### PLAN STANDARD FIXED PRICE ON FARM PRODUCTS

Boston, Nov. 10.—The establishment of nation wide selling organizations which shall fix the price of farm products, if the farmer does not receive the same pay for the same hours' work that others receive, was predicted by Sherman J. Lowell, of Fredonia, N. Y., master of the national grange of the patrons of husbandry, in opening the annual convention of the grange.  
"We are willing to have a fair understanding of values; the farmers receiving the same pay for the same hours' work that others receive, no more, no less, but we feel that this is the last call," he said. "If no attention is paid to this now by bankers, manufacturers, railroads and labor organizations and if the government continues to use its great power to import raw material free of duty to reduce costs then the grange will be the first to help organize nation wide selling organizations which shall fix the price of farm products."  
"There is no threat in this; we will have been driven to it in self defense to preserve our agriculture."  
Mr. Lowell rejoiced that labor has been able to secure a much higher rate of wage, but added:  
"We little expected that they would turn and demand cheaper food from us, without first ascertaining the cost of production and thereby proving whether or not we were taking too large a margin of profit."  
The master declared that the great changes that have taken place since the beginning of the war have been to the disadvantage of agriculture and many laws and rulings of our national government have proven of injury to the farmers.  
"We have searched faithfully to find one law or ruling to our advantage and failed to find it. We have urged for a fair show, but all our efforts have met with a like fate."  
Mr. Lowell said the recent census showed a net decrease of 100,000 farms in seven states and he charged the attitude of the man in legislative halls and departments of government was responsible to a large degree for this condition. "So long as we remain passive this state of affairs will continue," he declared.  
Concerning taxation, he said:  
"There is but one equitable form of taxation and that is when every form of wealth pays its just proportion of taxes. There is no tax more just than an income tax, for it is never a charge against any one who has no means to pay."  
He spoke against the single tax and the idea of placing a government land tax of one per cent on the land in place of taxing large incomes. Both would be disastrous to agriculture, he said.  
"Another equally ergoneous idea," he continued, "is the one of heavy tax on all unimproved land holdings, for if this was done and they were forced on the market by reason of such a tax (which is the intent) it would cause the depreciation of farm lands 50 per cent, from the fact that there is more

### NEBRASKA NOVEMBER 1, CROP REPORT

A corn crop ranking first in both yield and production since 1905 leaves no argument to the fact that "Corn is King" in Nebraska this year. According to the November 1 report of A. E. Anderson of the Bureau of Crop Estimates and Leo Stuhr of the Department of Agriculture, the preliminary estimate of yield is 34 bushels per acre. Last year the yield was 26.2 bushels and the ten year average is 23.7 bushels. The total production is 250,988,000 bushels as compared to 184,186,000 bushels last year and the ten year average of 178,036,000 bushels. This year's crop ranks fifth in size since 1865.  
Even though this year's corn crop is approximately 36.4 per cent larger than last year's production, its total value is about 32 per cent less based upon prices now and a year ago.  
Burt, Dodge, Douglas and Fillmore counties share alike in first honors with average yields of 45 bushels per acre. Other counties averaging 40 bushels to 44 bushels are Dakota, Stanton, Hamilton, Sarpy, Saunders, Seward and Washington. The quality is generally good although there was a slight damage to some late corn from frost. The quality as well as yields was reduced somewhat from drouth in north central counties. Approximately 7 per cent of last year's crop is still on farms.  
The average weight per measured bushel of winter wheat is 57.5 pounds, spring wheat 53 pounds, oats 33.3 pounds and barley 47 pounds. The light tests of wheat, particularly spring wheat are due to shrinkage caused by black stem rust.  
Potatoes average 97 bushels per acre according to the preliminary estimate of yield. Last year they averaged 55 bushels. The total production is 10,088,000 bushels as compared to the ten year average of 8,592,000 bushels. Some of the counties have lower yields than expected.  
The average yield of flax is 8 bu. The condition of sugar beets at the time of harvest was 100 per cent. The total production of apples is 45 per cent.  
The condition of most of the winter wheat and rye is excellent. Winter wheat was damaged by drouth and high winds in some of the counties.  
Preliminary estimates for the United States are as follows: Corn 3,199,126,000 bushels compared to 2,917,450,000 bushels last year and 2,876,645,000 bushels the 1914-19 average. All wheat, 750,648,000 bushels compared to 940,987,000 bushels last year and the 1914-19 average of 842,036,000 bushels. Oats 1,444,362,000 bushels compared to 1,402,064,000 bushels last year and 1,386,850,000 bushels the 1914-19 average.

### NO INCREASE IN PRICE.

The State Journal is the only big state paper that has not raised its prices. Still being mailed at the old rate of \$5.00 a year without Sunday, or \$7.00 with the big Sunday paper. The publishers hope it will not be necessary to make an increase and will fight it off as long as possible. Everybody should help to get down to a moderate basis of prices. You will admit that \$5.00 a year for a great daily like the State Journal is not profiteering. It's the cheapest thing you buy. The Journal satisfies the needs of the whole family. It is less partisan and more independent than any other state paper. It prints all the news that's fit to print and is filled with many exclusive features. The coming session of both the State and National Legislatures will be of unusual interest. The Journal for fifty years has devoted more space to Nebraska news than any other paper.

Prepare for the long winter by sending in your order for the Nebraska State Journal now.

**A Secret Between Them.**  
Detective William J. Burns was defending to a reporter his policy of silence in a bank robbery case.  
"Remember," said the famous detective, "the case of Judge Bryan. Judge Bryan, you know, had a number of hams stolen from his smoke-house. He missed them at once, but said nothing about his loss to anybody."  
"A few days after the robbery, a neighbor hailed him and said:  
"Judge, I hear ye had some hams swiped the other night."  
"Yes, that's right," said Judge Bryan in a low, confidential tone, "but don't tell anybody, George. You and I are the only ones who know anything about it."
