

CANADA BIG WINNER

Captures Many Prizes at Leading American Fairs.

Remarkable Showing Made at International Live Stock Show at Chicago—Carried Off Sweepstakes For All Wheat.

Something that lends emphasis to, and affords definite proof of, the generosity of the soil and climate of western Canada, is shown by the numerous exhibits made by both the government and individual farmers and stock raisers of that country, at many of the leading state and county fairs in the United States this season. Particularly is this the case with regard to exhibits made at the International Live Stock Show recently held at Chicago.

First and foremost to the average farmer will appeal the fact that Canada carried off the Sweepstakes for all wheat, and that out of a total of twenty-five prizes, Canada took twenty. In oats the Grand Championship was won by a farmer living in the Province of Alberta. Canada also was awarded the championship for Durum wheat, while for Flint Corn out of a total of ten prizes, Canada took first, second, third, sixth and seventh.

Not only in grains did Canada prove her right to rank as a first class agricultural country, but she carried off many prizes for cattle, horses, sheep and hogs, a partial list of which follows:

Cattle, Canada was awarded the championship for Grade Shorthorns, also in the College Special class, Canada gained first, fourth and sixth prizes.

Horses, Grand Championship for Clydesdale stallion, also Grand Championship for American bred mare, as well as first for three-year-old Clydesdale stallion, first for one-year-old Clydesdale stallion, and second for the aged class.

In the Belgian class, Canada obtained first and reserve for Championship Belgians, as well as second for Aged stallion.

Sheep, Canada obtained Championship for block, male and female, in addition to first prize in all group prizes.

Hogs, in the Yorkshire class Canada was very prominent, taking the Championship for pen of Yorkshires, and championship for best single barrow, as well as over twenty first, second and third prizes in other classes of Yorkshires.

With regard to the live stock shown it must be borne in mind that these have not been fed on corn, on which the average western farmer places his reliance, but on the wonderful oats and barley grown in western Canada, supplemented by the native grasses, of which a most artistic display was made by our neighbors to the north.

Canada has conclusively proved that not only can she take prizes for the grain she raises, but can also take prizes with the animals to which these grains have been fed, and this in open competition with the world.—Advertisement.

Reason for Gratitude.

Little Edna was visiting the museum with her aunt. In the Egyptian room the child saw the desiccated remains of an ancient queen and asked what it was.

"That is someone's mummy, dear," replied auntie.

"Goodness!" said Edna. "I'm glad my mummy doesn't look like that."—Boston Transcript.

Those who live for gain don't have nearly so good a time as those who live for service.

IN YE OLDEN TIME

Hoop skirts were worn by those who first asked the druggist for, and insisted on having, the genuine Golden Medical Discovery put up by Dr. Pierce over fifty years ago. Dress has changed very much since then! But Dr. Pierce's medicines contain the same dependable ingredients. They are standard today just as they were fifty years ago.

Dr. Pierce's Golden Medical Discovery for the stomach and blood cannot be surpassed by any remedy today.

Dr. Pierce's Favorite Prescription for weak women has never been equalled for the distressing complaints incident to womanhood. What others say:

GRAND ISLAND, NEB.—"For the past fifteen years I have been wonderfully helped by taking Dr. Pierce's Favorite Prescription and his Golden Medical Discovery whenever my system has required a toning up. I would recommend these medicines to all mothers who become run-down, weakened or nervous. They are always reliable and can be depended upon to give strength and renewed health."—Mrs. H. O. ROSENBOUGH, 418 North Pine Street.

McHUGH APPEALS FOR \$100,000,000 TO ORGANIZE BANK

Heading Foreign Trade Financing Plan, Former S. C. Banker Asks Business Men and Farmers to Subscribe.

Chicago, Dec. 13 (United News).—A nation wide campaign is to be launched at once among the financial, commercial and agricultural interests of the United States to obtain the \$100,000,000 necessary to float the foreign trade financing corporation.

Instant response to the appeals for this amount by the business interests of the country is expected by the leaders who formed the corporation at a momentous conference here.

As soon as it is procured, it will be used as a hypodermic to stimulate the paralyzed arm of foreign industry, and, co-incidentally, secure the future of American export trade.

McHugh to Announce Committee. "On my return to New York I will announce the names of the executive committee of nine members who are to work out the organization details of the corporation," said John McHugh, former Sioux City banker, chairman of the committee on permanent organization, who is to be chairman of the board of directors, here Sunday.

"As soon as the officers are named, and the corporation is formally launched, we will bring into being a nation wide campaign for the \$100,000,000 needed to start our work. He urged business men and farmers to subscribe.

"You can be assured that there will be no delay through any fault of the organization committee."

McHugh Points Out Feature. Mr. McHugh declared the most inspiring feature of the decision of the great group of financial, farm and business leaders who decided to launch the corporation, was the "unanimity of purpose of every branch of our business life."

Western manufacturers, who have done extensive export business, were of one mind in declaring that extension of long time credits to Europe through the corporation was the one step needed to avert industry paralysis in this country.

"We have great faith in the future of the new corporation," said Edward N. Hurley, former chairman of the shipping board, and one of the most influential manufacturers in the west.

"We, the manufacturers, have complained in the past that we had no banks in foreign countries. Now we have the banks. Then we complained that we had no merchant marine. Now we have the merchant marine. Then we complained that we had no customers. Now we have the customers. Then we insisted that they pay us in gold. They have no gold. Our export business is, therefore, practically paralyzed.

Where Corporation Comes In. "That is where this corporation comes in. Through it we will be able to extend long credits, on gift edged debentures. These debentures will be secured by the foreign governments.

"This corporation is going to be profitable for the investor, but primarily it is going to benefit the entire country. Every manufacturer who makes goods for foreign sale, every man who works for him, and, indirectly, every other line of business.

"There are 35,000 manufacturers making goods here for export. Every one of them should take stock in this corporation, and, I believe, will do so.

"When the American farmer stops to think that one-third of his produce is raised for foreign consumption, and that low prices today are partly due to cessation of foreign buying, he too will be interested in this corporation."

Leaders here Sunday pointed out that this is the first time in American history when a corporation of this size has been organized "in the open."

Both Emphasizes Point. Willis H. Booth, vice president of the Guarantee Trust Company, emphasized this point:

"Here is a great corporation organized in the open and in the presence of the representatives of the press, without any inside group, without any founders' stock, or bonus shares," he said. "Here also is an underwriting done in the open without discount commissions, or private profits. This is all as inspiring as it is unusual. It gives the corporation a moral start of the highest kind."

This point was also stressed by leaders of every group present at the conference. There was no skepticism as to motives or purpose. The only "cold water" thrown, was in the form of telegrams from certain New York and New Jersey financial interests, who, leaders declared privately, "had a personal axe to grind."

Who'll Head Corporation?

Considerable speculation is going the rounds as to who will head the new corporation. It was declared after an informal conference Sunday that Julius Barnes, former head of the United States Grain Corporation, had been offered the place, but had declined. It is known that Paul M. Warburg, New York financier, also declined the place. Herbert Hoover is also said to have been unable to serve. Hoover is a member of the permanent committee on organization and is expected to be a member of the board of directors.

STORE IS ROBBED OF GEMS.

Fremont, Neb., Dec. 13 (Special).—The general store of Seidel & Anderson in Nickerson was entered Saturday night and looted of \$1,500 worth of jewelry, \$200 in merchandise and change in the cash register. The glass was broken out of the front door and the locked turned. The jewelry was on consignment and covered by insurance.

Under a Finnish law which takes effect January 1, the national government will build all highways.

He's Offered a Harem, Doesn't Want It, But--

Robert A. McClain and Mrs. McClain.

Marine whose title to harem is doubted. Mr. McClain, now a machinist in Wrentham, Mass., says he doesn't want the harem (Mrs. McClain says so, too) but he wants the throne and other royal inheritances of the "late Sultan of Liang," who adopted him.

TRINA'S PARENTS ARE READ OUT OF CHURCH

Scriptures Reversed in Case of Girl Who Stole Away With Married Pastor.

Passaic, N. J., Dec. 13 (United News).—It is written that the sins of the fathers shall be visited upon the children. In Passaic Sunday the scripture was reversed when Mr. and Mrs. Hannenberg, the parents of Trina Hannenberg, 24, who was absent for several weeks with Rev. Cornelius Densel, her pastor, were formally read out of the Netherlands church.

John Rose, the presiding elder, read Mr. and Mrs. Hannenberg out of the church for reasons which, the statement said, were well known to the congregation and need not be gone into.

None of the Hannenberg family was present.

However, Rev. Cornelius Densel's eldest son entered the church to play the organ.

Reporters visited the Hannenberg home. Mr. Hannenberg opened the door. His eyes were red-rimmed and wild looking. He snarled and slammed the door shut.

CARUSO REJOINS COMPANY TONIGHT

New York, Dec. 13 (United News).—Barring a fourth accident in two weeks, Enrico Caruso, having recovered from his third, will rejoin the Metropolitan Opera Company Monday night and sing as usual in "The Force of Destiny."

First a papermache column butted the singer in the side and gave him a bad bruise during the singing of "Samon and Deliah." Next, in mounting the steps of the stage within a stage in Pagliacci, he slipped and wrenched several muscles. And on Saturday night in Brooklyn he ruptured a small blood vessel in his throat in the first act of "Elsinor d'Amore." The hemorrhage forced him to give up the performance.

Inherits \$23,000,000 While Drawing \$40 Month as Sailor

Chicago, Dec. 13 (United News).—Life on the bounding main has no mad attractions for George C. T. Remington, a sailor at the Great Lakes training station.

Remington has fallen heir to a \$23,000,000 estate. He is now getting \$40 a month. He is the son of Mrs. W. Schuyler Volkmar, New Haven, Conn. His greatest ambition right now is to get out of the navy, but in that he is having his troubles.

"If I ever get out I will start an aeroplane factory," he said Sunday.

DESPONDENT FARMER HANGS SELF IN GRANARY

Elk Point, S. D., Dec. 13 (Special).—W. C. Olson, a farmer living six miles northwest of Akron, committed suicide at 11 o'clock Sunday morning by hanging. His body was found by his small son a few minutes after life was extinct. He hanged himself with a lariot to a rafter in the granary, situated a short distance from the house.

Despondency over financial matters was given as the cause for his act. He was 46 years old. He is survived by his wife and son.

Sheriff John Dahlin, of Elk Point, visited the farm shortly after the body was found, but decided no inquest was necessary.

IOWA MAN BADLY BURNED.

Sac City, Ia., Dec. 13 (Special).—The face, hands and right leg of W. I. Grew, manager of the Iowa Light, Heat & Power Company, of Sac City, were severely burned Sunday morning when his body came in contact with a wire carrying 33,000 volts of electricity.

Dr. Charles A. Steinmetz, electrical "wizard of Schenectady," believes it will be illegal to build a fire in the limits of cities of the future, which will be smokeless and dustless.

LEAGUE TO PLAN UNIVERSAL PEACE

Final Discussion of Definite International Tribunal to Come Before Assembly in Geneva Today.

Geneva, Dec. 13 (United News).—The League of Nations will enter Monday into its first phase of constructive work for the bringing about of universal peace.

The final discussion of a definite international tribunal of justice, coupled with the principle of the economic blockade and steps to disarmament, comes before the league assembly.

The plan differs little from the original scheme as drawn up at The Hague by the international commission of jurists of whom Elihu Root was an influential member.

An apparently unbreakable deadlock has risen between Japan and Australia, in regard to the Australian mandate over former German possessions south of the equator, as well as New Zealand's mandate over the German Samoan Islands.

CHANGE OF VENUE DENIED A. B. COLE

Nebraska's Famous Murder Case at New Stage in Court at St. Paul, Neb.

Grand Island, Neb., Dec. 13.—In the district court at St. Paul, Howard county, this morning, Judge Payne ordered a correction of the records of the case of the state against Alvin B. Cole, as of March 27, 1918, to show as suggested in the order of Federal Judge Woodruff, the determination of the first degree of murder, and the hearing of evidence in the case for such determination and denied the motion for a new judge to act in the case.

The state, by Assistant Attorney General Wheeler, moved to strike the petition of Attorney Priest, representing Cole and Cole's affidavits from the record as being false and scandalous, and without authority in law. The attorneys are this afternoon talking up the point as to whether the former determination of murder in the first degree and the fixing of the death sentence should be reaffirmed or a jury called.

Cole was convicted with Allen V. Grammer, two years ago, for the murder of Grammer's mother-in-law, and both were sentenced to death. Over a dozen stays of execution have been granted.

CHARGE BIG INTERESTS FIGHT BUILDING PROBE

New York, Dec. 13 (Associated Press).—New York's "anti-building trust" machine went into high speed Friday, when more than 30 indictments bringing the total above 60 and the disbanding of two contractors' associations were announced as direct results of grand jury and joint legislative committee investigations.

Another sensational development included charges by Samuel Untermyer, committee counsel that "great financial and industrial powers" of the country "through hired propagandists and publicity agents," have thrown themselves into the fight to block the investigation of the alleged building trust just as it "is about to enter upon its most crucial stage."

GIRL IS KILLED BY AUTO.

Cortland, Neb., Dec. 13 (Special).—Stella Williams, 9, daughter of Frank Williams, of Beatrice, was killed Sunday when struck by an automobile driven by a man giving his name as Roy Harrold, 927 Washington street, Lincoln. The accident occurred in front of the Highland Center school southwest of Cortland.

British housing conditions are such that two years after the armistice, 7,230 people are still lodged in St. James and Regent parks in huts.

DANIELS URGES SHORE BASES FOR NAVY ON PACIFIC

In Report, He Says Present Defense O. K. If U. S. Enters League—Raps Hazing—Defends Marines in Haiti.

Washington, Dec. 13 (United News).—The "immediate outstanding duty of the country," in the opinion of Secretary of the Navy Daniels, whose annual report has just been made public here, is the provision for adequate shore bases for the navy on the Pacific coast.

"The day will never come when a powerful fleet will not be based in the Pacific," says the secretary.

Commenting on the recent inspection trip of the congressional joint committee, which visited the Pacific coast, Secretary Daniels says he expects "they will place definitely before congress a comprehensive program of naval base construction in consonance with the high strategic importance of this territory."

Would Fortify Islands.

"Hawaii, the cross roads of the Pacific," he declares, "is of such strategic importance and offers such possibilities of development that naval authorities agree that there should be created there a fleet-operating base extensive enough to accommodate the entire fleet with all auxiliaries."

The secretary adds that the project for developing the island of Guam, as a naval base is progressing, and that the naval station at Cavite, in the Philippines "is to be developed moderately."

Progress in Expansion.

Of the service as a whole, Secretary Daniels says that the task of building up the navy "has gone forward until we possess a navy worthy of America." Taking his cue from President Wilson's speech in St. Louis in 1916, in which the president said the American navy "ought to be incomparably the most adequate navy in the world," Secretary Daniels confidently asserts that its attainment is now in sight. "For," he adds, "the navy today is incomparably stronger than ever before, and its power will be greatly increased by the battleships and cruisers now building."

He reports construction of the 16 capital ships authorized in the three-year building program of 1916 is going forward after its suspension during the war.

"These battleships of 43,200 tons and battle cruisers of 43,500 tons will," he declares, "be larger and more powerful than any heretofore built, and without an equal in speed and gun power."

May Need New Program.

On defense, Secretary Daniels says that if the United States enters the League of Nations, "our present navy, with the addition of some special types, will be adequate for our defense and the prevention of aggression." If, however, we do not enter "the league or a league, the secretary has this prophecy:

"If this country is to stand alone outside any effective association of nations, we must be prepared to defend our interests against any possible opposition or combination. This will mean continuance of naval construction, indefinitely, costly as this will be.

"If the United States is not to enter any agreement with the other powers of the world, I feel compelled to approve the recommendation of the general board that congress authorize another three-year program, to be begun as soon as the capital ships now under construction are launched," he goes on to say. "If, however, provision is made by our government for an international agreement for a concert of nations, with strength to prevent war, it will be neither necessary nor wise to authorize either a three-year program or a large one-year program."

Opposes Separate Air Service.

Secretary Daniels opposes establishment of a separate air service, such as is proposed in several bills now before congress.

Secretary Daniels reiterates his view that all wireless apparatus should be government owned and operated.

Of the International Communications conference's work during the sessions it has been holding in Washington, he says he hopes it "will result in an agreement that will bring about a decided improvement in communications in general and particularly the use of radio."

Making Own Smokeless Powder.

He reports "excellent progress" in the manufacture of 16-inch and smaller guns, that the navy is now making its own smokeless powder, and that experts are developing new types of mines and depth charges.

The shore construction program of the navy, he announces, is practically completed.

Secretary Daniels reports that there are now in the navy more than 120,000 enlisted men, more than twice as many as were in the service previous to the war. Recruiting, he says, is going forward so rapidly "there is reason to expect that early in the coming year the full authorized strength, 142,394, will be reached."

Making Navy Life Attractive.

He adds, though, that there is still difficulty in obtaining skilled men in the higher ratings.

LE MATIN WANTS LODGE TO HEAD DELEGATION

Paris, Dec. 13 (United News).—Le Matin editorially expressed the hope Sunday that Senator Head Cabot Lodge would head the delegation President-elect Harding would send to Europe to represent the American government.

BARE PLOT OF GERMANS WITH IRISH

Berlin, Dec. 13 (United News).—Efforts to organize reactionary Germany, Austria, Hungary, Bulgaria and Turkey, together with an uprising in Ireland, were made by Colonel Bauer, prominent in the last German revolt, and his followers, say documents published by the Freiheit. The Freiheit reprints from Prague Russian papers and documents which support to show the plan was to bring these coups between the fall of 1920 and spring of 1921.

"TOO FEW YANKS RECEIVED MEDALS"

—CUMMINGS Senator From Iowa Baker Explain Why There Was Discrimination Against Many.

Tribune Washington Bureau.

Washington, Dec. 13.—Senator Cummings announced Sunday that he intended to go to the bottom of the action of the war department in discriminating against soldiers of the national army and national guard in the matter of granting war crosses and war medals.

He has written a letter to Secretary Baker calling for a list of Iowa soldiers granted distinguished service crosses or medals, a list of those recommended for such honors by their superior officers and a statement of the reasons why the recommendations of the superiors were not followed. Senator Cummings has taken this action with the backing of the Iowa delegation and at the instance of prominent members of the American Expeditionary forces in Iowa. Such men as Col. Wilbur Conking, and Col. Guy S. Brewer, as well as others well known for their service in France, have protested in behalf of comrades who, it is alleged, have not had a square deal.

Lasher Protests for Iowans.

Adjutant General Lasher conferred with Senator Cummings recently and protested in behalf of numerous Iowa veterans and American Legion posts. "With only 3 per cent. of the officers in the service at the front belonging to the regular army, they have won over half the crosses," said Senator Cummings. "The national army and national guard have both been discriminated against in a manner which is utterly indefensible and outrageous. I have asked Secretary Baker for the facts and while I have not heard from him it seems to me there is no defense for it."

Congressional Probe Likely.

If Senator Cummings cannot get this matter straightened out under the regime of Secretary Baker, he will follow it up in the new administration and under the new secretary of war.

Similar complaints are made in other states and it is not at all unlikely there will be a general inquiry by the Senate or House military committee into the whole subject in a national way.

If the representations made by veterans of the national army and the national guard are correct, there is no doubt such an investigation should be made.

Chicago Saloons Quarantined Against Sale of Liquor

Chicago, Dec. 13 (United News).—Hundreds of Chicago saloons blossomed out Sunday with large yellow "quarantine signs" over the doors warning the world that "liquor must not be purchased within."

The saloons are posted, as inebriates used to be, under restraining orders from the federal court, against violation of prohibition.

"Beware" in letters two feet high, is the first word on the poster.

It goes on to inform the possible thirsty that: "This place has been restrained from selling liquor by Judge Landis. Anyone buying intoxicating beverages here will be held in contempt of court and prosecuted with the proprietor."

STOCK YARDS WORKERS SEEK BIGGER AWARD

Chicago, Dec. 13 (United News).—Dissatisfaction among 80,000 workers at the stock yards over the recent wage award by Federal Judge Samuel Aleschler will culminate in a protest meeting Monday night.

George Youstra, secretary of the stock yards labor council, who called the meeting, said discontent was spreading among the men.

Strike action may be taken, he declared.

Judge Aleschler's award gave retroactive bonuses to certain classes of workers, but turned down a general increase on the ground that living costs are declining.

COOLIDGE IS INVITED TO CONFERENCE DEC. 16

Boston, Dec. 13 (Associated Press).—A conference between President-elect Harding and Governor Coolidge, vice president-elect, to be held at the senator's home in Marion on December 16 was announced at the governor's office last night. The nature of the conference was not said, but it is said to have been requested by Senator Harding. Governor Coolidge will accompany the president-elect and will be the guest of Mr. Harding.
