 —that is winning first place on cars owned by big national corporations, California bus lines, taxi companies in big cities and on oil trucks in Texas.  
 MILLER success today is due to a thorough mastery of rubber, dating back to the time before pneumatic tires were known. Cord tire mileage, through costly tests and comparisons, has been more than doubled and cost per mile cut in half.  
 So Millers, with rarity of service and uniform mileage, with staying power that challenges load and road, are winning contests everywhere.  
 Come now and try a Miller opposite the tire you favor. Our service is made expert to give you every mile built into them.
