

HAS FIRST WELL DAY IN 6 YEARS

Huntington Citizen Could Neither Sleep Nor Eat With Any Satisfaction Before He Got Tanlac.

"Before taking Tanlac I had not seen a well day in six years," said W. R. Peoples, 328 22nd St., Huntington, W. Va.

"It seemed like I had lost my health for good. I could neither sleep nor eat with satisfaction. I was badly run down, nervous, had no appetite and had to force down every mouthful I ate. Even then my food soured. I would fill up with gas until I had intense pains in my stomach and chest. Headache almost drove me mad, rheumatism in my arms, shoulder and hips kept me in pain all the time, and I had to force myself to work.

"Tanalac went right after my troubles. On four bottles I gained ten pounds and the rheumatism and stomach trouble soon left me. My wife has given a statement about the good Tanlac did her, and I am glad to add my endorsement of this wonderful medicine."

Tanalac is sold by all good druggists.

Predictions.

Visionaries are predicting that the airplane will take the place of the auto.

A few years ago they were predicting that the auto would "drive out the horse."

Now comes the government, reporting that the country still has 19,069,000 horses, compared with 10,833,113 in 1910.

We have about 10,000,000 motor-cars, along with nearly twice as many horses as 12 years ago—and find we need both.

That will be the auto's future. Airplanes will fly by millions. Use of autos will increase. The two together will be insufficient to furnish man with enough transportation, one thing we are always behind on.

Could Do Her Part.

"Alice," said the mistress, reprovingly, "this is absolutely the worst pie I ever tried to eat. You told me that you could make as good pies as any cook in the city."

The new kitchen girl placed her arms akimbo and faced her mistress with defiance.

"So I can, mum," she said. "So I can. But all the leddies I ever wurked for mixed the pies themselves before I baked 'em, mum."

"S"—A mark of respect in the United States.

The best security a man can have is a good name.

Sheriff Refuses to Free Six Chicago Women Granted Pardons by Governor Small

Chicago, May 9.—Sheriff Peters refused Monday night to release the six women prisoners held for contempt of court, although Gov. Len Small had granted them pardons. The sheriff questioned the governor's power.

"I fear I would be in contempt of court myself and sent to jail if I released these women," the sheriff explained.

The case has attracted unusual attention because nobody wants to see the women serve their sentences. They were ordered to jail more than two years ago by Judge Denis E. Sullivan after they had violated an injunction against picketing at a cigar factory where a strike had been called. They appealed and made bond.

Taken to Jail With Babies. The appellate court last Thursday issued an order upholding the order of Judge Sullivan. The women were taken from their homes and taken to jail, carrying their babies.

Judge Sullivan expressed a willingness to suspend sentence, but said the matter was out of his hands. He could do nothing.

Judges of the appellate court likewise said they could not intervene. Governor Small, moved by the condition of the women, two of whom are about to become mothers, said he would cut red tape and issued pardons.

Attorneys "Coach" Sheriff. The pardons were received at the jail Monday night, but the sheriff had been advised by his attorneys against honoring them.

"It is a civil contempt case," the sheriff said, "and after a consultation of authorities I am of the opinion the governor lacks the power to issue pardons in such cases."

It was hinted Monday night that if the sheriff continues to ignore his pardons, Governor Small will declare martial law, order out the militia and release the women.

Washington, May 9.—Senator Borah Monday telegraphed an invitation to Grengorie Semenov to come to Washington and testify before the Senate investigating committee, as follows:

"Your telegram received. If matters can be properly arranged I shall be glad to give you all the hearing you desire."

The message was sent in care of Semenov's lawyers, Clark, Prentice and Roulstone from whom Senator Borah received a letter complaining that no opportunity has been given Semenov to answer the charges of butchery and interference with American forces which were contained in the testimony of General Graves and Colonel Morrow.

Senator Borah intends to have a meeting of the committee within a day or two to consider plans for hearing Semenov.

IRISH PEACE COMMITTEE OPTIMISTIC, IS REPORT

Dublin, May 9.—The peace committee resumed deliberations Monday night and while no statement was given out as to what progress was being made to bridge the gap that separates the free states from the republicans, hope was held out in official quarters that an agreement would be reached that would unify Ireland.

There is a possibility of free lands in the Dail Eireann blocking plans for an agreement, but in official quarters this possibility is declared remote.

SIX BARRELS OF WINE IS NOT TOO MUCH

Des Moines, Ia., May 9.—Six barrels of wine is not too much for one family. A jury of four women, one a W. C. T. U. worker, and two men, returned a verdict to this effect in Judge Bonner's court here. The case on trial was that of Mike Decorpo, charged with maintaining a liquor nuisance. Police raided Mike's home on April 18 and seized six barrels of home made and imported wines. The verdict, which establishes a precedent of far reaching import, directed that the liquors be returned to Decorpo's home.

Hog Pedigrees to Have Monument. A monument is to be erected to commemorate the beginning of the practice of writing pedigrees for hogs. The first such pedigrees, oldest records show, were written in 1875 for Poland China hogs on the farm owned in Blue Ball, Ohio, by W. C. Hankinson. Part of the necessary funds for the monument has been raised by the Ohio State Poland China Breeders' association, and the Hankinson estate, which still owns the farm, has consented to the erection of the monument on the property. Why Castoria?

YEARS ago Castor Oil, Paregoric, Drops and Soothing Syrups were the remedies in common use for Infants and Children; Castor Oil so nauseating as to be almost impossible and the others all containing Opium in one form or another, but so disguised as to make them pleasant to the taste, yet really to stupefy the child and give the appearance of relief from pain.

It required years of research to find a purely vegetable combination that would take the place of these disagreeable, unpleasant and vicious remedies that from habit had become almost universal. This was the inception of, and the reason for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its worth, received the praise of Physicians everywhere and become a household word among mothers.

A remedy ESPECIALLY prepared for Infants and Children and no mother would think of giving to her baby a remedy that she would use for herself, without consulting a physician.
