John Horiskey in the settlement of an argument of long standing Wednesday evening defeated L. W. Arnold in a standing broad jump on the athletic field in the rear of the Arnold residence, by fourteen inches. Mr. Horiskey cleared nine feet seven inches and Mr. Arnold eight feet five inches. The contest came about over Mr. Arnold's contention that there were many athletes in O'Neill who could make a ten foot standing broad jump, which was disputed by Horiskey, who, while admitting that he himself was some jumper, said that he could not do it himself although he was satisfied that he could beat Arnold. A quiet hour in the evening while Mr. Horiskey was supposed to be bringing the family cow home from pasture was chosen for the contest, which was witnessed only by a select few. Both men, after having tried it, now agree that no man but a professional can make a standing broad jump of ten feet without weights. They also issue a challenge to any athletes of their age for a jumping contest for the Holt county championship and a substantial side bet.

THE LOW COST OF ADVERTISING

Few advertising men know that advertising space in newspapers is by far the most economical way to reach the consumer. It is a fact and the only reason that advertising was ever created was because wise and shrewd business men learned that they could buy white space in publications at a minimum cost and because of the message they would put in that space they could make a good profit on the transaction and make the advertising a real investment in production of sales and good will.

In these days of cost of white paper and printing the advertiser could not print a full-page advertisement and buy the white paper at the small cost that the newspaper charges him for the complete page delivered into the home by invitation. That is to say the readers of this newspaper buy a paper because they want to read it and because they know they are getting more for their money at 2 or 3 cents than anything else they could buy at that price. That is what makes the advertising so valuable to the advertiser, provided they have the right message, the right illustration and the right merchandising plan back of the advertising.

Newspaper advertising is by far the most economical method to reach the consumer.—William H. Rankin, President H. Rankin Advertising Agency in Newspapers.

NO HYSTERICIS HERE

Omaha News: "An Omaha bank closed its doors the other day.

"Most Omahans will recall when such an event would have produced more or less hysteria, and brought a mob of depositors to storm the doors of this and other banks.

"Today we see state and bank officials going quietly about the adjustment of affairs, and another bank calmly preparing to take over the defunct institution's deposits.

"The guarantee fund is the answer."

This is the only bank in O'Neill offering this protection.
