The NEW EDISON

is positively the only phonograph that can sustain the acid test of direct comparison with the living artist. It has given this amazing performance of direct comparison over 5,000 times before over four million people.

This Picture Means Something To You!

THIS picture is sketched from an actual photograph made of Bamboschek, principal conductor of the Metropolitan Opera, listening to the great Muzio sing in comparison with the New Edison's RE-CREATION of her voice. After the comparison, Bamboschek in amazement said: "I have heard a comparison between Miss Claudia Muzio's voice and its RE-CREATION by the New Edison. I consider that the quality of Miss Muzio's living voice and the quality of her RE-CREATED voice are identical."

Is Bamboschek's Judgment Good Enough For You?

BAMBOSCHEK knows every note of Muzio's voice as you know the voice of the one nearest and dearest to you—and he pronounced Muzio's voice and its RE-CREATION on the New Edison IDENTICAL. Can you ask for any more—or could there be any more, positive proof that the New Edison gives you the performance of great artists with perfect, life-like realism? And it is significant, that only the New Edison dares to make direct comparison with the living artist or artists.

Three Days of Mood Music Free!
