Is Your Wife Overworking?

The best husbands are often blind to the fading of their wives. Love sees beauty in a wife long after the neighbors are saying, "How old and haggard Mrs. Brown looks." For every ounce of unnecessary work or worry a wife has there is a toll of strength and beauty exacted. The family washing was once a necessity for women. Now it is a waste of money, time and strength. The modern laundry way is cheaper, better and easier. Take away the burden of the family washing from your wife. Get it out of the house and off her mind. For her it is always a burden. For us it is simple.

must foot the bill. If fifteen millions spent in refuting the "he kept us out of war" fallacy had beaten Wilson four years ago the people of the United States would have realized a profit of billions on the investment, besides saving their country from perils to its peace, prosperity and independence! The Wilson administration spent \$116,000,000 for poison gas during the war, none of it reaching the battle front. Probably it is this left-over material that Governor Cox is using in his present campaign.

Getting Out of a Corner.
Los Angeles Times: "Leonidas!"

exclaimed Mrs. Keekton, "are you aware that I was reading my essay on politics aloud to you?"
"Yes, my dear."
"But you went to sleep."
"Why not? You removed every problem so completely that I saw no further reason for retaining personal consciousness."

WHAT'S 15 MILLION TO THE BILLION WASTERS, ANYWAY?

National Republican: Governor Cox claims that the Republicans are raising a campaign fund aggregating in amount half as much as the Wilson administration deliberately wasted in the construction of one powder plant at Nitro, West Va.
That plant cost sixty million dollars, was worth probably thirty million dollars, and sold for eight and a half million dollars. The Wilson administration paid a powder company over eleven million dollars for running the plant and got no powder it could use during the war.

Governor Cox speaks in awe-stricken tones of a campaign fund of fifteen million dollars. Overlooking the fact that he multiplied the real Republican national campaign fund by four, still why should the Wilson candidate for President be so frightened by a sum that is only a little more than one-eighth of what the Wilson administration blew in on four nitrate plants that did not produce a pound of nitrate during the war? The waste on these plants is estimated at four times the figure Governor Cox figures as the proposed Republican campaign fund—and it was deliberate, criminal waste of other people's money, much of it spent for political purposes.

What's a little matter of fifteen million dollars to the candidate of an administration which let a hundred and seventy-five million dollars worth of new automobiles stand exposed to the weather, with a consequent loss of public money several times fifteen millions, and while this was going on, long after the war ended, let contracts for a half million dollars' worth of additional automobiles?

What's fifteen million dollars to the candidate for President of an administration that charged off one-fifteenth of that amount on two ships built for the war on account of money spent for amusements, individual hotel bills, house dues, athletics, and other such foolish frills of cost plus contracting?

Fifteen million dollars is a mere bagatelle to the candidate for President of an administration which spent seventy million dollars on a new training camp in a swamp near Norfolk, Va., which had to be filled up with soil from the bottom of the ocean upon which no grass will grow; and for the sodding of which \$650,000 is now demanded.

Fifteen million dollars is merely small change for the presidential candidate of an administration which spent fifteen millions on three cantonments in North Carolina, and after the war was over junked them all and started in to spend fifteen million dollars more on an entirely new cantonment.

The Wilson administration wasted through inefficiency, graft, negligence and stupidity fully fifteen millions dollars every other day during the war. It spent several times fifteen million dollars spreading poison propaganda in this country and throughout the world in behalf of Woodrow Wilsonism, and the taxpayers of America
