"IMPEACH LANDIS" MOVE STILL TAKEN LIGHTLY BY HIM

Keeps Smiling as Welty Moves To Oust Him Over Baseball Job and Dial Demands Probe Over Bank Teller Case.

BY LOWELL MELLETT.

Washington, Feb. 15.—Federal Judge Kenesaw Mountain Landis, about whose head more battles have raged than were witnessed by the war-scarred peak whose name his proud parents gave him, is the center of a real fuss this time. If members of congress mean what they say—and frequently they do—the impeachment proceedings opened by Representative Benjamin F. Welty, of Ohio, are to be seen through to a finish.

Word was received here from Chicago Monday night that Judge Landis told friends Monday afternoon that he was not in the least worried over the agitation to have him impeached and that he was no more concerned over the matter than he was over the appointment of a bell hop "in that hotel across the street."

Welty a Scrapper Himself.

Congressman Welty has something of a reputation as a scrapper himself, having served as a private during the Spanish-American war and having been the government's attorney in the prosecution of the plumbers' trust in 1915 and 1916. Private expressions on the part of several members of the House following Welty's oral indictment of the Chicago jurist, indicated that they sympathized with the effort to have the restless occupant of the federal bench brought before the bar of the House.

Chairman Volstead, of the judiciary committee, to which the impeachment motion was automatically referred, intimated that action might be taken on the charges against Judge Landis before the end of the session. He explained, however, that even if this were not done, because of the short time remaining, the proceedings will not die. The fact that Representative Welty retires March 4 also makes no difference. The next step now is the investigation of the charges in Representative Welty's motion and the decision of the judiciary committee as to whether an impeachment resolution shall be brought into the House.

Dial Demands Federal Probe.

Meantime, Senator Dial is proceeding with his purpose to have the department of justice investigate what he calls Judge Landis' "anarchistic and revolutionary" remarks in connection with the latter's discharge of a \$90 a month bank teller charged with embezzling \$95,500. His effort to have Representative Welty incorporate allegations on this subject and his accusations against the judge were rejected by Representative Welty, who made Judge Landis' connection with organized baseball a prominent part of his speech.

Representative Welty exploded his charge when he rose to a point "of high personal privilege" and announced that he impeach the judge. "There were only a few scattering 'noes' to his motion to refer his charges to the judiciary committee. Five specific charges were made as the basis for impeachment. They were:

First—Neglect of official duties for other gainful employment. Second—Use of his office to settle disputes that might come before him in court. Third—Lobbying before state legislatures in behalf of anti-gambling legislation. Fourth—Accepting a \$42,500 salary from organized baseball, despite the judgment of the United States court of the District of Columbia against the American and National leagues on the charge of violating the anti-trust laws, and despite the baseball gambling indictments still pending. Fifth—For injuring the national sport through creating the impression that gambling and other illegal acts in baseball will not be punished in open court hereafter.

Calls Landis Chief of Trust.

"After baseball associations had been found guilty of being a trust and had been fined \$240,000," said Representative Welty, "they rushed into Judge Landis' court and for an additional \$42,500 he became the chief arbiter of the trust, and, at their request remained on the federal bench. This case is still pending in the United States supreme court. What will hinder each member of this court from accepting a like sum from the baseball associations?"

"Judge Landis has done good work, but if he wants to retain confidence and respect as a judge, he must divorce himself from the flesh-pots of illegal combinations. You cannot maintain baseball as a clean sport when you permit players to throw the game and baseball magnates to throw our judiciary."

KAISER'S ISOLATION LESS EFFECTIVE THAN SON'S

Doorn, Feb. 15.—The Dutch are making the isolation of the former German crown prince even more effective than that of the ex-kaiser.

It is learned that Frederick enjoys two forms of exercise, at least—hammering-out horseshoes in the village smithy and boxing twice a week with an instructor who comes from Amsterdam. He receives practically no visitors.

DEMOCRATS TO REORGANIZE?

Washington, Feb. 15.—Thomas B. Love, democratic national committee man from Texas, has notified the signers of the "round robin" calling for a meeting of the national committee March 1 to reorganize, that the request will be put before the executive committee Thursday. Chairman George White is opposed to the meeting of the whole committee, and will fight efforts to replace him, said to be a part of the reorganization plans.

Naming of More Cardinals For U. S. Is Being Considered

Archbishop D. S. Dougherty, upper left, Archbishop Patrick Hayes, right, and Archbishop George Mundelein.

New York, Feb. 15. (Special).—The visit of Archbishop Hayes, of the New York diocese, to the vatican has stirred up considerable interest in the report that at least one more cardinal is to be appointed for this country to fill the vacancy left by the death of Cardinal Farley. It is hinted that the

vatican may appoint more than one, and that if there are to be two, one of them will be a western prelate—Mundelein, of Chicago, or Glennon of St. Louis.

Both Archbishop Hayes and Archbishop Dougherty of Philadelphia, are mentioned in this connection. Philadelphia has never had a cardinal, and it is understood the Philadelphians are making an extraordinary effort to win the red hat for their archbishop. Archbishop Dougherty has been but two years in the Philadelphia archdiocese, to which he was promoted from the diocese of Buffalo. Prior to his appointment to the Buffalo See he had been one of the diocesan bishops of the Philippines. He was consecrated in Rome in 1903, along with the late Bishop Rooker. He is a Pennsylvanian by birth, about 55 years old and was educated at St. Charles' seminary, Overbrook, Pa., and other educational institutions of the Catholic church.

DOUGLAS COUNTY TO GET SARPY?

Bitter Fight Against Annexation Plan Made in Nebraska Legislature — Omahans Blamed.

Lincoln, Neb., Feb. 14 (Special).

craftiness and certainty of purposes, Edgar Howard, former lieutenant governor and once a resident of Sarpy county, told the Nebraska house committee on privileges and elections Monday afternoon that it would be so easy to plant 2,000 men of South Omaha in boarding houses just over the Sarpy line to swing the bill for annexation. Mr. Howard was protesting against the passage of the bill providing for the submission to the voters of Douglas and Sarpy counties, a proposition to annex part or all of Sarpy county to Douglas. More than 100 residents of Sarpy county appeared before the committee and appealed for defeat of the bill. They characterized it as an attempt on the part of ambitious Omaha politicians to swallow up the less populous, but contented county of Sarpy. The committee deferred definite action.

The senate Monday indefinitely postponed the bill providing that women pay an income tax.

Among the more important bills passed by the senate Monday afternoon were:

S. F. 140 by Randall—For return of bank guaranty fund to bank stockholders three years after liquidation providing the bank has been in existence eight years.

S. F. 71 by Beebe—Increases salary of trustees of villages and cities having from 1,000 to 5,000 population to \$50 a year; clerk, \$300; attorney, \$400; marshal, \$75 a month; overseer of the streets, \$4 a day, not to exceed \$600 a year.

S. F. 86 by Hastings—Life imprisonment for rape and 10 to 30 years for criminal relations with girls between 15 and 16 years of age.

NEBRASKA BANK LOOT FOUND IN CULVERT

Hastings, Neb., Feb. 15 (Special).—Guide Rock officials Monday recovered 11 safety deposit boxes stolen from the Guide Rock State bank when that institution was robbed three weeks ago. The boxes were discovered in a culvert a mile and half north of Blue Hill by federal inspectors of the state highway and were delivered to Sheriff Cole.

Registered Liberty bonds amounting to more than \$11,000, certificates of deposit worth more than \$8,000, and notes worth more than \$10,000 and a large amount of stock certificates were recovered in the boxes.

LUMBER PRICES CUT.

Spokane, Wash., Feb. 15.—Reductions of from \$2 to \$5 per 1,000 feet on common grades of lumber, effective today are announced by the Weyerhaeuser Sales Company, which controls the sales of a number of companies on the Pacific coast. L. A. Case, manager of the company, said the reduction is "to meet" the general market conditions at this time.

The proposal has been made in New York that the widow of Theodore Roosevelt be given a place in the Harding cabinet.

PATRICK H. KELLEY SECRETARY OF NAVY?

Michigan Congressman Is Mentioned as Lowden Replaces Post.

Washington, Feb. 15.—Patrick H. Kelley, of Lansing, Mich., serving his fifth term as congressman, may be secretary of the navy, it is rumored here. His qualification for the post is his command of a writer's navy appropriations bills originate. Frank O. Lowden, former governor of Illinois, constantly mentioned for the naval portfolio, is said to have put an absolute quietus on the consideration of his name. The only cabinet position he would undertake is that of secretary of the navy, it is learned.

WELL TO DO FARMER GAINED 20 POUNDS

H. W. Boring Says He Is In Better General Health Than He Has Been in Years Since Taking Tanlac.

"Since Tanlac has overcome my troubles I have gained twenty pounds in weight and am in better general health than for years past," was the straight-forward statement made a few days ago by H. W. Boring, a prominent and well-to-do farmer living at Overland Park, Kans.

"During the two years I suffered I tried everything I knew of to get relief, but nothing seemed to reach my case until I tried Tanlac. My appetite was poor and my digestion was so bad I could hardly retain my food. Nothing agreed with me; in fact I was almost a confirmed dyspeptic. My whole system seemed to be out of shape. I would have pains across the small of my back so bad at times I could hardly move around. My nerves were all unstrung and I would become upset at the least little thing. I seldom slept well at night and, finally, became so weak and run-down that I lost weight rapidly. I was also troubled a great deal with catarrh and of mornings had to spend a half hour or more clearing up my head.

"This is just the condition I was in when I began taking Tanlac and it certainly has been a blessing to me. It just seemed to be made especially for my case. I improved from the very first. My digestion now is per-

A National Fault.

"Extravagance," said Senator Cummins at a dinner, "is at the root of most of our ills. We Americans are the most extravagant people on earth." Senator Cummins smiled.

"How many of us," he went on, "are like the young Newlyweds at heart! 'Young Mr. and Mrs. Newlywed are in a dreadful predicament, a chap said at a club.

"Yes? How so?" said another chap. "Why, you see, they paid so much for their going-away outfits that they can't go away."

In the Gallery.

The late William Dean Howells, in the days when he was a magazine editor in New York, liked to visit the Bohemian low-priced theaters and sat in the gallery.

"In the gallery," he said one day, "the people listen to the music intently. They don't laugh and chatter as they do downstairs. In the gallery, too, they keep their seats till the performance is over. Downstairs they put on their wraps and leave in the midst of the glorious final climax."

Mr. Howells chuckled. "The theater," he added, "is like the human body. The brains are always at the top."

Back Given Out?

There's surely some reason for that lame, aching back. Likely it's your kidneys and slows them up. That may be the reason for that nagging backache, those sharp pains, that tired, worn-out feeling. You may have headaches and dizzy spells, too, with annoying bladder irregularity. Use Doan's Kidney Pills. They have helped thousands. Ask your neighbor!

A South Dakota Case

D. J. Regan, 633 S. Mill St., Lead, S. D., says: "Some months ago I was troubled with my back. There was a steady pain right across the small of my back and when I bent over suddenly it nearly took my breath away. 'The kidney secretions passed too often and were scanty and unnatural in other ways. I used Doan's Kidney Pills and they cured me of all kidney trouble.'"

"The pains across my back have entirely disappeared. The catarrh has left me, too, and my head is perfectly clear. I am no longer nervous and rest well every night. I have regained my lost weight and am feeling better and stronger than I have in years. I am going to keep Tanlac in my house so it will be handy at all times." A Man is just as Young and Strong as his Blood

No man can fight the battles of life and hold his own if his blood is not pure, for rich red blood is what strength is based upon. When you see a strong, vigorous man, who never knows when he is licked, you may wager that such a man has coursing through his veins rich, red blood. Many people have thin, pale blood. They are weak, tire easily, become discouraged quickly, and sometimes feel like giving up the struggle. Such folks need Dr. Pierce's Golden Medical Discovery, made without alcohol and sold by druggists in liquid or tablet form.
