

**EXTOL SOLDIER BONUS**

AS PASSED BY HOUSE

Designed to Give Youth Who Served In War a Fresh Start In Economic Struggle.

Washington, June 15.—By an overwhelming three to one vote the Republican House has registered its approval of a cash bonus to the soldiers of the war against Germany as part compensation for the woes they endured for the country during the struggle.

Representative Rescoe McCulloch, of Ohio, thus summed up the case for the soldiers:

"The American soldier not only made the supreme sacrifice, left his business, and the opportunities for personal advancement he had in prospect and that the emergency offered, but he paid his own way largely. The soldier knows what few people realize, and that is that after he had taken care of the demands that were made upon him he had very little left out of the \$30 a month pay. The allotments for his dependents were taken out of his pay, his war-risk insurance premiums were taken out of his pay, so that at the end of the month the average soldier did not have much left.

"The absolute necessity for reducing appropriations and strict national economy is apparent to everybody, but we should not begin on the American soldier, because we have been very lavish and very liberal in making appropriations for the purpose of taking care of other interests. We appropriated millions of dollars to validate incomplete contracts. We appropriated millions of dollars for the relief of peoples in foreign countries. There seemed to be no limit to the demands and no hesitancy in responding to the demands for lavish appropriations. Everybody seemed to be protected in a martial way who had anything to do with the war except the American soldier, and I am in favor of adjusting his compensation by providing a bonus, and I think it should be done without quibbling and without delay. We spent billions of dollars uselessly for which the Government received no adequate return. The floodgates were thrown down and a golden stream was allowed to flow away. Members of Congress were called upon to support bills making these lavish appropriations under the lash of the Executive whip and in the name of patriotism. Now, we have a chance to do some-

thing for the real patriots who served and suffered and bore the brunt of the war.

"The provisions of this bill may help to give thousands of soldiers a start. Some may not need it or want it, but all are entitled to it, and I trust that the bill will pass and become a law without delay."

Representative Frear, of Wisconsin, one of the members of the Ways and Means Committee, which reported the bill said:

"We have worked upon these bills as a committee faithfully. We have reported this bill and have been waiting to be heard for two or three weeks. We secured what we believe is the best bill that we can get out of the committee. I would like to have had it different, but it is far better than if the bill had been burdened with a sales tax, as was first proposed. It provides what? First, a method of taxation covering a period of three years, which reaches expensive cigars, with an increase of 15 per cent on certain tobacco. It exacts \$5 on every \$1,000 of all real estate transfers. It reaches incomes of over \$26,000, and adds to the present rate 3 per cent with a small increase below that amount. It does not touch widows and orphans or the average man, because they are not engaged in stock gambling, which it also affects. It reaches members of Congress with a small increased tax, and it is right that they should be reached, and what is it all for? To provide some little recognition for the boys who were in the service, whom you gentlemen sent to war. You took them away from their homes all over this country. You broke up thousands and hundreds of thousands of homes, and hundreds of thousands of jobs were lost to these men by your action when you sent them to war."

**HIS FOND FAREWELL.**

London Tit Bits: "A Frenchman, guest at a London hotel, had just been presented with his bill. Though he paid it without formal protest, he was most indignant over the amount. "I wish to see the proprietor!" he exclaimed to the clerk.

In a moment the proprietor entered. The Frenchman was all smiles.

"Ah!" he exclaimed, "I must embrace you!"

"But why should you wish to embrace me sir?" asked the astonished hotel keeper. "I do not understand."

"Look at zees bill!"

"Yes, your receipted bill. What of it?"

"What of it? Simple zees, saire, it means zat I shall nevaire, no nevaire, see you again."

**HOW THE FIGHT BEGAN.**

Disheveled and weary, the stout gentleman sank gasping on a seat in the railway station and glared at the rear end of the train he had just missed. To him came the pompous, fussy station master.

"Were you trying to catch that train, sir?" he asked.

The panting, would-be passenger eyed him balefully for a second before he hissed in reply:

"Oh, no! I merely wished to chase

it out of the station!"

**What a lot of argument there used to be about a woman driving an automobile**

TODAY she can "make a train" or fix a tire as well as anybody.

As soon as a luxury becomes a necessity the point of view changes.

Two or three years ago you would have listened to more varying opinions about tires than you could shake a stick at. Mileages, construction, treads and whatnot.

It's different now. Tire users are working towards a unanimous feeling.

You express it one way—the man down the street another. But sifted down it amounts to this:

That the only way to settle

your tire problem is to get a tire of known value and stick to it.

We recommend and sell U. S. Tires because their value is known.

There's no guess about it.

It was the U. S. quality policy which led to the perfection of the straight-side automobile tire, the pneumatic truck tire—two of the greatest additions to tire value that have ever been made.

As representatives of the oldest and largest rubber concern in the world, we are in a position to tell you something about tire values. Come in some day and talk to us.

Select your tires according to the roads they have to travel: In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco. For front wheels—The U. S. Plain. For best results—everywhere—U. S. Royal Cords.

Straight talk on Cream Separators by

**WARNER & SONS**

O'Neill, Nebr.

USERS of De Laval Cream Separators have carried away every first prize awarded at conventions of the National Creamery Buttermakers' Association since their first meeting in 1892. The record is unbroken!

The reason is that De Laval bowl design, together with low speed, enables the delivery of butter-fat globules unbroken and in their natural condition—thus insuring better butter.

Because of its close skimming the De Laval produces more cream, which means more butter.

Thus the user of a De Laval Separator gets both more and better butter.
