.

There was a funeral Butte will not forget. Business was practically suspended as hundreds of war veterans and Red Cross nurses marched behind a flower covered casket.

She was a war nurse in France and wore the Croix de Guerre.

SON WITH AX KILLS PARENTS

Glaas Loos and His Wife Are Victims of Insane Boy Near Parker S. D.

Parker, S. D., May 29.—A double murder occurred at 8 o'clock this morning on the Claas Loos farm, 10 miles northwest of here, when Evert Loos, 32, hacked and beat his aged father and mother over their heads with an ax.

Young Loos is in the county jail here. He was confined to the state asylum for insane at Yankton two years ago, but had been discharged as cured. It is believed his act this morning was committed in a period of insanity.

Wouldn't Plant Corn.
 News of the tragedy came to Sheriff Karp from neighbors of the Loos family. It appears the elder Loos wanted his son to resume corn planting this morning, that the son refused and words followed. Then the son grabbed the ax and struck the father over the head. The wife and mother evidently witnessed the altercation and went to the assistance of her husband, when the son turned on her and beat and cut her about the head.

Mr. Loos was dead when the officers arrived at the farm, but Mrs. Loos still lived though there was no hope for her recovery. Both were horribly mutilated. The son made no effort to escape.

Claims Self Defense.
 Young Loos make no denial of having killed his parents. He tells of having words with his father about the corn planting and says the father was about to assault him with a board when he struck him with the ax. Those who have investigated the affair believe the father may have had a board in his hand and that he tried to defend himself with it when his son wielded the ax.

Mr. and Mrs. Klaas are pioneer farmers, who came from Holland. The son is single.

SALESMAN HELD FOR SHOOTING MAN

Is Said to Have Wounded Garage Employee Because He Could Get No Gasoline.

Aberdeen, S. D., May 29.—"I'll kill you if I can't get gas," A. B. Krouth, a traveling salesman, with headquarters in Sioux Falls, is said to have told Perry Allering, 20, for the shooting of whom he was arrested today. Krouth is said to have shot Allering in the chest and right eye after Allering is said to have told him that the garage in which he was working in Selby, 60 miles west of Aberdeen, had no gasoline.

Krouth is said to have called at two other places for gasoline and to have threatened to shoot when clerks told him they had no gasoline.

It is also said he was trying to reload his revolver when he was arrested by Deputy Sheriff W. S. Schwartz.

Krouth was placed in the county jail.

Allering was taken to Aberdeen for medical attention.

ALLEN DEBATES STRIKE QUESTION WITH GOMPERS

Kansas Defends Industrial Court Settlement Plan and Opponent Says Labor Has Right to Strike.

BY ROBERT J. BENDER.
 United News Staff Correspondent.
 New York, May 29.—The public, represented by Governor Henry J. Allen, of Kansas, and the worker exemplified by Samuel Gompers, president of the American Federation of Labor, debated in Carnegie hall tonight one of the foremost questions before the American people today—the right of labor in essential industries to strike if the common welfare is threatened.

It was a no-decision affair, politics was to play no part in it. Judge Alton B. Parker, one time presidential candidate, presided, and his opening words testified to his neutrality.

Parker's Opening Words.
 "Two great leaders of men," he said, "are to speak through you to more than 100,000,000 people. What they are to say will command at the outset wider consideration by the press and people than did the famous Lincoln-Douglas debate. Each of them is a man of high character—of demonstrated patriotism, and is endowed with moral courage that enables him to face all opposition in a struggle for what he believes to be right and just."

But Allen sounded what was regarded as many as the keynote of his potential candidacy for the republican presidential nomination, when he said:

"Mr. Gompers, within the last three days, has called upon all men of organized labor to assemble themselves around the political effort to see that no man goes to congress who is not in favor of his program."

"Do we want that? Do we want a shackled, bridled congress? Let me tell you, the political party in the forthcoming campaign that has not the constructive courage to stand out and pledge to the public protection against the wrong and terror of industrial warfare will travel down the pathway of cowardice to defeat."

Hall Filled to Capacity.
 Carnegie hall was filled to capacity when the debaters entered amidst applause.

Gompers, wearing a dark-away coat, gray trousers and a dark green vest, preceded Allen, who was dressed in a dark green business suit.

Each being short of stature, and inclined to stockiness, and with a marked tendency to baldness, they might have been taken for father and son, for Gompers is 70 and Allen but 54.

Behind them on the platform mas a mixture of workers and others of national repute.

Included in the stables were: Dr. Nicholas Murray Butler, Herbert Hoover, James W. Gerard, William Fellows Morgan, H. P. Davidson, George Foster Peabody, George W. Wickersham, Miss Mary Garrett Hayes, Warren F. Stone, F. E. King, Mathew Wolf, Frank Morrison, Edward Hannah and Mrs. Sarah A. Conboy.

Under the rules of the debate each speaker had 45 minutes for his main argument.

Woman Aids Gompers.
 Gompers spoke first, and was aided by Mrs. Conboy, who "spelled" him for some minutes on routine matters which did not necessitate the vigorous expulsion of Gompers' personality.

Gompers was the orator of the old school, voluminous both in sound and gesture.

Allen's was the oratory of the new school, quiet and conversational.

"The difference between a slave and a free man is that the slave must work when his master commands while a free man may dispose of himself and his labor according to his wishes," said Gompers.

"I come," said Allen, in opening his reply, "not as a representative of capital or as a representative of labor, but as a representative of us all—the public."

"I speak from the viewpoint of those who seek an answer to the problem of today."

"A free man?" he asked. "Personal liberty?" he reiterated with eloquent sarcasm. "It was my experience in the recent coal strike in Kansas that a majority of the men wanted to work—but their union would not let them."

Duffy Worked Anyhow.
 "One man—Duffy—worked anyhow. He was suspended from the union for 99 years. The union leaders threatened his grocer if he continued to sell him goods. They threatened his landlord if he let Duffy maintain his home. That is the 'personal liberty' the distinguished head of the American Federation of Labor has been so eloquently speaking of tonight."

"We have not taken away from any man his divine right to quit work but we have taken from Mr. Gompers his divine right to order a man to quit work."

HAD CHRONIC BRONCHITIS FOR TWENTY-SIX YEARS NOW WELL AND HAPPY THIS IS WORTH READING

The experience of Mr. E. J. Toupaik, 1438 Rose street, LaCrosse, Wisconsin, is chiefly remarkable on account of the length of time he was afflicted.

He writes: "I have been suffering with chronic bronchitis for twenty-six years and every winter I would catch cold and become so hoarse I could not speak for six or eight weeks. I could get only temporary relief."

"This winter I was taken with Grip and was in awful shape. A fellow workman advised me to take PE-RU-NA. By the time I had used three-fourths of a bottle, the hoarseness was gone, also that tired feeling. I am on my second bottle. Hereafter PE-RU-NA will be constantly in my house. It is the best medicine ever put up for the purpose."

For any disease due to catarrh or catarrhal conditions, PE-RU-NA is equally dependable. Coughs, colds, catarrh of the head, stomach trouble, constipation, rheumatism, pains in the back, side and loins, bloating, belching gas, indigestion, catarrh of the large and small intestines, are some of the troubles for which PE-RU-NA is especially recommended.

PE-RU-NA can be purchased anywhere in either tablet or liquid form.

Why Exclusive Agencies Cost More to Operate

A roofing dealer who has an exclusive agency has no competition on his private brand. As a result he can charge a large profit if you'll buy.

In addition, he is usually a long distance from his little manufacturer and must invest more money to keep his stock up.

Now look at the Certain-teed way. Any responsible dealer can sell Certain-teed. Each dealer carries a small representative stock. If he needs more he orders from a nearby Certain-teed warehouse or jobber. It usually takes only a day or two to get it.

The result is small investment, small storage cost, light insurance, and no slow-moving articles.

Certain-teed Saves You Money
 That's why Certain-teed dealers operate at less expense. And it's also why Certain-teed saves you money because they can afford to sell at close margins and there are enough of them to insure you a fair deal.

Now let's see what you get when you buy Certain-teed Roofing.

It's roofing that has never been known to wear out on the roof. It is guaranteed for 5, 10 or 15 years, according to weight. It is weather-proof, fire-retarding and spark-proof.

There is nothing else you want from roofing. And since you get this highest quality roofing at a saving, it's the logical buy.

Any responsible dealer can get Certain-teed for you quickly from a nearby Certain-teed warehouse or jobber. He gets it when he wants it and he gets what he wants. He can afford to sell you at a fair price.

Beware of the dealer who tells you he has Certain-teed, but tries to sell you a private brand. He probably wants a bigger profit.
