"HANDS OFF" IS CURT ORDER OF DENBY ON SIMS

Secretary of the Navy Frowns On Threatened Demonstrations Against Returning Admiral.

Washington, June 20.—Secretary of the Navy Denby reserves to himself the right to deal with Rear Admiral William S. Sims for his "jackass" speech.

This was made clear when reports of preparations for anti-Sims demonstrations were called to the secretary's attention Monday. Further reports that the navy proposes to take Admiral Sims aboard a cutter at quarantine were denied emphatically. "Admiral Sims is coming on his ship right up to the dock at New York," declared Secretary Denby. "I have refrained from discussing the Sims case ever since he was ordered home, but in view of these reports, I must say I cannot believe that interference with his progress is contemplated. I hope such a disgrace to the American people as is reported to be possible will not take place. I would hold this view in the event that the humblest enlisted man in the navy were threatened or were to be threatened with unlawful interference."

Protection if Necessary.
The navy department is without official knowledge that any demonstration is being planned to mark Admiral Sims' arrival, the secretary stated. He indicated very plainly, however, that the department will take steps to protect the admiral if necessary.

Since Admiral Sims has been instructed to "report immediately" to Washington, any attempt to interfere with his progress would be interference with the ordered processes of the navy department, it was pointed out. When Rear Admiral Sims arrives in Washington personally to face Secretary Denby, a full page advertisement in the Washington Times will say exactly what Irish-Americans think of him and his "jackass" speech. This advertisement will be in the form of an open letter to Admiral Sims from Americans of Irish birth and will repudiate the sentiments expressed by the admiral in London in the name of the whole American people.

Irish-Americans Indignant.
The statement that Sinn Fein agitators are responsible for the sinking of American ships and the killing of American soldiers will be refuted by evidence that 10,000 Irish-Americans died in the great war. A list of 1,000 of these names will be included in the advertisement as evidence that Irish-Americans are not traitors in war nor "zebras" in their political convictions.

SIMS DECLINES TO MAKE A STATEMENT

New York, June 21.—Answering a wireless request for a statement Admiral William S. Sims, who is returning on the Olympic, late Monday afternoon sent the following message to Universal Service:
"Aboard S. S. Olympic, en route Southampton to New York: Under present conditions I do not wish to make any statement."

Admiral Sims had been asked for a statement regarding his recall from England following his now famous "jackass" speech before the English Speaking Union in London on June 7.

THIRTY MORE TO ADD TO STILLMAN SCANDAL

New York, June 21.—Thirty witnesses—mostly women—were listed Monday by Mrs. Anne U. Stillman to testify to the relations of her husband, James A. Stillman, the deposed president of the National City Bank, with other women.

This was learned preliminary to a conference between Mrs. Stillman's lawyers which will be held in New York Tuesday. The conference will be one of the most important held since the opening of the case. In addition to tabulating the testimony of the Florence Leeds witnesses, the defense will prepare for the cross examination of Stillman in anticipation of his early appearance on the stand.

From the 30 witnesses available for Mrs. Stillman in the Leeds phase of the banker's philandering, Stillman's career of infidelity will be traced from the beginning up to within a few weeks. A report printed Monday to the effect that Mrs. Stillman would acknowledge the so-called hysterical letter confession to her husband stirred derisive comment among Mrs. Stillman's attorneys. "Jack" Prentice, known for many years as Stillman's most intimate friend, has repudiated the banker and will testify for Mrs. Stillman. It was learned Monday. Another society person who is expected to aid Mrs. Stillman is Mrs. Howard Gardner Cushing, widow of the noted artist. She is said to know the identity of the co-respondent "Helen."

Prentice is John H. Prentice, of No. 23 East 69th street, millionaire member of the firm of Clark, Dodge & Company, No. 51 Wall street. Prentice and Stillman cruised, fished, golfed and "played around" together constantly.

JILTED WAR VETERAN ENDS LIFE WITH GUN

Dixon, Ill., June 21.—Disappointed in love, his former sweetheart, Ethyle Knapp, a pretty school teacher having told him she was going to quit and bade him good bye, Carter Walls, of Champaign county, killed himself stinging in his automobile, with a revolver, in front of Miss Knapp's home Sunday night. Walls was a world war veteran with two years' overseas service.

HELD AS BRAINS OF BIG MAIL ROBBERY

Timothy D. ("Big Tim") Murphy, labor czar, of Chicago, and a power in South Side politics, who was arrested as the alleged "brains" that directed the \$350,000 Dearborn street mail robbery on April 6. It is alleged that he has confessed his part in the plot. It is reported he led a party of postal inspectors to the home of his father-in-law and personally unearthed a fortune of \$112,900, in currency and Liberty bonds.

EXPRESS DOUBT OF "T. B." CURE

New York Medical Men Skeptical Regarding Announcement That Cure Has Been Discovered.

BY WINIFRED VAN DUZER,
New York, June 21.—Members of the medical profession here Monday expressed only doubt concerning the reputed "miracle cure" for pulmonary tuberculosis, word of which came from El Paso Sunday.

The "cure" discovered after five years' research work by Dr. James S. Holderness, of Pine Bluff, Ark., is described as a gas which destroys the tubercle bacilli but does not injure the lung tissue.

This principle of healing, according to heads of various research laboratories here, is diametrically opposed to that by which the fight on the great white plague has been conducted throughout its history.

The gas used in Dr. Holderness' "miracle cure" is declared by that physician and his assistants, Dr. Asa Brunson and Dr. W. T. Bolding, to have cured 50 of the 200 patients treated since January 1.

Fifty more are believed cured; 50 have been benefited and the remaining 50 still under treatment.

Treatment is Simple.
The cures have been brought about, on the average. It is frankly stated that when there has been great destruction of lung tissue, there will be only more or less temporary relief.

The treatment is the exceedingly simple one of inhalation of vapor through an ordinary atomizer for perhaps five minutes daily.

Dr. Holderness and Dr. Brunson opened the clinic at their home in Pine Bluff last January. It is alleged that violent opposition from members of the medical association there as well as from residents who feared an establishment of a "lung colony" caused a removal of the clinic, after it had been established two months, to El Paso, famed haven of health seekers.

Patients who have been discharged from the El Paso clinic as cured, as well as others still under treatment, have described experiences of an almost immediate relief. Breathing is easier, they said, after the first three days, cough reduced; pulse and temperature approach normal after two to four days.

SUICIDE FAILS BUT HE WINS HER HEART

Special Cable Dispatch.
Paris, June 21.—Friends of Byron Morgan are congratulating him on his engagement to "Doraine," who is called the "loveliest woman in Paris," and who replaced Labelle Dhoyles as a dancer at the Casino De Paris.

Recently Morgan appeared at the Parquet, a smart night resort, wearing bandages, explaining that his love for Doraine had impelled him to shoot himself, the attempt being unsuccessful.

Doraine and Morgan are reported as to leave for New York in September, where she will exhibit her magnificent figure in a Broadway revue.

SURE, MANY AN IRISH COLLEEN HERE TO GIVE BEBE DANIELS A RACE

New York, June 21.—Several hundred Irish girls arrived here today on the Celtic, seeking careers as movie actresses and artists' models and stenographers. Few expressed any desire to enter domestic service.

HINTS BRITAIN WILL SIGN THE JAPANESE PACT

Lloyd George Speaks to Representatives of 378,000,000 English Subjects Before Imperial Council.

BY FORBES W. FAIR BARRN,
London, June 21.—That Great Britain intends to renew the Anglo-Japanese treaty despite all the arguments against it and that she plans remaining mistress of the seas was the burden of a most important pronouncement made by Premier Lloyd George at the initial meeting of the imperial conference at Downing street Monday afternoon.

Great Britain, however, the premier said, is willing to discuss and participate in a world disarmament program.

While broadly suggesting to the United States his hope for close cooperation to cut down on armaments and to bring peace to the world, the British premier distinctly declared that sea power is necessarily the basis of the empire's existence. He hinted that Great Britain will have to look to measures which her security in that regard requires.

"Friendly co-operation with the United States is for us a cardinal principle, dictated by what seems to us proper in the nature of things—dictated as much as by reason and common sense," said the premier.

Favors Disarmament Overtures.
"We desire to work with the great republic in all parts of the world. America, like ourselves, wants stability and peace on a basis of liberty and justice. Like America we desire to avoid the growth of armament, whether in the Pacific or elsewhere, and we rejoice that American opinion is showing so much earnestness in that direction at the present time."

"We are ready to discuss with American statesmen any proposal for the limitation of armaments that they may wish to set out. We can undertake that no such overtures will find a lack of willingness on our part to meet them."

"In the meantime, we cannot forget that the very life of the United Kingdom, Australia, New Zealand, indeed, the whole empire, has been built up on sea power and that sea power is necessarily the basis of the whole empire's existence."

"We have therefore to look at measures which our security requires. We aim at nothing more. We cannot possibly be content with less."

Premier Lloyd George called the attention of the dominion premiers to the importance of the renewal of the treaty with Japan, insisting that it is necessary for the preservation of peace in the Pacific and the Far East. He said:

Means Peace in Far East.
"It is one of the most urgent and most important of our foreign questions—the relations of the empire with the United States and Japan. There is no quarter of the world in which we desire more earnestly to maintain peace and fair play for all nations and to avoid competition in armaments than in the Pacific and the Far East."

"Our alliance with Japan has been a valuable factor in that direction in the past. We have found Japan a faithful ally who rendered us valuable assistance in the hour of serious and very critical need."

The British empire will not easily forget that Japanese men-of-war escorted transports which brought Australians and New Zealanders to Europe at a time when German cruisers were still at large in the Indian and Pacific oceans.

"We desire to preserve that well tried friendship which has stood us in good stead and apply it to the solution of all questions in the Far East, where Japan has important interests and where we ourselves, like the United States, desire equal opportunities and an open door."

Has Sympathy for China.
"Not the least among these questions is the future of China, which looks to us, as it does to the United States, for sympathetic treatment and fair play. No greater calamity could overtake the world than that there should be further accentuation of the world's division on racial lines."

"That Great Britain has done signal service to humanity in bringing these divisions together in the past, the loyalty of the Asiatic peoples is proof."

"To depart from that policy, to fall in that duty would, not only greatly increase the dangers of international war, but it would divide the British empire against itself."

"We look confidently to the government and people of the United States for sympathy and understanding in this respect."

Lloyd George discussed at great length world conditions arising from the peace settlement, declaring that the disarmament of Germany settled the problem and that reparations payments were proceeding satisfactorily to all the allies.

Peace Then Supreme.
Concerning the Polish and Turkish questions, the premier is hopeful that "once these two questions are settled then we may say that peace has been made and established in the world."

VAMP WAS R. R. EMPLOYEE SO HE REALIZED \$5,500

Council Bluffs, Ia., June 21 (Special).—Pat Kelley, of St. Joseph, today settled his damage suit for \$5,500 against the Union Pacific railroad for \$5,500. He recently was about to settle his claim for \$1,700, when he discovered, he alleges, that Stella Summers had vamped him and lured him to Omaha. He says he discovered she was in the employ of the railroad company.

POSSE CAPTURES SLAYER; RUSHED TO OMAHA JAIL

Maddox Pleads Guilty to Murder Hour After Tragedy—Shot Farmer Employer Over Money Dispute, Report.

Pender, Neb., June 21 (Special).—Less than an hour after it is alleged that he shot and killed John Schnier, 35 years old, a prosperous young farmer residing two miles northeast of here, Will Maddox, 36 years old, was captured by a posse about six miles south of the Schnier farm. The tragedy took place on the Schnier farm about 1 o'clock Monday afternoon.

Trouble started, it is alleged, when Maddox demanded that Schnier pay him \$115 due as wages. It is not known whether Schnier refused to pay him off or that he told Maddox he was short of funds. Witnesses state that Maddox was seen pursuing Schnier from the barn to a clump of woods nearby, discharging a .12 gauge shot gun which inflicted a mortal wound behind the right ear. Schnier lived about an hour but never regained consciousness.

Compels Man to Drive Car.
George Koin and family, of Carroll, Neb., had arrived to spend the day at the Schnier farm. After the shooting, Maddox forced Koin, an uncle of the victim, to drive his car. According to Koin, Maddox sat in the rear seat of the machine and urged Koin to drive full speed under threat of death. Koin complied with the demand.

After racing six miles south, Koin stopped his car, pleading with Maddox that he was too nervous to drive any further. Koin, who is an elderly man, said Maddox did not urge him to continue.

Posse Captures Maddox.
About this time a big touring car swung around a bend in the road. The party which was composed of C. E. Baker, Verns Penny, Julius Meyers and Henry Heyne, Jr., all young men of Pender and heavily armed, commanded Maddox to surrender. He did so without a struggle.

He was then rushed to Pender, where the accused man immediately was arraigned before County Judge Frank Flynn on a charge of first degree murder. Maddox pleaded guilty to the charge and was bound over to the district court.

Fearing mob violence, Sheriff C. W. Rutledge, Deputy Sheriff S. M. Young, James Malloy and Mr. Baker, chartered an automobile and rushed the prisoner to the Omaha county jail. It is said that a number of farmers in the vicinity of the Schnier farm were arranging a "necktie party."

Home in Missouri.
Maddox, according to Pender citizens has been working in Nebraska for the last two years. He has said that he has a mother in Roscoe, Mo., whom he is supporting and to whom he was about to pay a visit.

Schnier, according to his neighbors was a well liked farmer who was making good. He leaves a widow and two small children. The children are by a former marriage. He was married the second time only last January. Funeral arrangements have not been made.

Congressman Seeks Law to Halt Women Smoking Cigaretts

Universal Service.
Washington, June 21.—Representative Johnson, democrat, of Mississippi, Monday made himself the most unpopular member of congress among Washington society women.

He introduced a bill in the House that would prohibit the wife or daughter of any senator, cabinet member, representative, or even a humble "war worker" from enjoying an occasional cigaret in public.

The bill would punish any girl or woman caught smoking in public in the capital with a fine of not more than \$25 for the first offense and not less than \$100 for a second offense.

"Why, I was walking down the street the other day and I saw a young lady take a cigaret out of the hand of the young man she was walking with, and take a puff herself," Mr. Johnson said. "You can go to any hotel in Washington, to public functions and to places after the shows and see women smoking cigarets."

"It is worse than whisky. The girls at college learn how to smoke and then they go home and teach it to the other girls, so that smoking by women is constantly on the increase."

DECOMPOSED BODY OF WOMAN IS FOUND

Pueblo, Colo., June 21.—The decomposed body of a woman about 40 years old, in a large flat packing case was found last night in a downtown alley by children at play. The woman had evidently been dead eight or nine months, authorities stated.

The limbs had been hacked off below the knees and placed in the box. The throat had been cut with a hatchet or knife, according to the authorities. Colorado rangers and city officials are investigating.

U. S. SHIP IN TROUBLE.

Halifax, N. S., June 21.—The United States shipping board vessel Ozette is in trouble 200 miles south of Halifax, according to a radiogram to the naval station here.

The Ozette was having trouble with her boilers and requested that she be towed in. The tug Musquash was sent to her aid.

The Ozette, a 6,078-ton steamer, built in Seattle, was en route from Newport News to Portland, England.

BRITISH KING TO VISIT IN ULSTER

Military Authorities Pick Flower of English Army to Protect Royal Party—Opens Parliament.

SIGNAL FOR PEACE?

Special Cable Dispatch.
London, June 21.—A report was current in the lobby of the house of commons Monday night that the Sinn Fein plans to signalize the king's visit to Belfast by making an offer of peace to his majesty.

BY FORBES W. FAIRBARRN,
Universal Service Correspondent.
London, June 20.—More than 11,000 British soldiers, sailors and police detectives will line the streets of Belfast when King George V and Queen Mary enter the Ulster capital for the historic opening of the northern parliament Wednesday.

Thirteen battleships will escort the royal yacht, Victoria and Albert from Holyhead Tuesday night. Extraordinary precautions are being taken to prevent any kind of a political demonstration during the royal procession from the yacht to the parliament building.

No persons will be allowed to occupy the roof of any building along the route and all the saloons will be kept closed until 5:30 o'clock Wednesday night. The military authorities are preparing a list of all the property owners along the route that will be taken by the king and queen in the Belfast parade.

Extensive reinforcements of the military forces and the constabulary are arriving from England. The Irish guards from Aldershot entrained Monday morning for the Ulster capital where they will hold the procession forming the king's personal guard of honor.

Despite widely circulated reports that there is bound to be a demonstration against the king, it is not thought in London that official Sinn Fein will countenance any outbreak against the heads of the empire at this time.

Military authorities Monday admitted that more than 6,000 crack troops will be stationed in and about Belfast Wednesday morning. There also will be 2,000 members of the Royal Irish constabulary and 3,000 special constables. In addition to these forces there will be 300 special secret service operatives from Scotland Yard.

The king was not in favor of all these special preparations but the authorities were adamant. So the sovereigns life is to be guarded against any possible contingency.

KIDNAPED FIVE MONTHS; WOMAN ESCAPES CAPTOR

Riverside, Cal., June 21.—Almost crazed with grief, Mrs. Victoria Anha Monday told an amazing story to District Attorney Kelly. She said that five months ago she was kidnaped by Jose Morales, while she was walking along East Fourteenth street, Riverside. Morales, she alleges, took her to a shack and almost daily chained her to a huge pepper tree while he was away to work.

It was five months ago that Luis Anha, her husband, reported to the Riverside police that his wife was missing. Until Monday nothing was learned of her whereabouts. When she disappeared she had \$300 in her pocketbook with which to pay bills.

Mrs. Anha asserted she was tethered to the tree with a log chain around her neck. When Morales returned from work at night he released her, frequently beating her and threatening to stab her with a long knife.

Last Sunday evening when Morales' horse wandered away he sent Mrs. Anha to look for the animal. She stopped a Riverside-Santa Anna stage and rode on it into Orange and Monday Orange county officers brought her to Riverside.

Woman Wields Gavel In Congress; First Time in All History

Washington, June 21.—For the first time in the history of the American congress, a woman presided over the deliberations of one of its houses Monday.

Miss Alice Robertson, of Oklahoma, the only woman member of congress, wielded the gavel while the house of representatives at the request of President Harding and Secretary of State Hughes, passed a bill authorizing the sending of a United States commission to Peru during the centennial celebration in the republic.

The members of the House rose and applauded when Speaker Gillette requested "Miss Alice" to ascend to the chair. When she announced the passage of the bill she was applauded again.

During her brief term as presiding officer she made the House behave for the only half hour of recent years. Members did not have to be silenced or called to order.

AIRPLANE IS DESTROYED IN OAKLAND, NEB., FIRE

Oakland, Neb., June 21 (Special).—Fire here today destroyed the Willard battery station, West & Brown's garage, four automobiles and West's airplane, upon which he had expended more than one year's time and much money to patent and construct. No estimate of the loss was made.

The blaze is of undetermined origin.
